EVERY CHILD DESERVES A PLACE TO SLEEP

Across the US, too many boys and girls go without a bed—or even a pillow. These children end up sleeping on couches, blankets, and even floors. This can affect their happiness and health. We will be partnering with Sleep in Heavenly Peace to provide beds and bedding to local youth in need.

Each teen is asked to bring a new twin bed sheet set (fitted, flat, and pillow case).

Let's help provide a restful night to children in Arlington, Mansfield, Grand Prairie, and the surrounding area.

For more information about Sleep in Heavenly Peace please visit: <https://shpbeds.org/>

No child forgets their first bicycle. Let's help them make memories.

The Class of 2023 will build bikes for youth who are less fortunate in Arlington, Grand Prairie, Mansfield, and the surrounding area while enjoying friendly competition.

Let's work together to feed our community.

South Central Teens will be packaging food to support the HIM Food Bank in its efforts to provide food to people throughout Arlington, Mansfield, Grand Prairie, and the surrounding area. HIM works to find lasting ways to improve the lives of impoverished children and families.

Join us in showing kindness to others!

The Teens of South Central will be working with Mercy Street Kitchen to provide hygiene kits for people experiencing homelessness in Arlington, Mansfield, Grand Prairie, and the surrounding area.

Mercy Street Kitchen Inc. provides relief with food and essential supplies to homeless individuals in various locations within the DFW area and throughout Texas.

DIABETES AWARENESS MATTERS

"It's a Family Affair"

"Lack of access to healthy foods results in poorer health outcomes. Unfortunately, access to care is a huge barrier within our Black and Brown communities."

— Kimbra A. Bell, MD

- Black adults in the U.S. are 60% more likely than white adults to be diagnosed with diabetes.
- People at highest risk for Type 2 diabetes include those who:
 - Have a family history of diabetes in parents or siblings
 - Are overweight
 - Have a history of impaired fasting glucose
 - Have high blood pressure
 - Identify with certain racial and ethnic minority groups
- Eating healthy and exercising is key to reversing or preventing Type 2 diabetes altogether.
- An educated teen can change the world and help educate their family.
- Chapter Recognition for those that participate.

STEP 1:

Help Educate Teens & Adults in Your Community

STEP 2:

Increase Access to Diagnostic Screenings

STEP 3:

Earn Funds to Increase Community Service Impact
