Secure storage for Hazardous Substances

It is essential that employers and employees comply with their legal obligations under the 'Control of Substances Hazardous to Health' (COSHH) and 'Dangerous Substances and Explosive Atmospheres Regulations 2002' (DSEAR) workplace safety regulations.

Supplied with three high visibility labels. Simply choose the right label for the type of substance being stored:

- Corrosive materials.
 - Highly flammable.
 - Harmful materials.
 - All Hazardous Substance storage units are of steel construction for long life with low maintenance with reinforced doors for added security.
 - Matt textured paint finish in high-visibility yellow (similar to RAL 1004) with ActiveCoat antibacterial protection.
- All hazardous substance storage cupboards have the following features;
- Fully welded integral sump to eliminate leakage and contain spillages up to 35ltrs (approx).
 - All units 790mm and above feature 3-point locking for additional security of contents and allow door to be closed without the key being inserted.
 - Flush fitting handle for smaller cupboards under 770mm with Camlock as standard.
 - All locks are supplied with two keys.

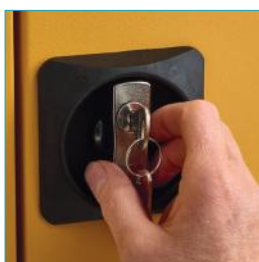

ACTIVECOAT

All painted components are protected with a powder coating which incorporates ActiveCoat anti-bacterial technology.

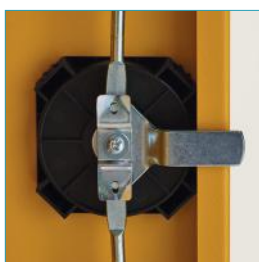

In the event of spillage within the cupboard, it is recommended the sump is initially emptied by means of an appropriate pump and the contents disposed of correctly in accordance with the relevant waste management regulations.

Optional hasp and staple fitting, for use with a padlock (not supplied), on 915mm cupboards is available

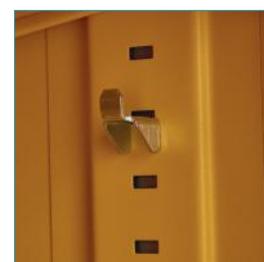

Handle is designed for easier operation; allowing the door to close without the key.

Three points locking for secure storage.

Dished top available on half height cupboard.

Shelves are easily adjusted on clips.

Our range

H1661HLWLW29S13

- Three adjustable shelves
- Three-point locking

Height - 1905mm	
Width mm	Depth mm
477	505
