Astralis - Your Trusted IT Lifecycle Partner

**Unlock Value.
Eliminate Risk.
Secure Your
Future.**

Technology evolves fast. So do the risks, inefficiencies, and costs associated with IT asset management. Businesses today need a partner who does more than just dispose of assets - they need a problem solver who unlocks maximum value, ensures compliance, and safeguards their operations.

That's Astralis.

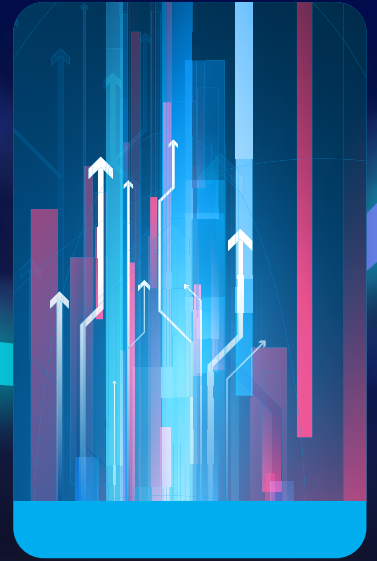

**We don't just follow industry trends -
*we set them.***

Our services help organisations take control of their IT lifecycle, protect data integrity, and maximise returns through strategic, forward-thinking solutions.

What's the Risk of Doing Nothing?

- Unsecured asset disposal leads to data breaches & compliance fines.
- Inefficient IT processes increase downtime & lost productivity.
- Missed value recovery means wasted IT investment potential.
- Neglecting sustainability results in increased environmental impact & reputational risk.

Take control of your IT lifecycle today - protect your assets, maximise value, and stay compliant.

Beyond Service – A Trusted Partner

At Astralis, we don't just deliver services – we build lasting partnerships. Our commitment to transparency, collaboration, and quality ensures that every engagement adds real value.

We take the time to understand your challenges and goals, offering tailored solutions that align with your business strategy. While we operate at scale, delivering

enterprise-level services, we never lose sight of the personal connections that set us apart.

With Astralis, you gain a strategic partner with global reach and a personal touch, ensuring your IT lifecycle is managed with precision, care, and a focus on your future growth.

Why Astralis?

We Solve Problems Others Overlook

Many IT service providers offer asset disposal and management. Few offer bespoke, tiered solutions that align with your business strategy. Our ability to flex, adapt, and optimise ensures that your organisation gets the highest return on investment while maintaining full security and compliance.

Decades of Expertise, One Powerful Team

Astralis is a new name with a proven track record. Our leadership team has spent decades refining IT lifecycle services, working alongside enterprise clients, public sector bodies, and industry leaders. We don't just know the industry - we've shaped it.

Security, Compliance & Sustainability at Our Core

From ISO-certified processes to our circular economy initiatives, we are committed to protecting businesses while minimising environmental impact. Compliance is non-negotiable, and we help our clients meet the highest security, governance, and sustainability standards.

A Partner for Progress

At Astralis, we do more than provide IT Lifecycle Services – we bring a wealth of expertise, industry insight, and a truly personal approach to every partnership. What sets us apart isn't just what we do, but how we do it.

We take the time to understand your challenges, ensuring that our tailored solutions align seamlessly with your business strategy. Our team has been at the forefront of IT Lifecycle Services for years, building trusted relationships and delivering results that go beyond expectations.

While we operate at scale, offering enterprise-grade solutions, we never lose sight of what matters most - people. Our hands-on approach means you'll always have a dedicated, experienced team who truly understands your needs, ensuring your IT Lifecycle is managed with precision, care, and a focus on your long-term success.

IT Asset Disposition (ITAD) - Secure. Smart. Compliant.

Struggling with secure asset disposal? Concerned about data breaches? Worried about lost value in retired IT equipment? Our three-tiered ITAD approach ensures a tailored, risk-free, and value-maximised IT asset disposition strategy:

The Essential ITAD Service

A streamlined, cost-effective solution for reselling non-data-bearing assets or excess IT equipment. Ideal for businesses looking for a hassle-free resale process while ensuring compliance.

The Enhanced ITAD Service

Designed for modern IT environments, this service balances cost-effectiveness with enhanced support, including optional repair and refurbishment. It's a step up for organisations that require more than just resale but don't need full data processing.

The Elite ITAD Service

Our all-inclusive, high-security ITAD solution for sensitive and high-value IT equipment. Covers collection, grading, data erasure, repair, destruction, recycling, and resale - all with comprehensive reporting, insurance, and certification.

Why Our ITAD Approach Works:

- ✔ **Tailored to Your Needs:** Our three-tiered approach ensures the right balance of compliance, security, and value recovery – whether you need simple resale, redeployment, or a fully managed, secure disposal solution.
- ✔ **Guaranteed Compliance & Security:** With ISO 27001 certification, ADISA-approved erasure software, and full alignment with UK GDPR, the Data Protection Act 2018, and WEEE regulations, we ensure your IT assets are handled legally and securely.
- ✔ **Built on Transparency & Quality:** Our ISO 9001-certified processes guarantee auditability, consistency, and best-in-class service, giving you full visibility and confidence in every step of the ITAD process.
- ✔ **Risk-Free, End-to-End Tracking:** A full chain of custody ensures zero risk, with detailed asset tracking and reporting from collection to final processing.
- ✔ **Sustainability Without Compromise:** As an ISO 14001-certified and EA-registered organisation, we don't just recycle – we prioritise reuse, resale, and redeployment, helping businesses meet their ESG goals while extracting maximum value from retired IT assets.
- ✔ **Maximum Value Recovery:** Our approach ensures that IT assets deliver the highest possible return, whether through resale, redeployment, or secure disposal, helping organisations unlock additional financial and operational benefits.
- ✔ **Led by Industry Experts, Committed to Long-term Partnerships:** Backed by decades of experience in IT asset disposal and lifecycle services, our team operates with integrity, professionalism, and a client-first mindset. We focus on building long-term relationships, providing ongoing support, and adapting to your evolving IT needs.

