STEAM ACTIVITIES  
FOR CHILDREN

Glossobooks

17

Watch this story / song. Draw little faces on your fingers sing and mime.

*Scan to watch*

18

*Let's experiment.*

Use water - colors- tissue paper in between glasses (as color passes on from the one glass to the other through the tissue and mixes up the colors, genes pass on from our family to us and create this special mixture!)

19

*Watch this Video.*

Timelapse - Life Growing - from Baby to Adult and put the stages of life in the correct order.

1 *Teenager* a \_\_\_\_\_

2 *Infant* b \_\_\_\_\_

3 *Preschooler* c \_\_\_\_\_

4 *Child* d \_\_\_\_\_

5 *Adult* e \_\_\_\_\_

6 *Baby* f \_\_\_\_\_

*Scan to watch*

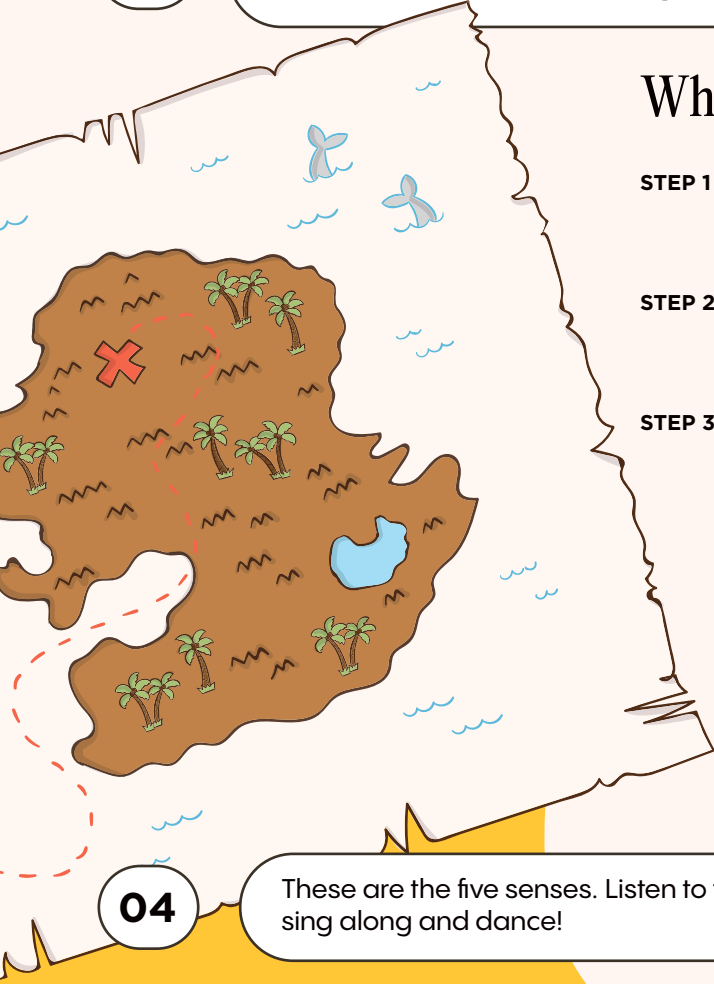

# Animals

03

## Taste Test Challenge

04

These are the five senses. Listen to the song, sing along and dance!

### What to do:

- STEP 1** Gather a variety of foods with different tastes, such as sweet, sour, salty, and bitter.
- STEP 2** Blindfold yourself and have a friend give you a small taste of each food.
- STEP 3** Try to guess the taste and describe it using words like "sour like a lemon" or "sweet like candy."

**Can you identify them all?**

*Scan to listen*

05

Match the pictures with the words.

1 *Sight*

2 *Touch*

3 *Smell*

4 *Hearing*

5 *Taste*

01

## Colorful Nature Scavenger Hunt.

Find various small objects around your home or classroom, such as coins, rubber toys, and wooden blocks.

Predict whether each item will float or sink in a container of water.

**Were there any surprises? Why do certain objects float while others sink?**

.....

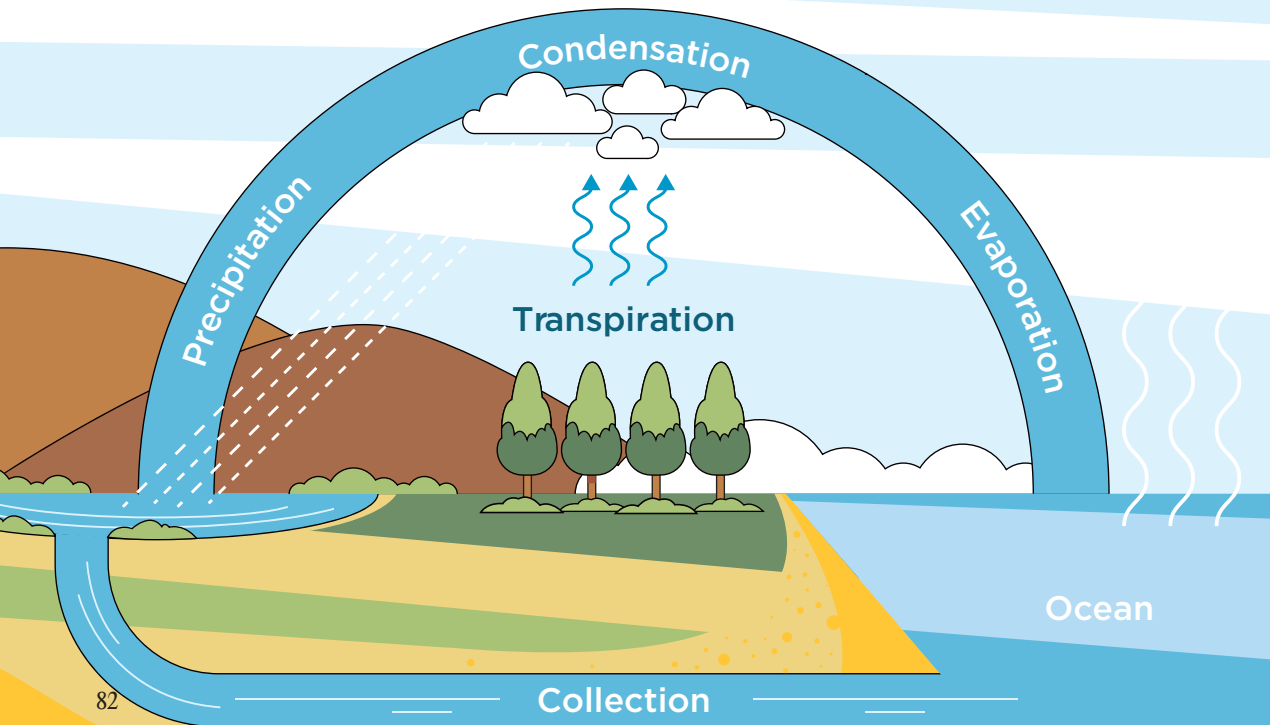

.....

.....

.....

.....

## The Water Cycle

**02**

Watch the following video of the water cycle.

*Scan to watch*

**03**

Draw the four stages of the water cycle.
