

HANDY INFORMATION FOR YOUR STAY AT THE MARATHON COACH SERVICE DEPARTMENT

XPEL Shield

Your Marathon Coach is an investment built to travel. XPEL Paint Protection Film adds a virtually invisible layer of protection to the front of your coach, shielding it from rock chips, road debris, and everyday wear. It keeps your finish looking pristine while helping maintain long-term value.

XPEL Paint Protection Film

Engineered Protection for the Front Cap:

XPEL Paint Protection Film is a high-performance urethane film designed to protect the front of your Marathon Coach from rock chips, abrasive road debris, bug acids, and environmental contaminants. The optically clear film preserves the depth and clarity of your paint while adding a durable protective barrier that absorbs impact before it reaches your finish.

Long-Term Performance & Value:

XPEL's advanced elastomeric polymer technology allows the film to self-heal light scratches and swirl marks with heat exposure, preserving surface clarity over time. While minor marks disappear, deeper damage may require professional repair. For detail-oriented owners, Paint Protection Film is a smart preservation upgrade that reduces paint wear, limits refinishing, and protects the most impact-prone area of your coach.

- High-performance urethane film
- Crystal-clear gloss protection
- Absorbs road impact
- Heat-activated self-healing
- Precision fit for front cap
- Reduces repainting over time
