Smart doesn't have to be complex. For decades, our family-owned company has relied on a simple formula for success: **innovation + quality + reliability**. Just like all of our formulas, customers can count on it.

INNOVATION

Brody Chemical is always evolving to find new ways to create better products as well as improving on existing processes. Our research and development is constantly innovating to improve the products and services we manufacture today. We strive to provide a product that not only is extremely effective, but also safe-to-use and environmentally friendly.

OVER 80 YEARS OF EXPERIENCE

Our background in chemistry, quality assurance, and industry specific knowledge helps us understand the obstacles our customers face. Finding solutions to our customers' needs is our primary focus. Providing the right product helps our customers get the job done right the first time, safely and effectively.

ONE-STOP SHOP

We strive to offer complete solutions for your business. The equation is pretty simple. The more solutions and services we can offer to our customers, the more money you can save and the more efficient your ordering will be.

CONCRETE

Keep your concrete trucks looking like new with our exceptional concrete removers for trucks, tools, and equipment. We provide biodegradable products and install and maintain state-of-the-art acid-resistant chemical spray systems.

Brody Chemical is your one-stop-shop for concrete removers, neutralizers, coatings, form-release chemicals, and application equipment.

Schedule a demonstration today with a trained chemical consultant.

APPLICATION EQUIPMENT

Using a foaming sprayer allows for longer contact time and efficient, complete removal of concrete from ready mix drums.

Consult with a Brody Chemical sales representative to choose the correct spray applicator for your facility. Brody Chemical provides foaming and spraying air operated equipment at no cost to our customers when utilizing one of our concrete removal products.

Our skilled service technicians install and maintain our concrete spray systems on a regular basis or as needed for quick fixes.

PRODUCT COLLECTION

Brody Chemical provides the newest innovative products that are safe for the user and the environment. Safety is our highest priority. We strive to formulate all of our concrete products with the customer and environment in mind.

hydrochloric acid!

CONCRETE REMOVERS

BLAST AWAY SUPER 2108S

BLAST AWAY 2108

Organic salt and Phosphoric blend that brightens and removes concrete in one easy step!

This fast-acting concrete remover removes heavy concrete build-up. Contains brightening agents that help brighten paint and aluminum. Can be applied with a bucket and brush or a spray/foam applicator. Easy to use and low-odor product.

CONCRETE REMOVER 2109

97% Hydrochloric blend formula!

Brody's Concrete Remover is made for hardened concrete. Formulated with foaming surfactants that help the product cling to vertical surfaces and a rust inhibitor that helps to limit corrosion of metal. Can be applied with a bucket and brush or a spray/foam applicator.

CONCRETE TRUCK CLEANER SUPER 102108S

CONCRETE TRUCK CLEANER 102108

CONCRETE TRUCK CLEANER PLUS 102108P

Up to 90% less fumes than standard hydrochloric acid!

Brody's Concrete Truck Cleaner Super is perfectly formulated to remove hardened concrete from equipment quickly and efficiently. Designed as a full-strength concrete remover with safety in mind. This powerful organic salt formula contains buffering agents to prevent burns on intact skin. This product is available in three concentrations to perfectly meet your needs for all types of applications and climates.

KICK ACID CONCRETE TRUCK CLEANER 4101

KICK ACID CONCRETE TRUCK CLEANER PLUS 4101P

Cleans like an acid with the safety of a dish soap!

This product is a liquid acid alternative with no odors or fumes. It attacks the portland in concrete, completely dissolving the hardened concrete to a mushy substance that will completely rinse off with high pressure and cold water. Kick Acid Concrete Truck Cleaner does not atomize into the air like traditional hydrochloric acids. Easier to breathe and less harmful to skin. 100% biodegradable. It contains no Sulfuric Acid, Muriatic Acid, Hydrochloric Acid, or Phosphoric Acid. Available in two concentration to perfectly meet your needs for all types of applications and climates.

SAFE SCRUB CONCRETE REMOVER 2115

Glycolic formulation that is an excellent alternative to corrosive acids!

This concrete remover has low to no corrosion on most metals and coatings. No odor, non-flammable, and low toxicity. This glycolic formula has excellent water solubility that enables deep penetration in concrete residues. It can safely be used on metal and equipment surfaces without causing etching or damage. Keep your trucks looking new and rust-free. Safe on paint, glass, and wiring.

ALUMINUM BRIGHTENERS

ALUM-A-BRIGHT

1008

Foaming drum brightener!

Cleans and brightens dull and oxidized cement coated aluminum in one easy step. Just spray or brush on, soak, and pressure rinse. Eliminates rust and corrosion and safe on painted surfaces. Brings the shine back to your aluminum surface. Not safe on polished aluminum.

CITRA SAFE

2792

Polished aluminum-safe brightener!

Citra Safe is designed to clean and polish in one step. It is safe on polished aluminum and will not cause etching or darkening of polished aluminum surfaces. No-scrub product. Use on aluminum, chrome, and stainless steel surfaces.

TRUCK WASH SOAP/NEUTRALIZERS & NON-STICK COATINGS

CONCRETE FORM RELEASE

2842

Provides easy form removal and a smooth concrete finish!

Concrete Form Release is an oil-based, viscous, form release agent that can be used for a multitude of applications. Prevents build-up and provides a smooth concrete finish. It provides a smooth concrete finish by preventing the buildup of concrete on metal, fiberglass, plastic, or wood forms. Significantly reduces the formation of bug holes and improves efficiency with fast cleanup and reapplication of forms. Excellent rust and corrosion protection for metal forms. VOC compliant.

MAX FORM RELEASE PREMIUM

1091

Premium, non-staining, mineral oil-based release for concrete trucks and concrete forms!

Maximum Form Release is a premium, non-staining, chemically active, highly refined mineral oil-based form release coating. Provides the concrete construction forming industry with an environmentally compliant release agent for both indoor and outdoor application. Max Form Release produces a smooth, hole-free, architectural concrete surface. VOC compliant.

SLICK SURFACE ANTI-STICK COATING

9590

Prevents concrete build-up on your truck's surface!

Anti-stick protectant for the ready-mix industry. This unique formula puts a protective barrier on the concrete truck's surface which retards adhesion and reduces the concrete build-up on the truck. It leaves an invisible shield which protects against corrosion. Seals, conditions, and restores surfaces including tires, chrome, and paint. Can be diluted up to 20:1 and should be applied at the beginning of each day.

SUPER CLEAN

2911

High-foaming, fast-rinsing, neutralizing, no-residue solution!

Super Clean is a bumper-to-bumper, non-toxic cleaner. It quickly removes road film, grime, grease, and bug residue. Super Clean brightens surfaces, eliminates water spotting, and is safe-to-use on polished aluminum. Built for high performance in tough conditions, Super Clean guarantees a spotless, clean, streak-free finish every time and neutralizes acidic products used to remove concrete.

WHAT MAKES US DIFFERENT

Brody is more than just a distribution and supply company. We are a true manufacturer of specialty chemicals that are produced under strict quality control standards.

Our comprehensive line of products fulfills the unique needs of our customers – enabling them to consolidate their purchasing and eliminate the need for multiple vendors.
