A Sustainable Choice

Merrinton places sustainability at the heart of our values.

Our recyclable flooring and packaging meets strict safety certifications.

We maintain an efficient supply chain to reduce our environmental impact through lean production, energy-efficient operations and shipping.

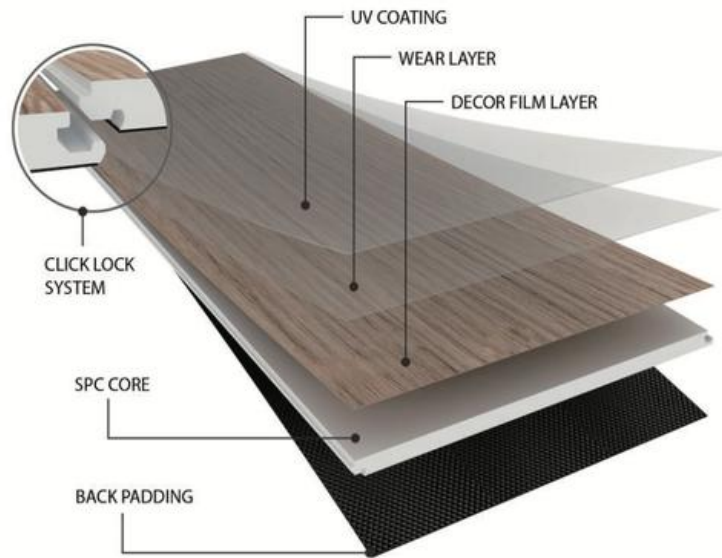

Our brochures are available in digital format to reduce our carbon footprint and our reliance on paper.

Our natural looking wood effect flooring means that you can have the look of a real wood flooring in your home; without the environmental impact.

At Merrinton we are constantly striving to do more to play our part in a sustainable future.

Why Choose Merrinton SPC

Merrinton Luxury SPC is commercial grade flooring that is built to withstand heavy foot traffic, moisture, and daily wear and tear. Merrinton SPC is waterproof and provides excellent resistance to scratches, stains, and scuffs, making it a perfect choice for the home. Featuring the innovative UniPush click system by Unilin, it's easy to install.

Our flooring is rigorously tested to meet the highest standards of craftsmanship and performance. Crafted to be as safe as they are beautiful, each Merrinton floor is free from harmful toxins, exceptionally durable, and designed to bring enduring elegance to your space.
