GLOBAL Conference

BANGKOK

16 - 17 MARCH

2026

September – 2025

Welcome to the September edition of the Cross Ocean newsletter. In network news we have member movements related to: India – North Europe, Brazil, Germany – Saudi Arabia, Norway – Azerbaijan, China – Viet-nam, Slovenia – South Africa, China – Egypt, and Singapore – Middle East. We are also happy to announce new members representing Ecuador and Finland.

Note upcoming online one-to-one meetings with members which are scheduled for every week. Email Heidi to signup for a meeting, see herein for the upcoming meeting schedule.

If you will be at **Breakbulk Americas** please visit our **Stand G57**. We will also host an in-person event before Breakbulk Americas in Houston this year. The networking lunch is fully booked but you can [contact us for event questions](#).

The next **Global Conference** will be held at **Waldorf Astoria Bangkok** on the **16th & 17th of March, 2026**.

**REGISTER FOR THE NEXT
GLOBAL CONFERENCE**

Total Movements Recently Executed a Door-to-port Movement of ~800FRT of Processing Equipment from India to North Europe

The equipment was carefully stuffed across 23 containers (Reefer, Open Top, and High Cube).

Total Movements' scope covered the complete logistics chain - Pickup from suppliers' works, Transportation to the designated load port, Stuffing & lashing/securing of cargo, Export customs clearance, Port handling & Ocean freight to the European discharge port.

This project was both time-sensitive, technically demanding and included:

- Out of Gauge (OW/OH) cargo with critical dimensions
- Hazardous cargo, requiring specialized documentation
- A tight schedule with no room for delay

Brasil Projects Moved 2 Drilling Rigs from Port of Rio de Janeiro to Vespasiano and Alto Horizonte

Each rig weighed over 51 tons and measuring 10.00 x 4.50 x 4.10 m.

The equipment arrived at the Port of Rio de Janeiro from Houston (USA) and was then transported to EADI Betim, where it underwent customs clearance on wheels. It was then transported and unloaded with cranes at the manufacturer's facility in Vespasiano (MG) for final assembly and configuration.

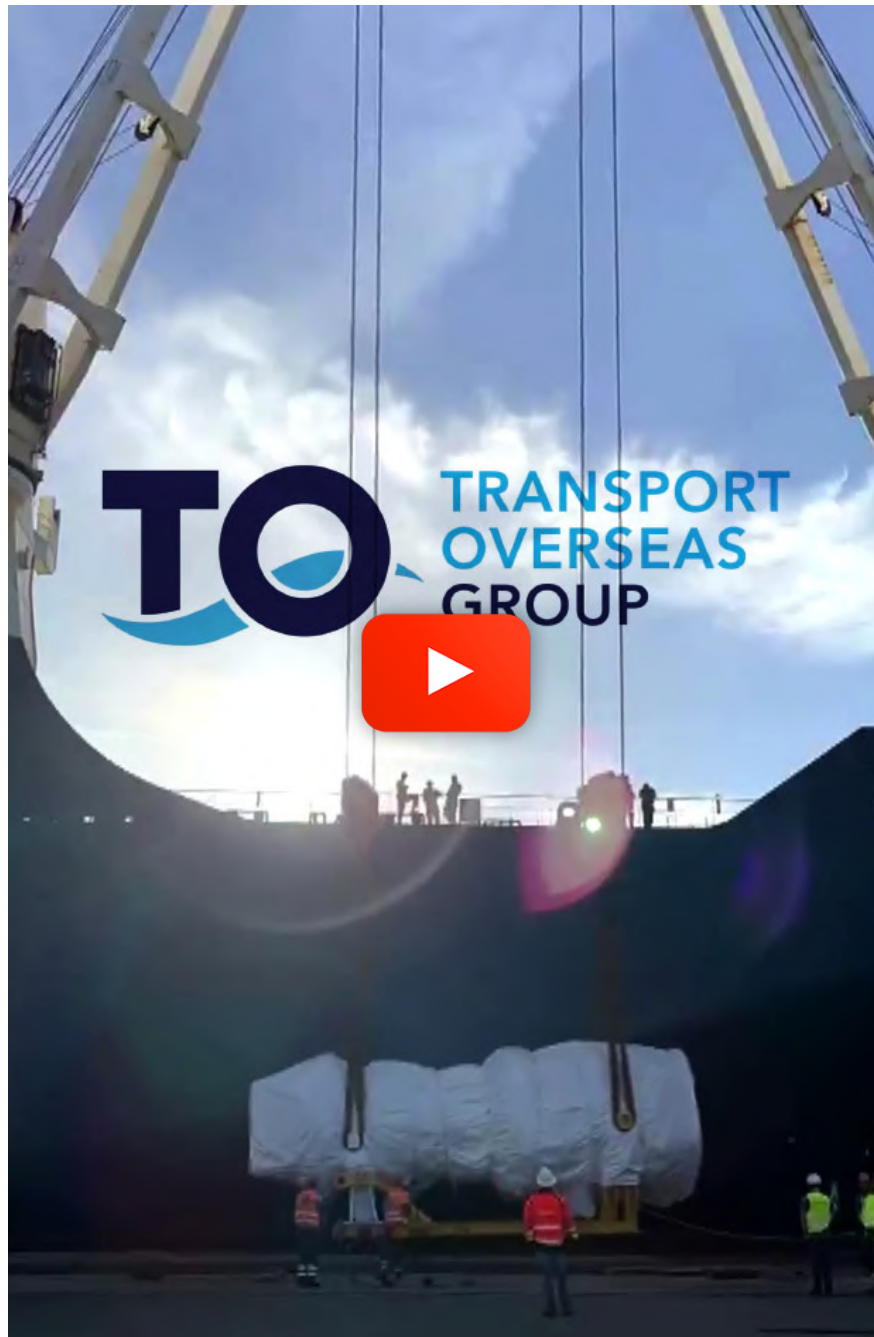

Afterwards, it was loaded onto a low-slung platform with a movable neck, enabling direct loading, meaning no cranes were used. The cargo then continued to Alto Horizonte (GO), where it was also unloaded in a direct manner, traveling hundreds of kilometers safely and on time.
