## STORY OF VOEUX

The magical journey of Voeux brand begins in the town of La Baule, located four hours away from Paris, where Julien Martin was born and raised. Julien eagerly awaited the arrival of summer, not only because of the dreamlike atmosphere of the town but also because of the delicious meals cooked by his grandmother, Jeannette. Julien's interest in gastronomy began during those childhood summers spent with his grandmother. No matter how much Julien asked about the source of these flavors, his grandmother would tell him it was a secret and that she would share it with him when the time was right, igniting his excitement.

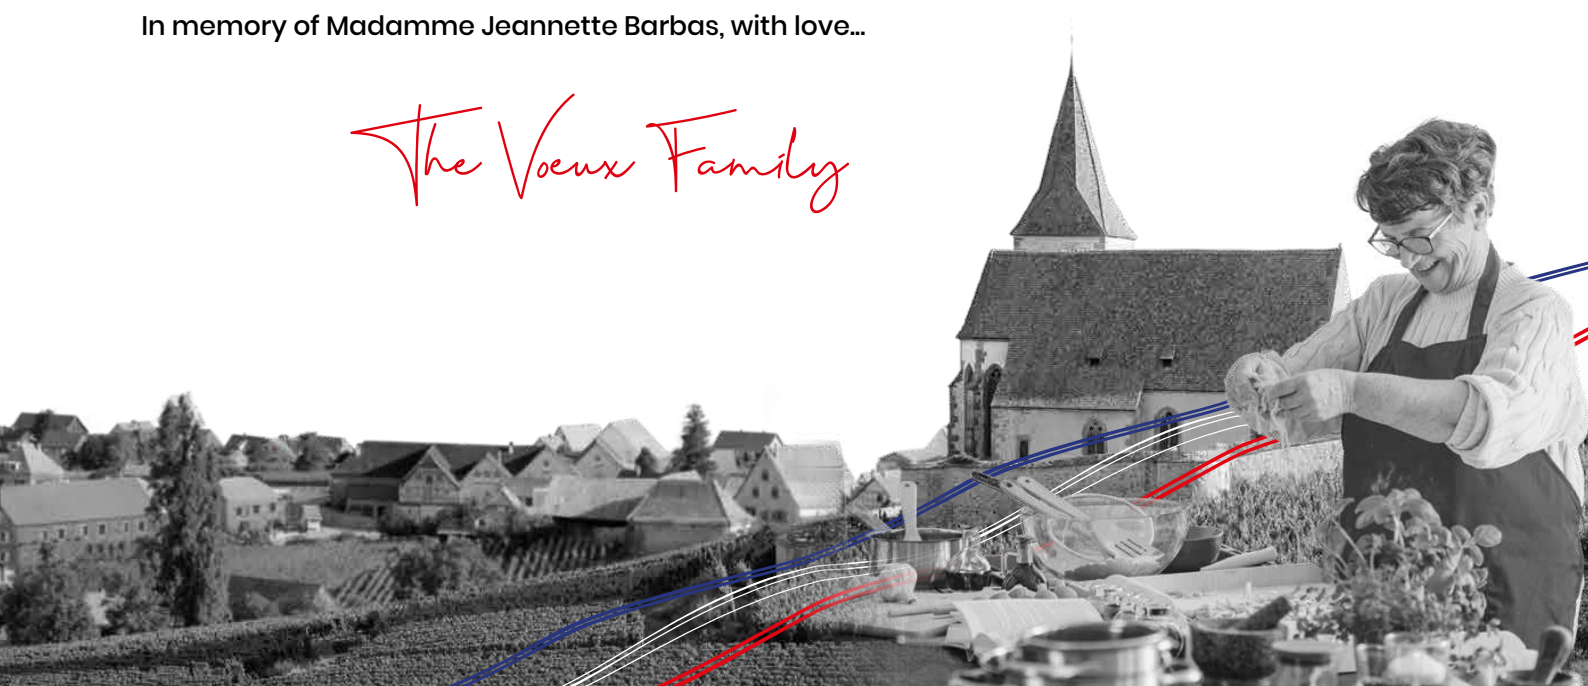

After numerous summers passed, Julien grew up and took his future wife to the farmhouse in la Baule, to introduce her to Jeannette and her culinary delights. Jeannette worked her magic in the kitchen once again, introducing the young couple to the best flavors. After a delightful meal, Jeannette approached the couple with a black cast iron pot in her hands. Handing over the cast iron pot to the young couple, Jeannette said, "The secret to my meals is this pot. Now you can cook flavorful dishes together in your new life." Julien Martin and his wife, who lived in various cities around the world, always brought their cast iron pot to their kitchen.

Julien Martin wanted to share these versatile and flavorful cooking utensils with food enthusiasts everywhere, and joined forces with Bertan Beyazit Battal and Erçin Aras, who also shared his passion for gastronomy and elegant dining experiences, to establish a new brand. They named the brand Voeux, which means "Wish and Desire" in reference to the delicious meals and enjoyable moments shared around the table. In a short period of time, Voeux brand started producing cookware made entirely of pure iron, as well as grilling pans that brought the flavors of barbecue in your kitchen.

And now, Voeux is ready to meet you.

**In memory of Madame Jeannette Barbas, with love...**

## FORGED IN FIRE, CHERISHED THROUGH GENERATIONS

Iron, one of the Earth's oldest and purest elements, has shaped human craftsmanship for millennia. In the kitchens of the past and present, cast iron remains unmatched for its strength, balance, and endurance. Revered by chefs and home cooks alike, it transforms simple ingredients into rich, soulful dishes through steady, even heat.

Voeux Cast Iron Collections are produced from 100% ore iron, ensuring purity and performance. Each piece is triple-layer enamel coated and fully food-contact certified, free from lead, cadmium, and other harmful elements. Its dense structure distributes heat evenly and preserves warmth long after the flame is gone, making it both efficient and naturally energy-saving.

The rainfall lid design allows condensation to circulate and return to the dish, locking in moisture and enhancing flavor. Compatible with every cooking surface, from gas and induction to ceramic and halogen, it adapts effortlessly to any kitchen environment.

Durable, chemical-free, and timeless in form, Voeux Cast Iron Collections stand as a testament to thoughtful design and enduring craftsmanship, heirlooms of function and beauty, created to serve generations.
