DIRECTOR'S MESSAGE

It looks like all of us are entering into an age, in which the outsourcing of decision using algorithms and machine learning is growing exponentially. We have been heading towards this path for a while, since search engines came into view a good three decades or so ago, but now they are in a state of maturity, that looks like it can encompass not only search results, but answers to life's major questions, or does it / do they?

It used to be that, we knew how to distinguish information from knowledge. That knowledge was checked against the verifiability, status of the source and lineage of the tutor. Such approaches seem quaint, in an age of hyper-speed, where an artificial neural system, can simply condense difficult queries and churn out resolutions in a matter of seconds.

What now, for us, the humans?

What role can we play?

How can we retrieve agency rather than becoming overly reliant on digital-algorithmic tools?

What happens to human traits of thinking, reflecting, acting responsibly?

To this end, I have 3 recommendations that maybe helpful for you to negotiate these realities as you are at threshold of transition:

1)Awareness - Take stock and be aware what is transpiring rapidly in front of us. We need to develop intellectual tools in understanding the world we live in. I urge you to read widely.

2)Imagination – One of humanity's great gift is its ability to imagine, and go beyond constraints. Nourish your curiosity, participate in the arts, once again I recommend you to read great works of fiction. In such works you would discover how protagonists struggle to make decisions.

3)Build communities – Found or become part of social collectives that build, grow and assist communities. It is in the dialogue with the others that we discover our deepest questions. We would soon discover in such exchanges the difference between search results and meaningful discoveries.

To the graduating class of 2023, I wish you meaningful discoveries. Take hold of the remarkable technologies of our age to shape important conversations that impact our collective futures.

DR FARIS AKBAR HAJAMAIDEEN
Director
Architecture and the Built Environment

ADVISOR'S MESSAGE

Dear Class of ABE 2023!

Congratulations on completing your journey with us!

It must have been a challenging yet eventful few years isn't it?

The lectures, tutorials, projects and deadlines.

It has been tough for you, our dear student.

But along with those came fun memories of friendships, CCAs and camaraderie that filled your ABE years with positivity.

With all these skills, connections and friendships that you picked up all this while, I am absolutely sure that you are set for the next stage of your life.

As a parting gift, I would like to quote a phase from my favourite Dr Seuss Book, Oh The Places You Will Go!

"Will you succeed?

Yes! You will, indeed!

(98 and 3/4 percent guaranteed.)

KID, YOU'LL MOVE MOUNTAINS!

So...

be your name Buxbaum or Bixby or Bray

or Mordecai Ali Van Allen O'Shea,

You're off to Great Places!

Today is your day!

Your mountain is waiting.

So...get on your way!"

MR FAN AY DENG
ABE Club Advisor & Lecturer

COURSE CHAIR'S MESSAGE

ARCHITECTURE

"At 6pm, it feels like it's lunchtime! Low pay, long hours driving away Singapore's young architect hopefuls".

"Only 7 per cent of young architecture graduates said they were likely to stay in the profession in the long run, according to a survey done last year."

The above headlines appeared on CNA news in July 2022, 2 months after the survey results were published in The Straits Times. To hear of such news in the final year of your study would have likely brought about a tint of caution and pessimism to the overall atmosphere. Although, I believe that the content of the article would hardly be of a surprise to you, you would have experienced first-hand how the industry is like during your internship-school for the past 3 years is hardly any different.

Against this backdrop, with the idea of stepping into a brilliant and hopeful future now eclipsed by a seemingly bleak reality, the question that you may struggle with at this point is probably "Should I continue?" This is a question that definitely requires some serious thought. Nevertheless, as Forrest Gump said in his 1994 movie, "Life is like a box of chocolates. You never know what you're gonna get." Perhaps, there is always a different future in store, a viable reason to hang on to, that the 7 per cent sees while others don't.

