COLOUR CHART  
**WOOD PROTECTIVE COATINGS**

## WOOD STAINS

### BARPIDECOR FONDO

6-8 h  
10-12 m<sup>2</sup>/l

Water-repellent impregnating primer for wood; preventive and effective. Indoor/outdoor.

### BARPIDECOR

8-12 h  
24 h  
12-16 m<sup>2</sup>/l

Water-repellent protective wood stain based on special alkyd resins and active agents. Indoor/outdoor.

### BARPIDECOR ALTA PROTECCIÓN

5-8 h  
24 h  
20-24 m<sup>2</sup>/l

High-solids satin stain. Resistant to water and UV radiation. Indoor/outdoor. Maximum performance and durability.

## OILS

### ACEITE DE TECA

20-30 min  
9-12 m<sup>2</sup>/l

Protective penetrating oil that shields wood from weathering and restores flexibility and texture to aged wood. Ideal for garden wood, latticework, etc.

### ACEITE DE LINAZA

24-48 h  
12-15 m<sup>2</sup>/l

Impregnating oil used to restore woods that require a natural finish. Nourishes, preserves, and maintains wood and porous surfaces such as exposed bricks, tiles, porous ceramics, etc.

## FLOORS

### POLPARQUET

30 min  
2 h  
10-12 m<sup>2</sup>/l

Single-component polyurethane varnish for wood floors. Ideal for sealing and varnishing indoor woods.

## INDOOR

### BARNIZ SINTÉTICO

4-6 h  
24 h  
15-18 m<sup>2</sup>/l

High-quality, decorative synthetic varnish based on modified alkyd resins.

### BARNIZ TINTE

4-6 h  
24 h  
15-18 m<sup>2</sup>/l

High-quality, decorative stain varnish based on modified alkyd resins.

## PRIMERS

### MASILLA MADERA

3-4 h  
0.65 m<sup>2</sup>/kg

Ready-to-use filler reinforced with fibres. For smoothing, repairing, and sealing wood.

## OUTDOOR

### BARNIZ INTEMPERIE URETANADO

5-8 h  
24 h  
15-18 m<sup>2</sup>/l

High-quality synthetic urethane varnish with modified alkyd resins, resistant to weathering and marine environments, featuring UV filters.

### BARNIZ MARINO

5-7 h  
24 h  
17-20 m<sup>2</sup>/l

Elastic marine varnish resistant to marine environments and UV radiation. For boats and outdoor wooden structures.

## TREATMENTS

### BARPIXYL 100 WB WATER-BASED

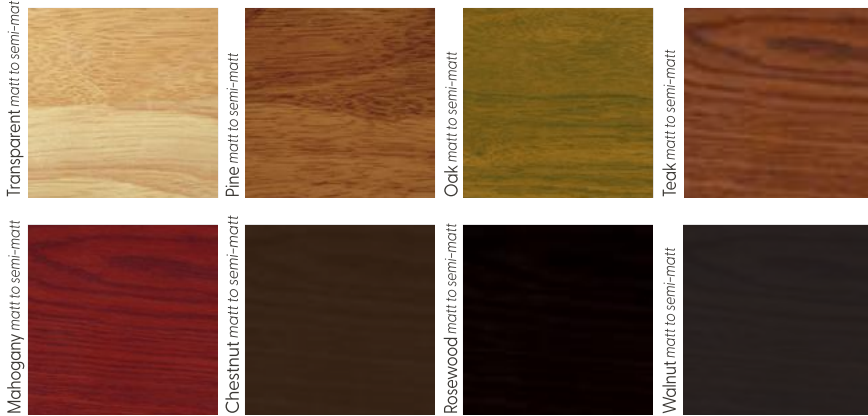

8-12 h  
24 h  
100-140 ml/m<sup>2</sup>

Treatment against woodworm and termites for all types of wood. Does not alter the wood colour. Does not form a film. Compatible with any finish.

The colours shown in this catalogue may vary slightly from the actual shade. Applied colour may differ depending on the condition and nature of the surface, lighting, and number of coats applied. We recommend performing a colour test on the surface prior to final application.

## WOOD STAINS

### BARPIDECOR FONDO WATER-BASED

30-60 min

10-12 m<sup>2</sup>/l

Water-repellent protective basecoat for wood, with effective and preventive action.

### BARPIDECOR WATER-BASED

30-60 min

4-6 h

12-16 m<sup>2</sup>/l

Water-repellent, penetrating, and protective wood stain based on special acrylic resins in aqueous dispersion and active agents.

