EDITOR'S NOTE

Hi Avocadians

August has been an exciting month for Avocado. Between our online and real-life events, our community continues to thrive and build lasting impact in the GameFi and real world.

There have been some changes to some of the scholarship games with exciting rewards designed to

support our players through these transition periods. We've covered them here so you can get all the latest info.

Happy reading :)

INDONESIA INDEPENDENCE DAY

We wish all our Indonesian scholars a happy 77th Independence Day. Our Indonesian scholars represented Avocado at a local event in Bogor, West Java, as part of the celebrations. They organized some awesome activities to introduce Avocado DAO through fun and games, shared with the local community. We are proud to be part of the festivities and can't wait to share more about the event in an upcoming blog post.

AVOCADIAN SCOOP

by: AG.Melzzie

Q2 Treasury Report

At the end of June 2022, Avocado DAO released its latest Treasury Report detailing the current financial standing of the DAO, how far we have come, our investments and financial standing at the end of Q2 2022.

- We have seen continued growth in community engagement as reflected in our Discord membership, which was at an incredible 85k (up 31% Q-on-Q) at the time of our Treasury report and has since continued to increase.
- During Q2, we successfully launched the AVG token bridge to the BNB chain as well as our staking program, which saw our second round of staking fully subscribed.
- We continue to maintain a strong liquid asset portfolio, which is detailed in our report.
- We hold NFTs in both characters and land to support our scholarship programs, and our existing yield-farming activities, as well as for future projects currently in development.

Dive into the full Treasury Report here:

<https://avocadoguild.medium.com/avocado-dao-june-2022-treasury-report-2605b4f8d7c3>

WHAT ELSE IS NEW?

AVOCADO INVESTS IN ATMOS LAB

Avocado DAO invests in Atmos Labs, launching a unique metaverse-native sports experience. Their goal is to develop games that are native to the metaverse and the social culture that surrounds it. With the recent release of the MKIV Datacard, giving exclusive benefits, Atmos Labs' first game, ExoGP, will include features for players and spectators alike. You can find out more: <https://avocadoguild.medium.com>

THE POWER OF TWO GAMING GUILDS

When two strong gaming DAOs come together to share communities and gaming strategies, we see the full power of web3 gaming guilds. Avocado has partnered with Korea-based Pro Gamer DAO, (PGD) a hyper-competitive web3 gaming community, to join forces across games, starting with League of Kingdoms. In addition to uniting our scholars to level up together, PGD brings its optimized system focused on gameplay, operations, management, and expanding gaming assets. You can read more in our medium article: <https://avocadoguild.medium.com>

WHAT'S BEEN HAPPENING IN THE COMMUNITY

During the month of August, Avocado participated in a roundtable session hosted by 21 million. Our co-founder Brendino, joined by D.G.Pals, discussed the future of guilds in GameFi and crypto, you can catch the recap here: <https://twitter.com/Avocadoguild/status/1555727859435442176?t=7eSV-PoXSoG4c6BZTX8ajw&s=19>

MetaGods team joined us for an AMA and played the beta version of their Action RPG game. They also leaked some gaming alpha, more about this on p16!

Atmos Labs airdropped MXIV Datacard NFTs for their upcoming metaverse- natesports game, ExoGP, giving the lucky winners exclusive access and in-game benefits.

Avocado hosted G4AL for an AMA on the beta release of their game, Elemental Raiders, a free2play, turn-based battle RPG set in a fascinating world full of magic. They also gave away treasure chests containing three customized Avocado Heroes.

COMMUNITY PHOTOS

by: AG.Skyy

Kenjie09#2987

Kenjie09#2987 became an Avocado DAO Axie scholar in July 2021. After a year, he is now playing multiple scholarship games with the guild. He lost his job during the pandemic and joining Avocado helped him get back on his feet. He was able to buy himself a PC which he now uses to play scholarship games, help his fellow scholars, and serve the Avocado DAO community. Kenjie09#2987 believes that Avocado DAO will rise to be the number one guild in the metaverse, and he can't wait to get more scholarships.

Cowcow#6307

Cowcow#6307 became an Axie scholar in July 2021 and now plays six more scholarship games. Her parents lost their jobs, and after joining Avocado, she was able to fulfill the needs of her family. She was also able to find new friends that helped and supported her emotionally. Cowcow#6307 said: "The experience at Avocado can't be measured with money because the friendship and the bond that you found within the community is priceless." Cowcow#6307 sees herself working with Avocado in the coming years.

TEAM SPOTLIGHT

Interview with AG.Sharon

We're going behind the scenes to showcase some of our team members. This month, we shine the spotlight on AG. Sharon - our multi-talented, Avocadian operative, who, together with the team, ensures that game management operates smoothly for all our scholars.

