Introduction

Creators of Fine, Bespoke, Wine walls

Exceptional installations that
are impactful, emotive and
meaningful.

Having grown steadily since 2012, we are proud of a team that exemplifies professionalism, creativity, and a commitment to delivering exceptional service and quality for our clients.

Our Services

Design

Comprehensive design expertise, from creative to technical.

When it comes to your wine cellar design, our consultants will ensure that they fully understand your needs and aspirations, taking a holistic approach to design.

We will discuss your wine collection, storage needs, and lifestyle preferences, then analyse feasibility based on your property and desired cellar location. We can also offer a design only service.

Make

We are the leading experts in creating Bespoke Wine preservation systems.

Our workshops have the technology and capacity to deliver any size and scale of project, and our craftsmen are highly skilled and passionate about their profession.

We have hand picked the best and most qualified furniture fitters to install our wine rooms. They are used to working on large scale building sites as well as fully finished homes where care and tidy work habits are essential.

Support

As part of our ongoing care, we think it is important to service and maintain all of the mechanical cooling systems that we install, and even some that we don't.

With our affordable routine maintenance option, your wine cellar will be more reliable and last longer, saving you money and worry.

Wine inventory software by INVINTORY is an excellent solution, to effectively keep track of your wine stock in a very user-friendly and fun way.

Wine Walls

Wine walls are perfect for entertaining areas, showcasing your entire wine collection within a safely conditioned environment

Wine walls are just that; a wall of wine bottles, beautifully displayed behind frameless or framed glass. With a unique climate control system, and LED feature lighting, most installations only require a depth of around 45–70 cm. Bottle capacity can range from 120 bottles to 2,000 or more.

Wine walls are perfect for properties where space for a walk-in wine room is not available.

Tasting rooms – we can also create a series of climate-controlled wine walls within a tasting room, allowing the main space to remain at a comfortable temperature, whilst having full view and enjoyment of the wine collection behind glass. See our Wine Room Portfolio for further information.

Our design experts can create, manufacture and install wine walls almost anywhere, either above or below ground. The most common locations to install a wine wall are:

- Dining room
 - Living room
 - Kitchen
 - Entertaining area
 - Dividing feature wall (glass on both sides)
 - Wine room with a series of wine walls within (tasting room)
 - Restaurant/wine bar front of house
-

We understand that your wine collection is incredibly valuable, whether more from a financial or sentimental perspective.

Contemporary glass
and acrylic wine wall.

CM CELLAR MAISON

01
