EV Infrastructure Growth Forecast

Investor Highlights

- Active EV infrastructure builds in California and New York
- Diversified growth through lifestyle and energy sectors
- Positioned for ESG-focused impact and sustainable returns
- Subsidiaries include Green Rain Energy and M Love Vintage Holdings
- Strategic partnerships with local utilities and municipalities

EV Charging Momentum Builds in California & New York

We're proud to announce that our subsidiary **Green Rain Energy** has made major strides with its **EV charging infrastructure initiatives**:

Carson, California

Green Rain Energy has been selected to install a cutting-edge EV charging site at **23315 Main Street**, less than 5 miles from **Dignity Health Sports Park**, a venue for the **2028 LA Olympics**. This location is strategically placed to serve the surging regional demand in anticipation of the Games and beyond.

Rochester, New York

In partnership with **Chronical Electric** and **Rochester Gas & Electric (RG&E)**, Green Rain Energy is spearheading a **high-speed EV charging and battery storage project**. This collaboration ensures infrastructure scalability while helping the Northeast meet clean energy targets.

These projects position NWPN at the forefront of **urban EV accessibility** and **grid-integrated energy solutions**.

Lifestyle Growth: M Love Vintage Holdings Inc.

NWPN is also expanding its lifestyle vertical through **M Love Vintage Holdings Inc.**, reviving and evolving the legacy of **Chuck's Vintage**. With a renewed focus on luxury denim and classic Americana style, the brand is capitalizing on the global rise of **vintage fashion and sustainable retail**.

This is more than fashion—it's a cultural movement that aligns with our values of quality, authenticity, and timeless innovation.

Industry Outlook & Company Vision

EV Charging & Clean Energy

The global EV infrastructure market is projected to grow at a CAGR of over **25% through 2030**, supported by rising EV adoption, federal incentives, and climate targets. NWPN's projects in California and New York are well-timed to capture growth in both consumer and fleet-based charging demand.

Diversified Expansion

Through its subsidiaries, The Now Corporation is building a **multi-industry footprint**:

- Clean energy & solar installations
- EV infrastructure
- Vintage fashion & retail
- Strategic technology partnerships

With innovation and ESG principles at its core, NWPN is positioning itself as a **next-generation holding company** committed to tangible, sustainable impact.
