Introduction

Creators of fine bespoke wine walls.

Exceptional installations that are
impactful, emotive and meaningful.

Having grown steadily since 2012, we are proud of a team that exemplifies professionalism, creativity, and a commitment to delivering exceptional service and quality for our clients.

CELLAR MAISON

Our Services

Design

Comprehensive design expertise, from creative to technical.

When it comes to your wine cellar design, our consultants will ensure that they fully understand your needs and aspirations, taking a holistic approach to design.

We will discuss your wine collection, storage needs, and lifestyle preferences, then analyse feasibility based on your property and desired cellar location. We can also offer a design only service.

Make

We are the leading experts in creating Bespoke Wine Cellars and unique preservation systems, specifically for wine walls and cabinets.

Our workshops have the technology and capacity to deliver any size and scale of project, and our craftsmen are highly skilled and passionate about their profession.

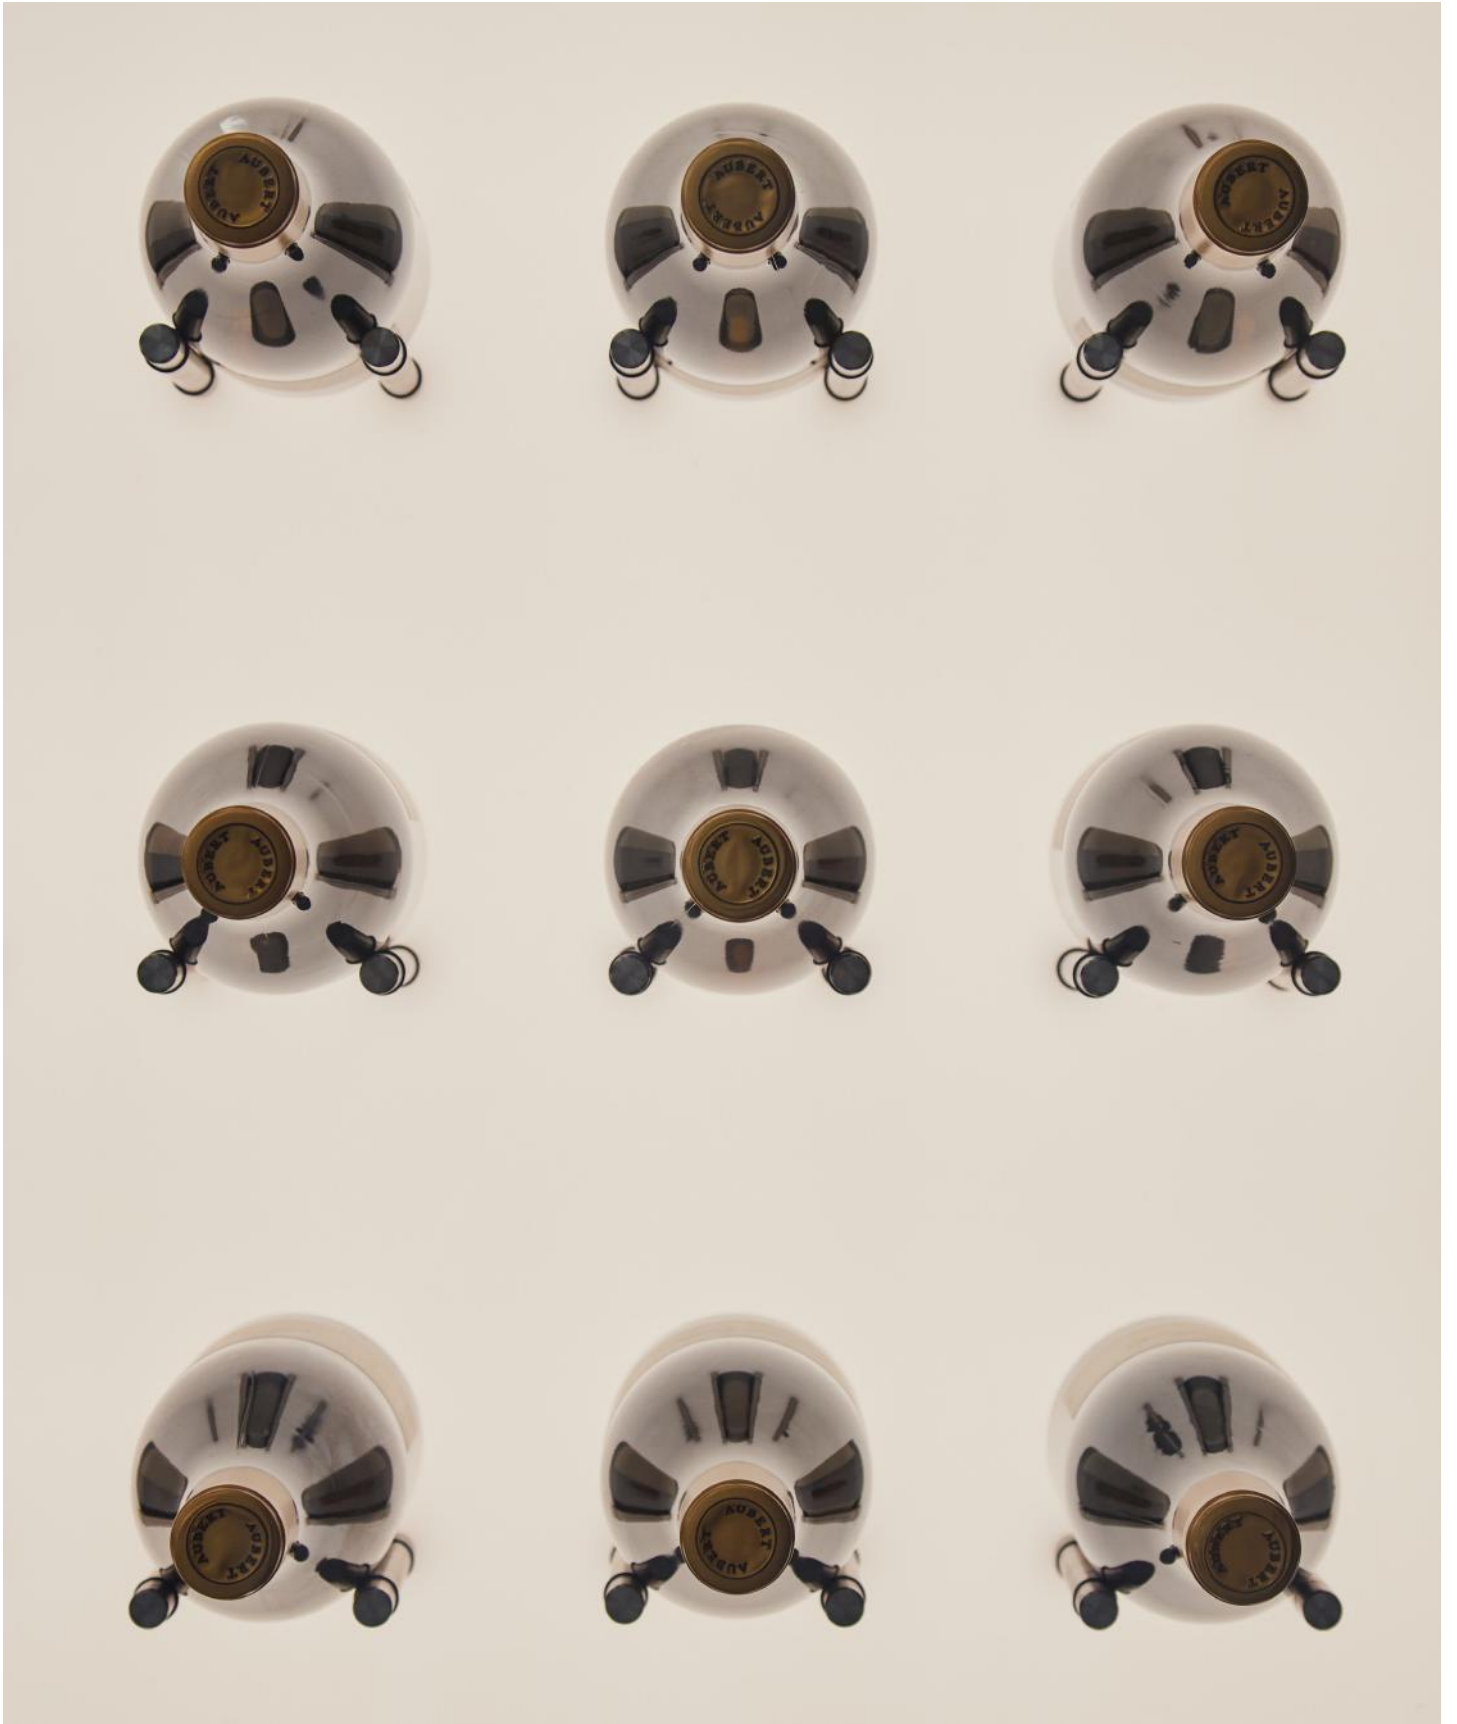

We have hand picked the best and most qualified furniture fitters to install our wine walls. They are used to working on large scale building sites as well as fully finished homes where care and tidy work habits are essential.

Support

As part of our ongoing care, we think it is important to service and maintain all of the mechanical cooling systems that we install, and even some that we don't.

With our affordable routine maintenance option, your wine cellar will be more reliable and last longer, saving you money and worry.

We are official UK partners of 'InVintory' and offer wine inventory software that is both innovative and user-friendly, allowing you to keep track of your wine stock, and access other useful tools.

Wine Walls

Wine walls are perfect for entertaining areas, showcasing your entire wine collection within a safely conditioned environment.

Wine walls are just that; a wall of wine bottles, beautifully displayed behind frame-less or framed glass. With a unique climate-control system, and LED feature lighting, most installations only require a depth of around 45–70 cm. Bottle capacity can range from 120 bottles to 2,000 or more.

Wine walls are perfect for properties where space for a walk-in wine room is not available.

Tasting rooms – we can also create a series of climate-controlled wine walls within a tasting room, allowing the main space to remain at a comfortable temperature, whilst having full view and enjoyment of the wine collection behind glass. See our Wine Room Portfolio for further information.

Our design experts can create, manufacture and install wine walls almost anywhere, either above or below ground. The most common locations to install a wine wall are:

- Dining room
 - Living room
 - Kitchen
 - Entertaining area
 - Dividing feature wall (glass on both sides)
 - Wine room with a series of wine walls within (tasting room)
 - Restaurant/wine bar front of house
-

We understand that your wine collection is incredibly valuable, whether more from a financial or sentimental perspective.

Contemporary glass
and acrylic wine wall.