Q: How did you begin at Avocado?

A: One fine December morning when the dawn was softly calling, I was looking for internships during my summer break from uni. It was 2021 and I browsed past a vacancy at Avocado guild. With one glance at the website, I was moved by how benevolent this guild was, helping so many communities around the world.

"I immediately wanted to contribute to this incredible organization, so I applied."

I soon received an interview with Sir Jdash, and the rest is history. Now I work full-time for Avocado and mainly contribute to business operations whilst assisting the beloved marketing team as well.

Q: What are your tasks at Avocado?

A: I help with wallet management for our NFT games, data analytics, and scholar payments - I also do quite a bit of writing too. So far, I've been assisting the Mods with game operations for Axie Infinity, CyBall, Karmaverse and Genopets. It has been unbelievably exciting to onboard so many new NFT games over the past year. (Hint: D.G.Pals, League of Kingdoms and Ev.io scholarships are just around the corner!)

"The amount of interwoven learning at Avocado is impeccable!"

Soon I'll be taking over the reins for CyBall and some management tasks for Wasted Lands and Elpis Battle too. Within this wondrous spaceship, I am also the Lead of Community- so I am in charge of a lot of guild events, community management, and I do my best to make sure our scholars are always having a lovely time here :) I also mentor three of our Avocadian Aces where I teach them new skills, provide guidance and impart all my brain juices to prospectively empower them on their Web3 journey.

Q: What is your favorite thing about working at Avocado DAO?

A: I love that I'm able to level up on a lot of technical skills whilst continuing my passion for helping people.

"At every single layer of this guild, we are improving the lives of so many."

Be it gaming scholarships, work experiences, educational Web3 programs, community bonding, rewarding opportunities, or lifelong friendships that you truly can't make anywhere else." It's so heart-warming to see everything we do behind the scenes materialize.

Q: What motivates you and keeps you going?

A: It's the fact that we're being presented with platform to make such a positive difference around the world. I don't take this opportunity lightly, so no matter how tired I get some days, even if my work can improve the life of just one person, I know my efforts are worth it :)

Q: Any advice for people who want to get into web3?

A: The Web3 space is a fascinating treasure trove of knowledge, ideas and innovation. No matter what, you're bound to learn something new each day with the way decentralization is able to transform so many conventional benchmarks in banking, finance and gaming. Accessibility and interconnection are at a peak, so don't be afraid to explore every opportunity!

"You are staring straight into the future of our world, just through the exquisite lens of advanced screening."

PLEASE NOTE: The views and opinions expressed in the Avocadian's articles are those of the authors and do not necessarily reflect the views of Avocado DAO.

MOD UPDATE

By AG.Demdem

UPLIFTING THE AVOCADIAN COMMUNITY

Indonesia's 77th Independence Day

"The best! - Perfect!" These are the words from one of our Avonauts, AG.yb, of the Avocadians who attended and experienced the 77th Indonesia Independence Day with Avocado DAO in Bogor, West Java on the 16th and 17th of August. The objective of this event was to educate and provide opportunities for people within the local community to get to know Avocado DAO and learn about web3, crypto literacy, and the metaverse.

In conjunction with the festivities, we also celebrated Avocado DAO's anniversary with our fellow Indonesian scholars and event goes. AG.yb said: "During this event, we were able to make a lot of people smile, not only because of playing games, but we also educated people about crypto, Avocado, the metaverse and blockchain. This empowers people to prepare for new changes in the future and to give them many opportunities through these periods."

Along with educating and providing opportunities, the event also aimed to strengthen relationships between Avocado DAO's scholars and nearby communities, enhancing teamwork and sharing knowledge.

NEW REWARDS FOR ALL SCHOLARS

We are currently offering a 1-month promo to ALL our scholars! If you complete this player dashboard form by September 8, 2022, you will receive a raffle ticket to win one of the following prizes on offer:

- 50 x 100% payout scholarships for our current and future games in which you are not currently an Avocado Scholar.
- 25 x T-shirts to win - which will be delivered to you!

Fill in the form via our Discord announcement channel.

MOD UPDATE

Axie 100% Share Rewards

From August 12, 2022, Axie Classic no longer rewards \$SLP. To help our beloved scholars with the transition to Axie Origin, follow the designated steps by 30 September 2022, and receive a 100% share of SLP.

 Play at least 10 days in total from now until Sep 30, 2022

 Axie Swaps allowed [form in our Discord announcements]

 40 Energy allowed [form in our Discord announcements]

Hop on and play Axie Origin to get your 100% share of SLP!

Find out more in our Discord announcement channel.