### BARPIDECOR ALTA PROTECCION WATER-BASED

30-60 min

4-8 h

20-24 m<sup>2</sup>/l

High-protection, water-based satin stain for indoor and outdoor wood, enhancing natural beauty and durability.

## INDOOR

### MONOCOMPONENTE WATER-BASED

40-50 min

5-6 h

10-12 m<sup>2</sup>/l

Lacquer-effect finish for indoor carpentry and furniture. Resistant and protective. Suitable for schools, restaurants, hotels, hospitals, etc.

### BARNIZ INTERIOR ECOBARP WATER-BASED

50 min

5-6 h

10-12 m<sup>2</sup>/l

Silky transparent varnish with excellent coverage, thixotropy, hardness, and scratch resistance. Ideal for indoors.

### BARNIZ TINTE ECOBARP WATER-BASED

40-60 min

4-6 h

13-16 m<sup>2</sup>/l

High-quality, decorative stain varnish based on modified acrylic resins.

### BARNIZ POLIURETANO URETANADO WATER-BASED

15-30 min

4-6 h

8-10 m<sup>2</sup>/l

Single-component polyurethane acrylic resin varnish for indoor and covered outdoor furniture. Resistant and washable.

### REVITALIZADOR PARA MADERA WATER-BASED

30-60 min

3-4 h

20 m<sup>2</sup>/l

Nourishes and protects varnished wood from age-related wear.

### BARNIZ PARA ENCIMERAS WATER-BASED

2 h

60 min

8-10 m<sup>2</sup>/l

Polyurethane varnish for countertops, bar tops, etc. Chemical-resistant, extra-matt invisible finish. Does not yellow; odour-free.

## FLOORS

### POLPARQUET ECOBARP WATER-BASED

30 min

10 h

8-10 m<sup>2</sup>/l

Water-based varnish for parquet floors. Suitable for sealing and varnishing all types of indoor wood.

### DECKING WATER-BASED

1 h

4 h

12 m<sup>2</sup>/l

UV-filtered protective stain for outdoor wood floors. Protects decking and floorboards exposed to weathering, especially tropical woods.

## OUTDOOR

### BARNIZ INTEMPERIE URETANADO WATER-BASED

30-60 min

4-6 h

12-14 m<sup>2</sup>/l

Single-component acrylic varnish providing elastic, non-yellowing, weather-resistant finishes.

## SEALERS

### TAPAPOROS WATER-BASED

40 min

4-6 h

11-14 m<sup>2</sup>/l

Pore-sealing varnish easy to apply and sand. It penetrates well and is ideal for sealing and preparing indoor furniture and wood.

### SELLADOR AISLANTE MADERAS TROPICALES WATER-BASED

30-60 min

4-6 h

8-10 m<sup>2</sup>/l

Transparent insulating impregnating primer for tropical woods. Penetrates the wood, fills pores, and improves adhesion.

## FIRE-RETARDANT

### BARNIZ IGNÍFUGO ECOBARP WATER-BASED

30-60 min

4-8 h

11-14 m<sup>2</sup>/l

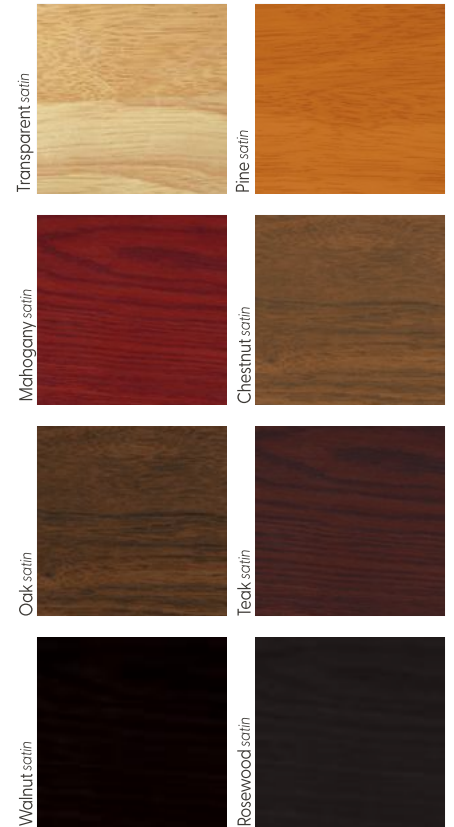

Water-based fire-retardant varnish formulated with special resins. Certified for reaction to fire.