01 Chingford

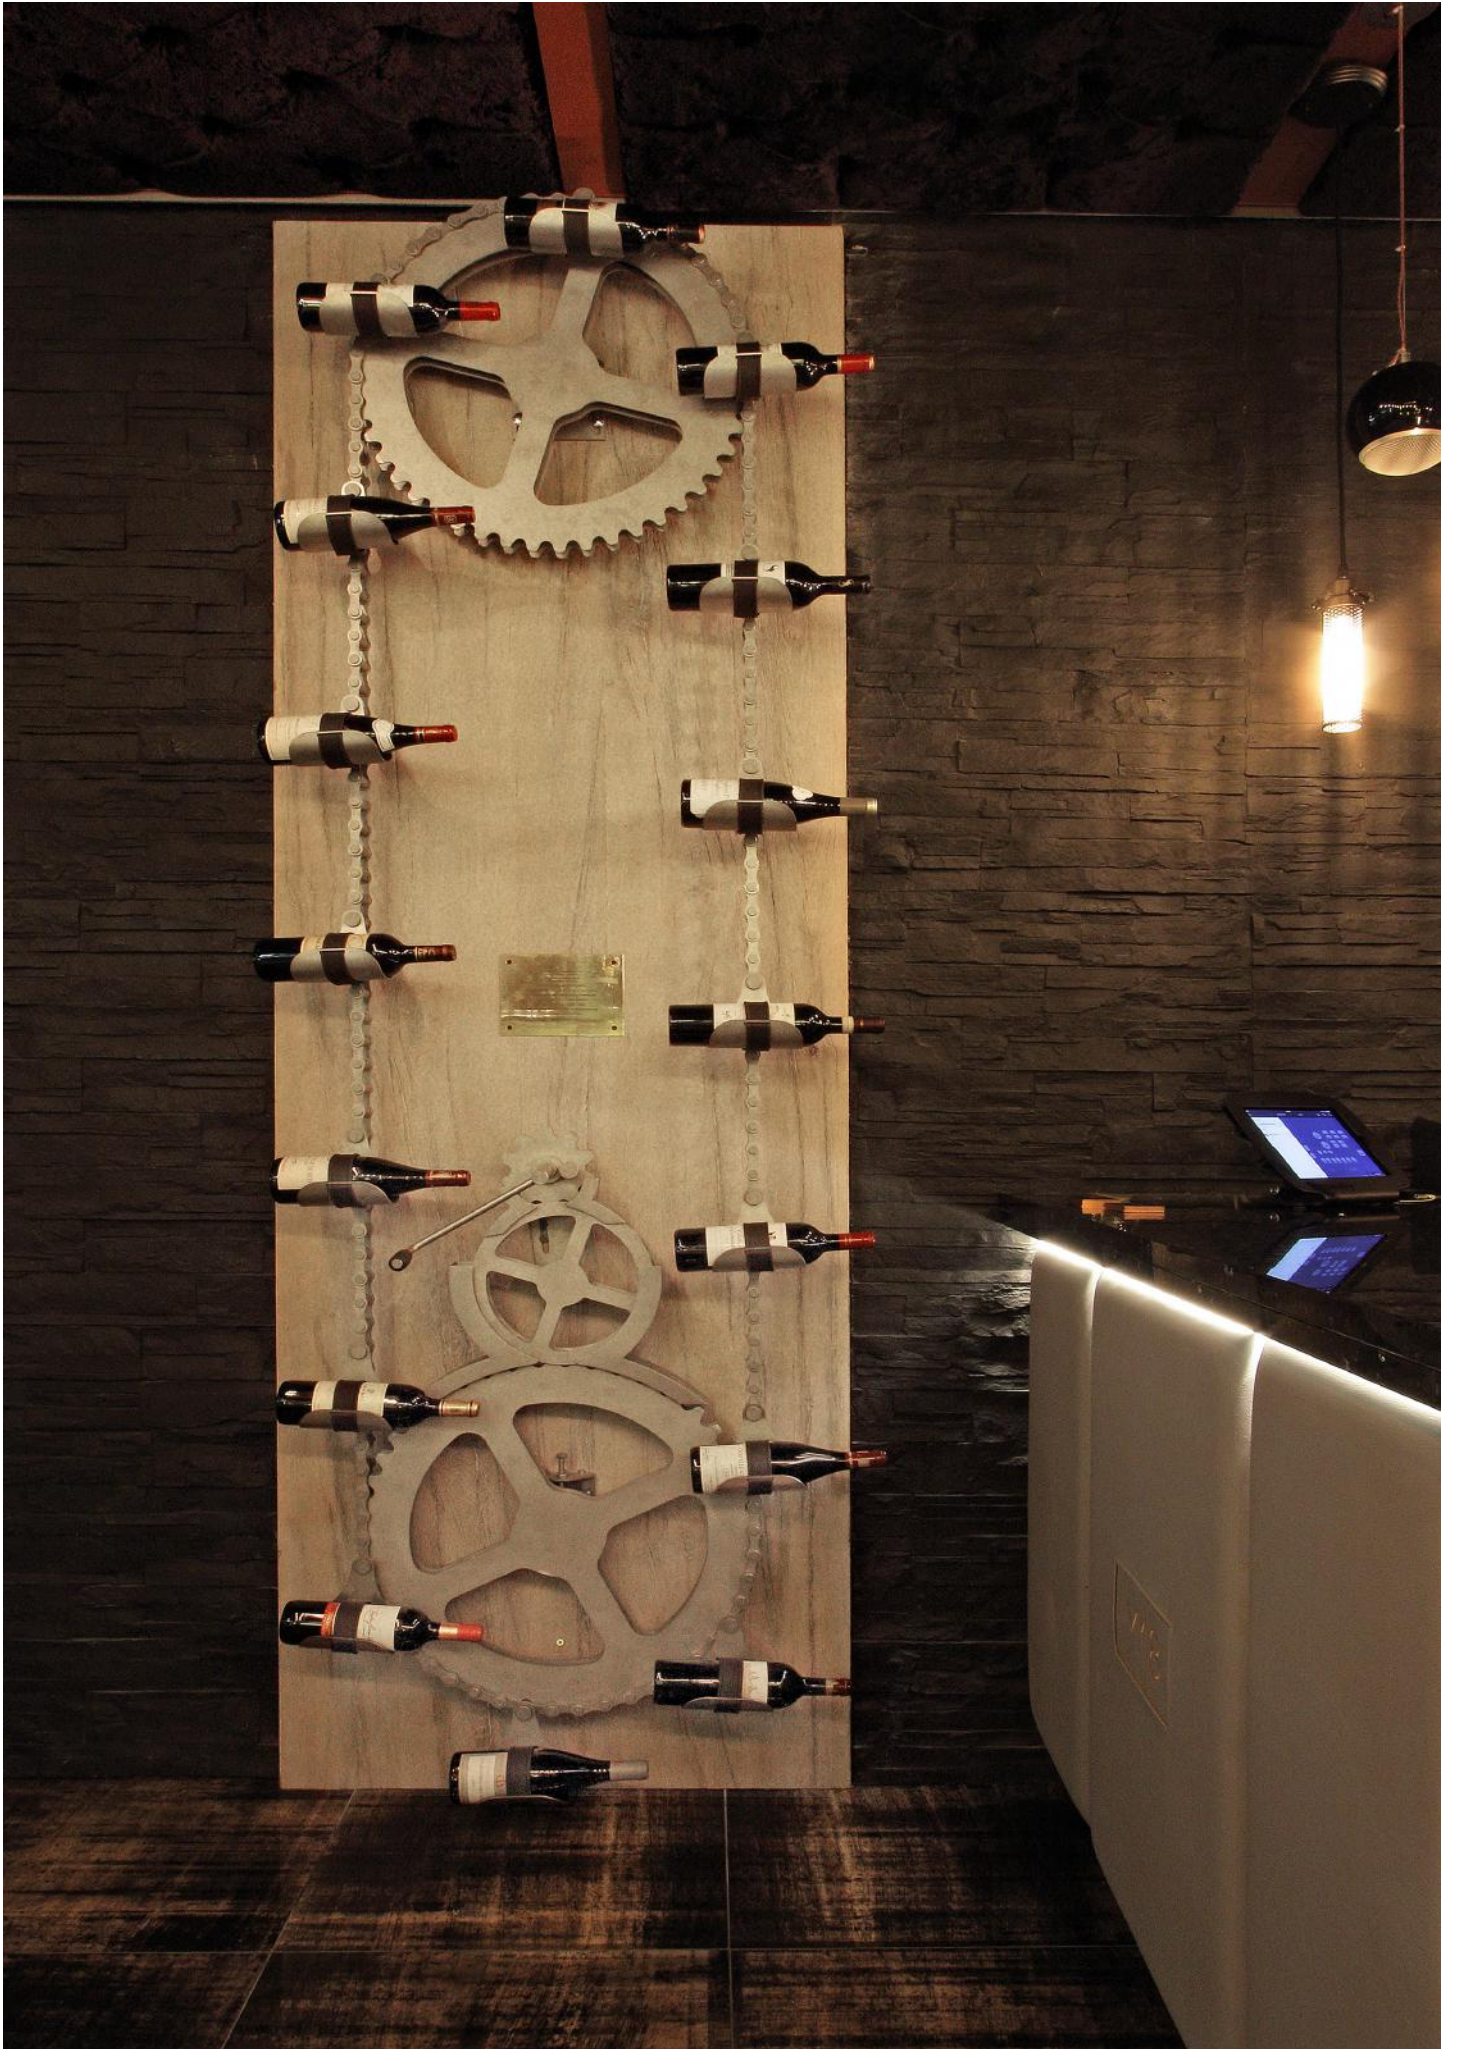

Bespoke feature metalwork.

Contemporary floating
cable system, striking
feature display.

02 Esher

Thin wire vertical cables, and stainless steel cradles, elegantly suspend the wine bottles.

Such a minimalist design truly showcases the fine wine without distraction.