AUGUST'S AVOARMY

By AG.Mmx

Rewarding Avocado's Most Active Members

Avocado recognizes and rewards the most active and supportive members of our guild. These are the scholars who participate the most within the community on our social channels (Discord and Telegram). They show their support on our social media platforms (Facebook, Twitter, and Medium), by joining our events, webinars and AMAs and helping the Avocadian community.

These scholars, who are appointed every month will be given the Avocadian Army role, and will get chances to win extra prizes to reward their contribution. Starting on the 1st to the last day of each month, the team will be monitoring and assessing scholars to award this title and extra perks. New Avocado Army scholars are announced in Discord at the start of each month.

COMMUNITY EVENTS

CONTESTS, TOURNAMENTS & WINNER ANNOUNCEMENTS

by: AG.AtomArc

August has been a fun-filled summer month packed with exciting games, from playing online with Brendino to hosting in-real-life events to celebrate Indonesian Independence Day and share Avocado and web3 gaming with the local community.

"Happiness is derived through assisting, sharing, and interacting with others." Avocado DAO expressed its commitment to its mission to serve the community first. Our IRL (In real-life) events in Indonesia have brought joy, kindness, and knowledge about the Avocado community."

Empowering Communities

Last year December, Avocado DAO brought smiles to everyone's faces during an IRL event to support the local community during the pandemic to offer relief to the fishermen of Kampung Nelayan, Pangandaran, a small fishing village in West Java, Indonesia, introducing them to the Indonesian Avocado community and sharing the benefits of GameFi both online and in the real world. Check out the video: <https://youtu.be/GQlvagdpDZo>

Camaraderie and Opportunity

We attended another IRL event to participate in Indonesian Independence Day on the 17th of August. Avocado DAO took part in local events and educated people about the guild and the amazing gaming opportunities it offers through fun activities.

COMMUNITY EVENTS

Avocado's Birthday \$SLP Giveaway

Excitement. Competitiveness. Triumph. Avocado DAO celebrates its birthday with an abundance of presents worth 500K SLP! The giveaway was open to all our loyal Avocadians who have stayed with us over time and help make the Avocado DAO a better place.

Axie Infinity Tournament

Another Axie Infinity Tournament happened to highlight the skills and intelligence of Avocadians. There were over 407 registered applicants and 128 tournament players. They competed against one another by employing mind-bogglingly intricate techniques and strategies.

WHAT'S NEW IN CRYPTO

CRYPTO UPDATES

by: AG. Melzzie

CyBall Reborn v1.1 brings exciting development updates

CyBall has recently upgraded its gameplay, made some enhancements and added new features in the release of the new version, Reborn version 1.1.

This new version will see some updates that will make the game even more fun and interactive, allowing players to have deeper insight into their gameplay and more features to help increase their strategies and earn CBT.

Reborn v1.1 was released on August 9, 2022, for Windows and Android, with Mac to be confirmed soon. Windows (and Mac) versions will run via a game launcher and players will need to reinstall the game to access the new features.

Crypto Updates cont'd

Here are some of the new additions to CyBall Reborn v1.1 from which our scholars can benefit:

- New game mode: Custom Rooms — players can now set up rooms to compete in friendly matches, as well as organize and participate in self-hosted tournaments.
- Nicknames will now be shown in the custom rooms, and in the future, nicknames will also appear on versus screen, strategy screen, and match screen.
- New game feature: CyBall Reborn v1.1 will now have a replay function. Matches will automatically be recorded, giving players the opportunity to review their matches so that they can perfect their strategy and tactics.
- Game enhancements: This includes in-built hotkeys during matches, revamp of collection and strategy screen.

Our scholars are already deploying the new version and utilizing the additional features to level up. They are loving the custom rooms and the replay function to review their gameplay and tactics each round. With the custom rooms, we can't wait to host our in-house Avocado x CyBall PVP tournaments, coming super soon!

PLEASE NOTE: The views & opinions expressed in the Avocadian's articles are those of the authors & do not necessarily reflect the views of Avocado DAO.

Avocado joins forces with Pro Gamer Dao in League of Kingdoms

This collaboration unites our two gaming communities to play our partner game, League of Kingdoms (LOK), one of the world's fastest growing web3 massively multiplayer online real-time strategy (MMORTS) games.

LOK is the first MMORTS game built on blockchain technology that enables players to fully own their land and seamlessly trade digital resources through blockchain-powered marketplaces. The game requires good strategy and teamwork. Our scholars said: The game's similarities to real-life politics give an interesting backdrop to building castles, gathering resources, and raising armies. A unique feature of LOK is the freedom it gives the player to make rules, cooperate with, or battle against entire continents to win \$LOKA, the game's governance token.