To the class of 2023, regardless of the choice that you will make, a big congratulation on the successful completion of this course. The demands of architectural training is by no means a simple one. This diploma that you hold is as much an architecture diploma and a testament on how you have withstood tremendous stress and overcame challenges that you didn't think were possible in the beginning.

May it bring you the confidence to face more challenges ahead.

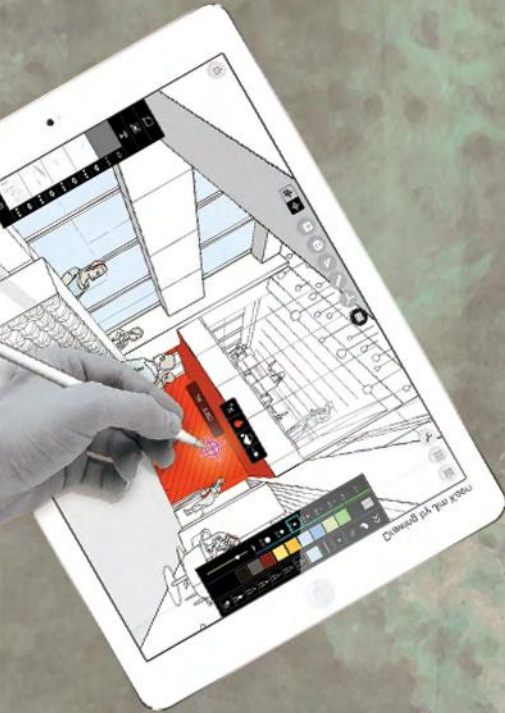

All the best!

MR HO YENN GIIN
Course Chair
Diploma in Architecture

COURSE CHAIR'S MESSAGE

INTERIOR DESIGN

Cohort of Change

The graduating class of 2023 is the cohort of change. They started their SP journey in Circuit Breaker. Home-based learning was the order of the day, and the Diploma in Interior Design (DID) students' first touch point with the Design Studio was online via MS Teams and MIRO. In Semester 2, students had to transit into the physical studio (with masks intact). In Year Two they took on 22 weeks internship and in Year Three, took on the physical 1:1 project again (with a digital twin to boot) as well as a physical DID Day.

The design pedagogy has morphed, changed and the studio is no longer just a physical space. Online or offline, we expect the same rigour, creativity and imagination.

My gratitude to the teaching and technical support team for making this happen. It is no mean feat to restart the workshop and studio spaces amidst changing requirements.

Thank you to the graduating DID Class of 2023 for their trust in their tutors and the process. I am sure that the journey has built tenacity and empathy in you to become better designers.

As the cohort of change, the journey has not come to an end with your graduation. As you enter the industry, now is the time to practice what you learnt in school to transit from an Interior Design Student, into an Interior Design Professional. I wish you all the best for this journey and when you face new challenges out there, look back on what you overcome and achieved in SP to propel you forward!

MR FANN ZHI JIE
Course Chair
Diploma in Interior Design

COURSE CHAIR'S MESSAGE

LANDSCAPE ARCHITECTURE

Congratulations to you, DLA pride!

Despite having a challenging start during the peak of the pandemic in your first year in DLA, you have overcome all odds with your resilience and efforts to complete the course.

Your learning journeys will continue even after DLA, as we have only started you off with landscape architecture fundamentals. We are glad to have worked hard to coordinate for external collaborations. This is because your seniors shared that real-world projects in DLA for skyscraper greenery and urban design are enriching experiences. We have to thank our external collaborators, JTC and URA for their time and efforts for site visits, workshops and critique sessions.

The twenty-two weeks internship was first launched in your cohort during your second year studies. We are most fortunate to have internship mentors who nurtured you with their patience, dedication and expectations as future professionals in landscape architecture or design discipline. With grateful hearts do continue to connect with your internship mentors to draw inspirations to achieve your aspirations.