Beyond ITAD: Our End-to-End IT Lifecycle Services

Effective IT asset management is about more than just disposal – it requires a strategic, full-lifecycle approach to optimise efficiency, enhance security, and maximise value.

Astralis provides seamless, end-to-end IT lifecycle services that ensure your technology is deployed, managed, and decommissioned securely and efficiently.

From procurement and configuration to deployment, storage, relocation, and secure decommissioning, we take care of every stage. Our services are designed to minimise downtime, mitigate risk, and provide complete visibility and control over your IT assets. Whether supporting your workforce with device rollouts, managing IT transitions, or ensuring compliant data destruction, we deliver solutions that align with your operational needs and business objectives.

With decades of expertise, ISO-certified processes, and a strong commitment to compliance and sustainability, Astralis is the trusted partner for organisations looking to take control of their IT lifecycle.

ESG: Responsible IT Lifecycle Solutions That Go Further

Sustainability isn't just a checkbox – it's a business imperative. IT operations that ignore environmental impact lead to wasted resources, higher costs, and reputational risks.

At Astralis, we take a circular approach to IT, extending asset lifecycles, reducing waste, and ensuring compliance with the highest environmental standards. Our commitment to ESG isn't just about doing the right thing – it's about helping businesses achieve measurable sustainability gains while maintaining operational efficiency.

Environmental Stewardship

- Circular Economy Initiatives - Extending IT equipment lifecycles through resale, redeployment, reuse, and recycling.
- Energy Efficiency - Prioritising renewable energy & sustainable operations.
- Waste Reduction - Stringent, compliant, and environmentally friendly disposal practices.
- ISO 14001 (Environmental Management System) - Sustainable, eco-conscious IT solutions.
- Environment Agency Registration - Ensuring legal and responsible IT asset disposal.
- Essex Wildlife Trust Partnership - Proud Gold Sponsor of conservation initiatives.
- Essex Green Skills Pledge - Driving sustainable workforce development.

Reduce waste – increase impact – **stay compliant.**

Social Value: Turning Business into a Force for Good

At Astralis, **we believe every organisation** – not just IT providers – has a responsibility to create real value for communities, employees, and the wider economy. Social value isn't just a box to tick; it's an opportunity to build a stronger, fairer, and more sustainable future.

We don't just talk about making a difference – we prove it. Our Social Value Quality Mark provides independent verification of our commitment to ethical employment, skills development, and community engagement. When you work with Astralis, you're choosing a partner that delivers genuine, measurable impact – not just words on a page.

Real action – real impact – **independently verified.**

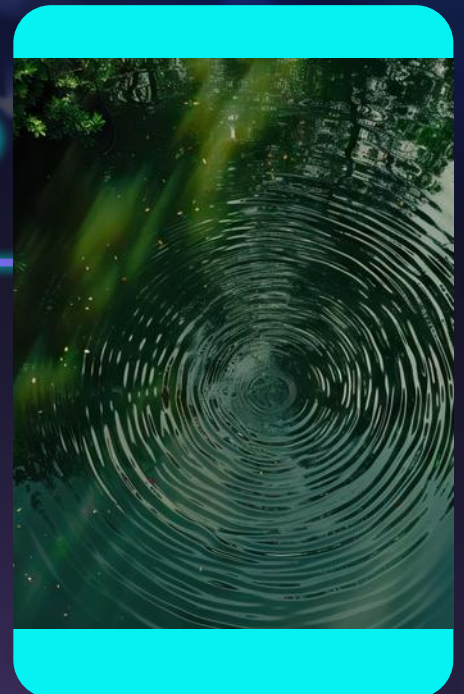

- **Independently Verified Social Impact** - Unlike others who simply claim social responsibility, Astralis holds the Social Value Quality Mark, ensuring our efforts are independently assessed and validated. We don't just talk about making a difference - we prove it.
- **Employee Well-being** - A diverse, inclusive workplace with real career growth.
- **Community Engagement** - Supporting local initiatives & social causes.
- **Customer Commitment** - Ethical, high-integrity business practices.
- **Living Wage Employer** - Committed to fair and equitable pay.
- **Disability Confident Accreditation** - Championing diversity and inclusion.
- **Social Value Quality Mark** - Recognising our dedication to delivering meaningful social impact.
- **Governance Excellence**
- **Transparent Reporting** - Clear communication of our ESG impact.
- **Ethical Leadership** - A leadership team committed to compliance and integrity.
- **Regulatory Compliance** - Meeting and exceeding all legal and ethical IT disposal regulations.

Our Commitment to Integrity, Professionalism & Trust

At Astralis, we believe that **trust is earned, not given**. Every service we provide is built on a foundation of honesty, transparency, and accountability. We don't just meet expectations - **we exceed them**.

- ✔ **Integrity First** - Every decision we make is driven by a commitment to doing what's right for our clients, employees, and the environment.
- ✔ **Professionalism in Every Interaction** - From initial consultation to final asset processing, we uphold the highest industry standards.
- ✔ **Long-Term Partnerships, Not Transactions** - We build relationships based on reliability, service excellence, and shared success.

Choosing Astralis means choosing a partner you can trust.

Your IT assets should work for you - not against you. Let Astralis help you eliminate risks, recover value, and secure your IT future.