Our scholars really enjoy LOK's continent versus continent (CvC) mechanics which encourage hundreds of players from different countries and cultures to unite and strategize together to win CvC PvP events. Different guilds and alliances within a continent need to work together, share resources, and strategize if they want to win in battle against a rival continent. For the winning side, the rewards of victory are shared between the participants in the form of \$LOKA Tokens.

Our Avocadian scholars find LOK engaging, with a huge cooperative community. The rewards and resource-burning systems, including the introduction of Drago NFTs, have been carefully designed to make the game more sustainable and the team spirit makes it fun and immersive.

PLEASE NOTE: The views & opinions expressed in the Avocadian's articles are those of the authors & do not necessarily reflect the views of Avocado DAO.

TRIVIA - GLOSSARY OF CRYPTO TERMS

The Crypto world is full of technical terms, financial jargon, and phrases specific to the industry. These are some terms you may come across as you delve into the space.

Application Programming Interface (API): A piece of code that enables two websites or applications to communicate and share data.

GitHub: A folder or repository where a technical team can share their open-source data to collaborate, share and save the code and allow others to openly view and test it.

Interplanetary File System (IPFS): Distributed content storage where all kinds of digital data can be stored and shared. IPFS uses peer-to-peer networking to receive the fastest response from the closest peers.

Layer 0: A layer 0 protocol allows for entire blockchains to be built on top of it. It is the foundation layer upon which decentralized chains can be built.

Lightning Network: A lightning speed network that allows increased transaction speed between nodes to enable faster transactions and communication of data.

Node: A node contains a piece of information and can be linked to a tree of nodes. Nodes communicate with and participate in the peer-to-peer network to perform functions such as validating transactions and maintaining network safety.

Open-Source: Code or data that is shared publicly and free and open for anyone to test, use, update and distribute openly.

Oracle: An agent that communicates, verifies and authenticates the accuracy of external data. It is used as a bridge between smart contracts and other external sources.

Peer to Peer (P2P): When a network of computers connect and share information or divide tasks or workload between peers without passing through a centralized network.

Turing complete: Named after Alan Turing who envisioned a machine, that given enough time and required data, could solve any computational problem, no matter how complex it may be.

Avocado x MetaGods Streaming Event

MetaGods joined us for an AMA where they shared the beta testing of their game and gave our community some first-hand alpha about the game. Here are some tips and tricks to level up to advance through the MetaGods world.

PLEASE NOTE: The views and opinions expressed in the Avocadian's articles are those of the authors and do not necessarily reflect the views of Avocado DAO.

How to Access the Alpha?

1: Go to Metagods.gg and press:

2: On the next page, press:

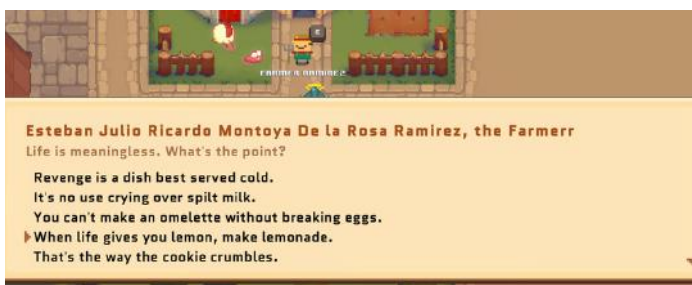

This will take you to the intro and the town of Ambrosia.

3: Talk to all the NPCs in the Town of Ambrosia (Talk to the Farmer last).

4: Push Perseus down the Hole and - then talk to the farmer.

5: When you talk to the farmer, choose the "Lemon" option
This will open the portal in the middle of the town:

GAMING INSIGHTS (continued)

In-game tip:

The best character in the game is the Necromancer. He has guided missiles (or skulls), can summon a skeleton to tank for you and his ultimate move is to bring back from the dead a ghost, that both absorbs and deals damage!

Avocado's Land in MetaGods Metaverse

MetaGods is one of the world's first Action RPG built on the blockchain and NFTs are both character and land assets within the game.

Avocado DAO has acquired some of its own land plots in the MetaGods universe as can be seen on their website: <https://app.metagods.gg/bossmap> (you can toggle with the control- screenshot above).

The in-game dialogue has been carefully designed based on the Greek Gods but brings it into modern times and culture by including little fun facts in the story such as Gods being addicted to their phones.

Rumour has it, that when you look straight into Medusa's eyes, you will not be stunned but she will cry chocolate tears. We'd love to know if it's true!

PLEASE NOTE: The views and opinions expressed in the Avocadian's articles are those of the authors and do not necessarily reflect the views of Avocado DAO.

AVOCADO DAO

Avocado DAO is a blockchain gaming guild that aims to unlock life-changing opportunities and rewarding experiences for its community members.
