TEFIK CANGA

— SINCE 1947 —

ABOUT US

Tefik Çanga has been established since 1947. Currently the company is one of the leading chair manufacturers in Kosovo, with a young and highly motivated professional team. Our work is the perfect development of the combination of traditional craftsmanship and modern technology. Our designs are reinterpreted to meet today's environmental needs. Each piece embodies the best values of craftsmanship of our time. Scandinavian clarity, Japanese simplicity, and American ingenuity- all combined and refined into what we call the Tefik Çanga style. We are a team of creative professionals who cultivate a culture of integrity, culture of quality, and enterprise, which is characterized by our experience in woodworking, design, technology, and art. Our designers work closely with our craftsmen to meet structural and technological requirements and to ensure that each piece is manufactured precisely and accurately. Our design process begins with an idea of the vision, what a space can offer, and a concept of how you can transform your environment to add functionality and beauty to your life.

Our factories are equipped with the latest and highest quality woodworking technology. These tools, combined with the mastery of craftsmanship, enable us to create perfect standards and assemble them into quality pieces.
