Introduction

Creators of Fine, Bespoke, Wine Stores

Exceptional installations that
are impactful, emotive and
meaningful.

Having grown steadily since 2012, we are proud of a team that exemplifies professionalism, creativity, and a commitment to delivering exceptional service and quality for our clients.

Our Services _____

Design

Comprehensive design expertise, from creative to technical.

When it comes to your wine cellar design, our consultants will ensure that they fully understand your needs and aspirations, taking a holistic approach to design.

We will discuss your wine collection, storage needs, and lifestyle preferences, then analyse feasibility based on your property and desired cellar location. We can also offer a design only service.

Prepare & Build

Major works - such as structural engineering, planning, excavations, tanking, insulation, are areas our specialist build partners are happy to assist with.

The main advantages of using our team from start to finish is that we coordinate everything, allowing for a smoother on-time & on-budget project delivery. Minor works - such as insulating an existing space, electrical, plumbing and data coordination and installation.

We aim to make your wine cellar project as painless as possible by removing the need for you to coordinate other trades. We are also happy to work alongside architects and main contractors appointed for the broader project.

Craft & Install

We are the leading experts in creating exceptional wine rooms, and wine walls, with bespoke craftsmanship and attention to detail at the forefront, whilst integrating seamlessly with the latest in cellar conditioning technology.

Our workshops have the technology and capacity to deliver any size and scale of project, and our craftsmen are highly skilled and passionate about their profession.

We have hand picked the best and most qualified furniture fitters to install our wine rooms. They are used to working on large scale building sites as well as fully finished homes where care and tidy work habits are essential.

Support

As part of our ongoing care, we think it is important to service and maintain all of the mechanical cooling systems that we install, and even some that we don't.

With our affordable routine maintenance option, your wine cellar will be more reliable and last longer, saving you money and worry.

Wine inventory software by [INVINTORY](#) is an excellent solution, to effectively keep track of your wine stock in a very user-friendly and fun way.

Design and technical expertise - avoid common pitfalls and speak with us

Our refrigeration experts solve the most complex engineering challenges

Cellar Maison

We work directly with residential and commercial property owners/wine collectors, as well as architects, builders, designers, developers and restaurateurs. We offer an end-to-end service outlined below.

As specialists, we are able to provide a most comprehensive warranty giving peace of mind to our clients. Our team have the design and technical expertise to ensure that your project is executed correctly and delivered on-time and on-budget.

Process

We simplify the process for our clients whilst delivering comprehensively on all phases of a project. Producing world class bespoke joinery, glass and metalwork is our forte'.

Our end-to-end process includes design, manufacture, installation and after-care support.

Example(1) Under stairs wine wall.

Example (2) Series of climate-controlled wine walls.

Wine Walls

Wine walls are perfect for entertaining areas, showcasing your entire wine collection within a safely conditioned environment

Wine walls are just that; a wall of wine bottles, beautifully displayed behind frameless or framed glass. With a unique climate control system, and LED feature lighting, most installations only require a depth of around 45-70 cm. Bottle capacity can range from 120 bottles to 2,000 or more.

Wine walls are perfect for properties where space for a walk-in wine room is not available.

Tasting rooms - we can also create a series of climate-controlled wine walls within a tasting room, allowing the main space to remain at a comfortable temperature, whilst having full view and enjoyment of the wine collection behind glass. See our Wine Room Portfolio for further information.

Our design experts can create, manufacture and install wine walls almost anywhere, either above or below ground. The most common locations to install a wine wall are:

- Dining room
- Living room
- Kitchen
- Entertaining area
- Dividing feature wall (glass on both sides)
- Wine room with a series of wine walls within (tasting room) • Restaurant/wine bar front of house

We understand that your wine collection is incredibly valuable, whether more from a financial or sentimental perspective.

Restaurant -
Contemporary glass
and acrylic wine
wall.

01 Chingford

Bespoke feature metalwork and acrylic.

The Essential Fusion of Function and Style

Hear from our clients

'We are delighted with our bespoke wine room and very pleased with the way the team at Cellar Maison made our dream into a reality. We were also impressed with the project management undertaken by Cellar Maison and the way that they implemented from start to finish our design requirements and co-ordination of the various ancillaries (timberwork, glass partitions and airconditioning). We would thoroughly recommend Cellar Maison'.

★★★★★

Philip, Clapham

Hear from our clients

'I am extremely happy with our wine wall both from a finished product perspective and the professional service and advice received from Cellar Maison throughout. We were able to create a very bespoke product that met our specific requirements; encompassing both a dividing wall with our kitchen and separate wine display cabinet along the back wall. It is certainly the feature of the entire room and a stunning piece of architecture. I would not hesitate to recommend Andrew and his team who were able to bring our vision into an impressive reality'

★★★★★

Implement & Manage

We manage implementation and support our clients throughout the entire process to deliver an exceptional customer experience.

Craft & Design

Our forte and specialism is blending cutting edge design with innovative engineering techniques and craftsmanship to create perfectly tailored wine storage and display solutions – each unique to our clients' discerning tastes.

Explore & Inspire

Our passion at Cellar Maison is inspiring our clients to challenge conventional thinking and push the boundaries to explore and discover a new world of innovative wine storage possibilities.

Curate & Enjoy

Ultimately, we enhance a lifestyle experience with bespoke after-care solutions centred around our clients' curation and enjoyment of fine wines.
