BIWITECH VISIONTOUCH

Invest in Quality and Technology with Our Interactive Screens

In a world where customer service is key, offering dynamic and interactive experiences makes all the difference.

Biwitech VisionTouch interactive displays combine high resolution, efficient performance, and advanced touch technology. Designed to enhance any interior environment, from retail stores and offices to meeting rooms and educational centers, these displays offer the perfect solution for interactive digital visualization and communication.

Key Benefits for Various Sectors:

Retail: Increase Sales and Improve Customer Experience

- **Dynamic and Real-Time Advertising:** Promote products, discounts, and events without the need for printed materials.
- **Customer Interaction:** Allows you to browse digital catalogs, scan QR codes, or make interactive purchases.
- **Cross-Selling and Up-Selling:** Recommend related products and special promotions based on customer behavior

Offices: Efficient Communication and Professionalism

- **Impactful Presentations:** Enhance meetings and conferences with touch tools and multimedia content.
- **Corporate Digital Signage:** Display key information such as schedules, events, and internal announcements in real time.
- **Workspace Optimization:** Facilitates the management of meeting rooms and office directories.

Restaurants: Streamline Service and Improve Customer Experience

- **Interactive Digital Menus:** Explore dishes, ingredients, and prices with high-quality images.
- **Contactless Ordering and Payment:** Reduce wait times by allowing self-service table-side orders.
- **Price and Promotion Updates:** Change menus in seconds at no additional cost.

Hospitals and Clinics: Clear Information and Reduction of Waiting Times

- **Information Screens:** Displays shifts, medical instructions, schedules, and protocols without congestion at reception.
- **Patient Interaction:** Facilitates self-service appointments, hospital location maps, and digital forms.
- **Less Stress for Staff:** Reduces administrative burden by allowing patients to access information independently.

Educational Centers: Enhance Learning and Communication

- **Interactive Classrooms:** Improve teaching with digital tools that enable dynamic explanations and real-time collaboration.
- **Digital Signage on Campus:** Facilitates the dissemination of information about events, schedules, and last-minute changes.
- **Efficient Resource Management:** Digitize access to educational materials and reduce dependence on paper.

Hotels: Improve Guest Experience and Optimize Management

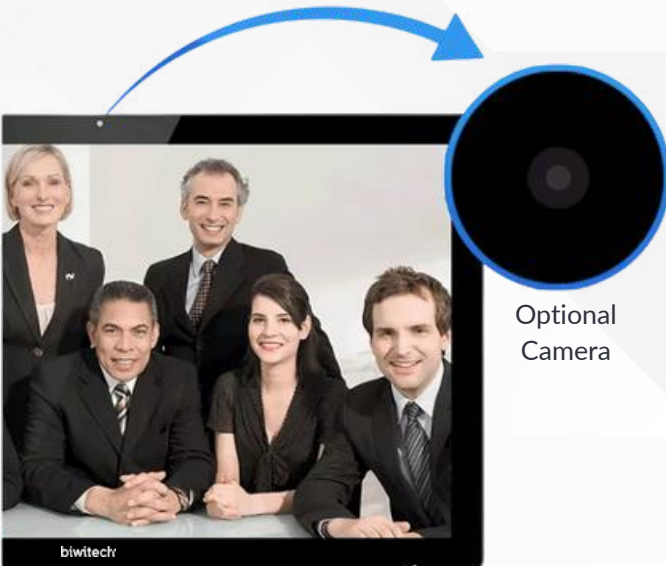

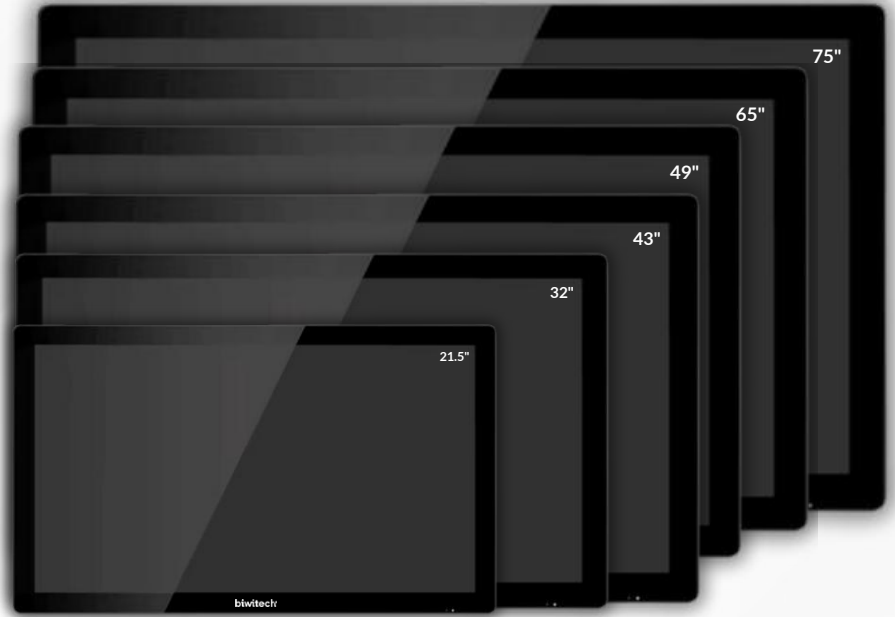

- **Screens in Rooms and Common Areas:** Facilitate reservations for spas, restaurants, and activities within the hotel.
- **Events and Conferences:** Digital signage for meeting rooms, schedules, and special promotions for guests.
- **Personalized Service:** Allows guests to access menus, order room service, and learn about exclusive offers.

Versatility in All Sizes with Biwitech VisionTouch

Biwitech VisionTouch interactive displays offer a wide variety of sizes, from 21.5" to 75", allowing every business to find the perfect solution for their needs.

Whether for retail, offices, hotels, restaurants, or educational centers, these displays guarantee interactivity, high image quality, and a modern design. They optimize communication, enhance the user experience, and transform any space into a digital environment.

Optional
Camera

Optional Camera

Biwitech VisionTouch displays offer the option of integrating an HD camera, expanding the possibilities for use in a variety of environments. Whether for video conferencing, access control, facial recognition, or more dynamic interactions, this option provides greater versatility and connectivity.
