Step Into Innovation

The 2026 Sportage interior gets a modern refresh with a sleek new dashboard, a redesigned two-spoke steering wheel, and available two-tone interior options.¹

Class-Leading 2nd-Row Legroom

With 41.3 in. of class-leading 2nd-row legroom, you'll be able to comfortably share the ride with family and friends.²

Class-Leading Cargo Room

Sportage offers ample cargo room with the rear seats folded flat, so you can level up the adventure with your must-have toys and tools. Plus, with the rear seats folded up, Sportage offers class-leading cargo room.³

First-Class Front Row

The front-row seats offer available heating and ventilation for comfort in a variety of climates. Plus, the available 2-position memory driver's seat lets you save and recall two preset seating positions, so it's always set just the way you like it.⁴

Stylish Interior

The 2026 Sportage features new accent trim finishes and a range of available interior color options, including Terracotta on X-Line.⁵

Panoramic Sunroof

The 2026 Sportage features an available panoramic sunroof that provides an expansive view of the sky for a more airy and open driving experience.⁶

Dual Panoramic Display

The available Dual Panoramic Display gives you approximately 24 in. of total combined displays for navigation, driving information, entertainment, and more.¹

360° Surround View Monitor

The available 360° Surround View Monitor can help you take the guesswork out of parking by providing an aerial view of your surroundings to enhance awareness when maneuvering your vehicle in certain situations.²

Blind-Spot View Monitor

Activated by your turn signal, the available Blind-Spot View Monitor displays a live video feed of your vehicle's rear blind spots in your dashboard gauge cluster to help you change lanes with confidence.³

Wireless Connectivity

Standard Wireless Apple CarPlay® and Wireless Android Auto™ allow you to bring along many of your must-have apps, accessed via the intuitive touchscreen or hands-free with voice control.⁴

All-Wheel Drive

Available active all-wheel drive (AWD) w/ Terrain Mode helps provide optimum driving performance, traction, and stability in a variety of conditions.¹

Multi-Terrain Mode Selector

Sportage AWD, X-Line, and X-Pro trims feature a Multi-Terrain Mode Selector so you can easily switch between the capable mud, snow, and sand terrain modes to optimize the drivetrain and enhance driver confidence with increased traction and stability.²

Impressive Ground Clearance

Sportage offers up to 8.3 in. of available ground clearance to help enhance visibility for confident exploration.³

Capable All-Terrain Tires

The 2026 Sportage X-Pro Prestige features 17-in. wheels with all-terrain tires so you can confidently tackle the road ahead.⁴

Bold From Every Angle

Stand off as you arrive and turn heads as you go with updated front and rear-end designs that add rugged personality and sophisticated style.¹

Eye-Catching LED Headlights

Make your presence known and illuminate the path ahead with vertical LED headlights and distinct amber daytime running lights (DRL) featuring a bold design.²

Distinctive Wheel Designs

New available 17, 18, and 19-in. wheel designs add rugged style for a driving experience that looks as elevated as it feels.³

Exclusive X-Line & X-Pro Design

Sportage X-Line and X-Pro trims are designed with unique exteriors and exclusive additions to help you stand out from the pack, including a two-tone black roof on the Sportage X-Pro trim.⁴

Auto Emergency Braking Technologies

Standard Auto Emergency Braking w/ Junction Turning Detection uses sensors and a camera to scan the road ahead for approaching vehicles and can, in certain circumstances, automatically apply the brakes when a potential collision is detected.¹

Blind-Spot Collision-Avoidance Assist

If you try to change lanes while an object is detected in your blind spot, available Blind-Spot Collision-Avoidance Assist can help maintain your previous course by helping the vehicle return to its lane.²

Rear Cross-Traffic Collision-Avoidance Assist

If oncoming obstacles are detected while reversing out of a parking spot, available Rear Cross-Traffic Collision-Avoidance Assist can issue an alert to the driver or, in certain circumstances, apply the brakes to help intervene.³

Parking Sensors

Standard front and rear parking sensors and available side parking sensors use integrated ultrasonic sensors to help detect obstacles in front of, behind, and to the side of your vehicle. If an obstacle is detected, the system can provide an auditory warning.⁴