In your final year of studies, we planned countless field trips, workshops, talks by landscape architects and landscape specialists. This is because we believe all the exposures through these out-of-classroom learning will enhance skills and hone competencies to mould you into critical thinkers. In your project work, we can see how you have charged ahead to use sites we have brought you to as case studies, notes you have made at talks and workshops, evident in your project work. May you spread the word about the landscape architecture profession contributing to alleviation of climate change, sustainable design and being creative with nature-based solutions.

We wish you the best in your future endeavours.

You have grown to know and care for one another through difficult times, we hope you will cherish your friendships and camaraderie that you have fostered in DLA.

Keep in touch!

Congratulations again,

On behalf of DLA Teaching Team

MS EMILY LIM
Course Chair
Diploma in Landscape Architecture

COURSE CHAIR'S MESSAGE

**CIVIL
ENGINEERING**

To the graduating class of ABE 2023,

My sincere congratulations to you for the successful completion of your diploma course. As you will be embarking on your journey for the next phase of life, be it serving the National Service, furthering your studies or joining the workforce, let us take some time to recount your time spent in the past 3 years here in SP, School of ABE.

You had persevered through the many in-class/ out-of-classrooms lessons, study trips, CCAs and not forgetting working on the numerous group projects with those whom you may, or may not, like to work together with. As we look back at the pandemic which hit us 2 years plus ago, it had indeed posed many challenges and changed the way we acquire new knowledge and collaborate with others through the smart use of technologies. I trust that all these learning experiences did make you a better and more effective person.

With the ever-evolving landscape and adoption of new processes and technologies in the built environment sector, be prepared to embrace these changes and be inspired to be a self-directed, versatile and life-long learner. Stay resilient and strong. I hereby wish you all the best in your future endeavours!

Special shout out to our pioneer cohort of Diploma in Civil Engineering (DCE) graduates. Go forth and conquer!

MR RUDY ANG
Course Chair
Diploma in Civil Engineering

COURSE CHAIR'S MESSAGE

INTEGRATED EVENT & PROJECT MANAGEMENT

A congratulatory wish on your graduation might not be enough to beat the hard work that you had put in during your 3 years with DEPM. I am so happy that you have landed in the success pool.

Continue to work hard like this always. Your hard work and efforts have paid off and it's time to shine in the working field if not your further studies. Congratulations! Heartiest congratulations to you for acing your graduation!

MR RAPHAEL WONG
Course Chair
Diploma in Integrated Events & Project Management

PRESIDENT'S MESSAGE

To all graduates of ABE 2023,

CONGRATULATIONS FOR SURVIVING IN YOUR DIPLOMA COURSES!!

2022 has truly been an eventful and exciting year with Covid regulations stepping down and face to face events making a comeback ;))

I want to thank everybody in the ABE student body for making this year fun and successful with your active participation in the various events! From ABE Movie Night to our annual Freakshow, we hope that as a team, we were able to add excitement and provide opportunities for you to bond with your peers, so that you will have sweet memories of your poly life.

As you embark to your individual future destinations, I hope you will take time to look back and see how far you have come-from that first day of your first year in Singapore Polytechnic in the School of Architecture and the Built Environment. Cherish the memories and the relationships that you have built, the good or bad experiences and even the times when it seems impossible to come through, as those moments were the times when you learnt as an individual and held steadfast.

Once again, I would like to congratulate you and hope the best for your future endeavours.

To AY21/22 ABE Club main committee members, on behalf of AY22/23 ABE Club Committee, I would like to thank you once again for giving my team and I the opportunity to learn from you while finding our way to lead our own committee. But most importantly, I would like to show my gratitude to your hard work and friendly presence in the club-from advising us when we were just sub committee members, to encouraging us to participate in the event planning stages. After experiencing it myself, it's truly not an easy feat! We thank you for every fun moment gained in this journey. I wish all of you the best!

Once again, I congratulate all graduates for your hard earned success-through sleepless nights and rushing for the ATS. I hope you will be happy with the decisions you make in your life and live with no regrets!

To end off, a favourite quote of mine that I would like to share -

" Don't think about what's easy, think about what's fun "

Happy wishes!
