

FINE ART

HANDCRAFTED LIGHTING

2023 CATALOG

HANDCRAFTED LIGHTING
EST.
1940
MADE IN AMERICA

Fine Art is defined
as objects of beauty,
created from actions
requiring a fine skill,
and appreciated for
their imaginative and
aesthetic content.

Every piece we make
proudly lives up
to our name
and its meaning.

it begins with
AN IDEA...

We have made every effort to accurately represent the character of our finishes shown in this catalog, however, due to printing there may be variations. In addition, there may be variations in handmade finishes. To request a sample, please contact your Territory Manager or send an email to customerservice@finearthl.com. Fine Art Lamps®

ARTISTRY IS OUR HERITAGE

One name has for generations stayed passionately devoted to creating the finest handcrafted lighting.

The company's artistic heritage began in the New York glass-making factory founded by Max Blumberg in the late nineteenth century. In 1940, his son Jack Blumberg gathered the finest designers, sculptors, and decorative artists to fulfill their shared vision of becoming the world's premier lighting manufacturer, and Fine Art Lamps was born.

In 1965, Jack's son Max carried on the commitment of his grandfather and father to design excellence and superb workmanship. In 1976, the company moved to Miami and expanded its operations capitalizing on the dynamic and creative culture thriving in South Florida at the time. Over time, Fine Art has been honored with numerous design awards, including the prestigious ART Manufacturer of the Year Award an unprecedented nine times, distinguishing the company beyond compare, and cementing our induction into the ART Hall of Fame.

In early 2018, as Max looked to enjoy new adventures in retirement, the company was acquired by his long-term executive team, Laura Goldblum and Rene Quintana. Vowing to continue the exceptional legacy the Blumberg family initiated, while updating the look and feel for today's savvy consumer, Fine Art Lamps was rebranded to Fine Art Handcrafted Lighting —a name more descriptive of the artistry and craftsmanship involved in creating their original product designs.

Fine Art Handcrafted Lighting is driven to achieve the highest artistic standards by creating unique and original lighting designs of beautifully handcrafted metal, hand-blown glass, and other unique materials utilizing exquisite hand-applied finishes. Today our devoted team of design and development specialists continually explore new concepts, challenging the status quo to bring to market elegant and sophisticated works of art, unparalleled in detail, character and value.

We are especially proud to manufacture in the United States of America, based on the belief this ensures design integrity, quality control, reliable delivery, and personal service. We are honored to have our handcrafted lighting grace exquisite spaces in private homes, and commercial applications in more than 70 countries around the globe.

When our company began, the name Fine Art was chosen to highlight our dedication to honoring lighting design as an art form. This tradition has been practiced by devoted designers, artisans, and craftsmen for almost 80 years and counting. We remain forever dedicated to inspiration, to vision, to illumination, to exploring the boundaries of what seems impossible—until by innovation and new technologies, we make it possible.

Today, we proudly uphold that tradition to bring our clients lasting works that are truly fine art.

Handcrafted Metal

Quality craftsmanship requires connection between material and maker. Our in-house masters of glass-making and metal-smithing utilize an array of both traditional and innovative techniques to carefully tailor lighting of impeccable beauty. We weld, hammer, blow glass, finish, and assemble by hand—not because Handcrafted is in our name but because it is in our hearts.

Speedglas
3M

Studio Glass

The integration of studio glass works with creative metalworks offers an unlimited range of custom design. New lighting technology such as LED has opened the door to totally innovative ways of lighting studio glass to highlight and enhance its unique characteristics. To quote Master Glass Artist Frank Englesby, "We are committed to keeping the American made tradition of studio glass in the forefront of design and to constantly push the boundaries of what may be impossible until it is possible."

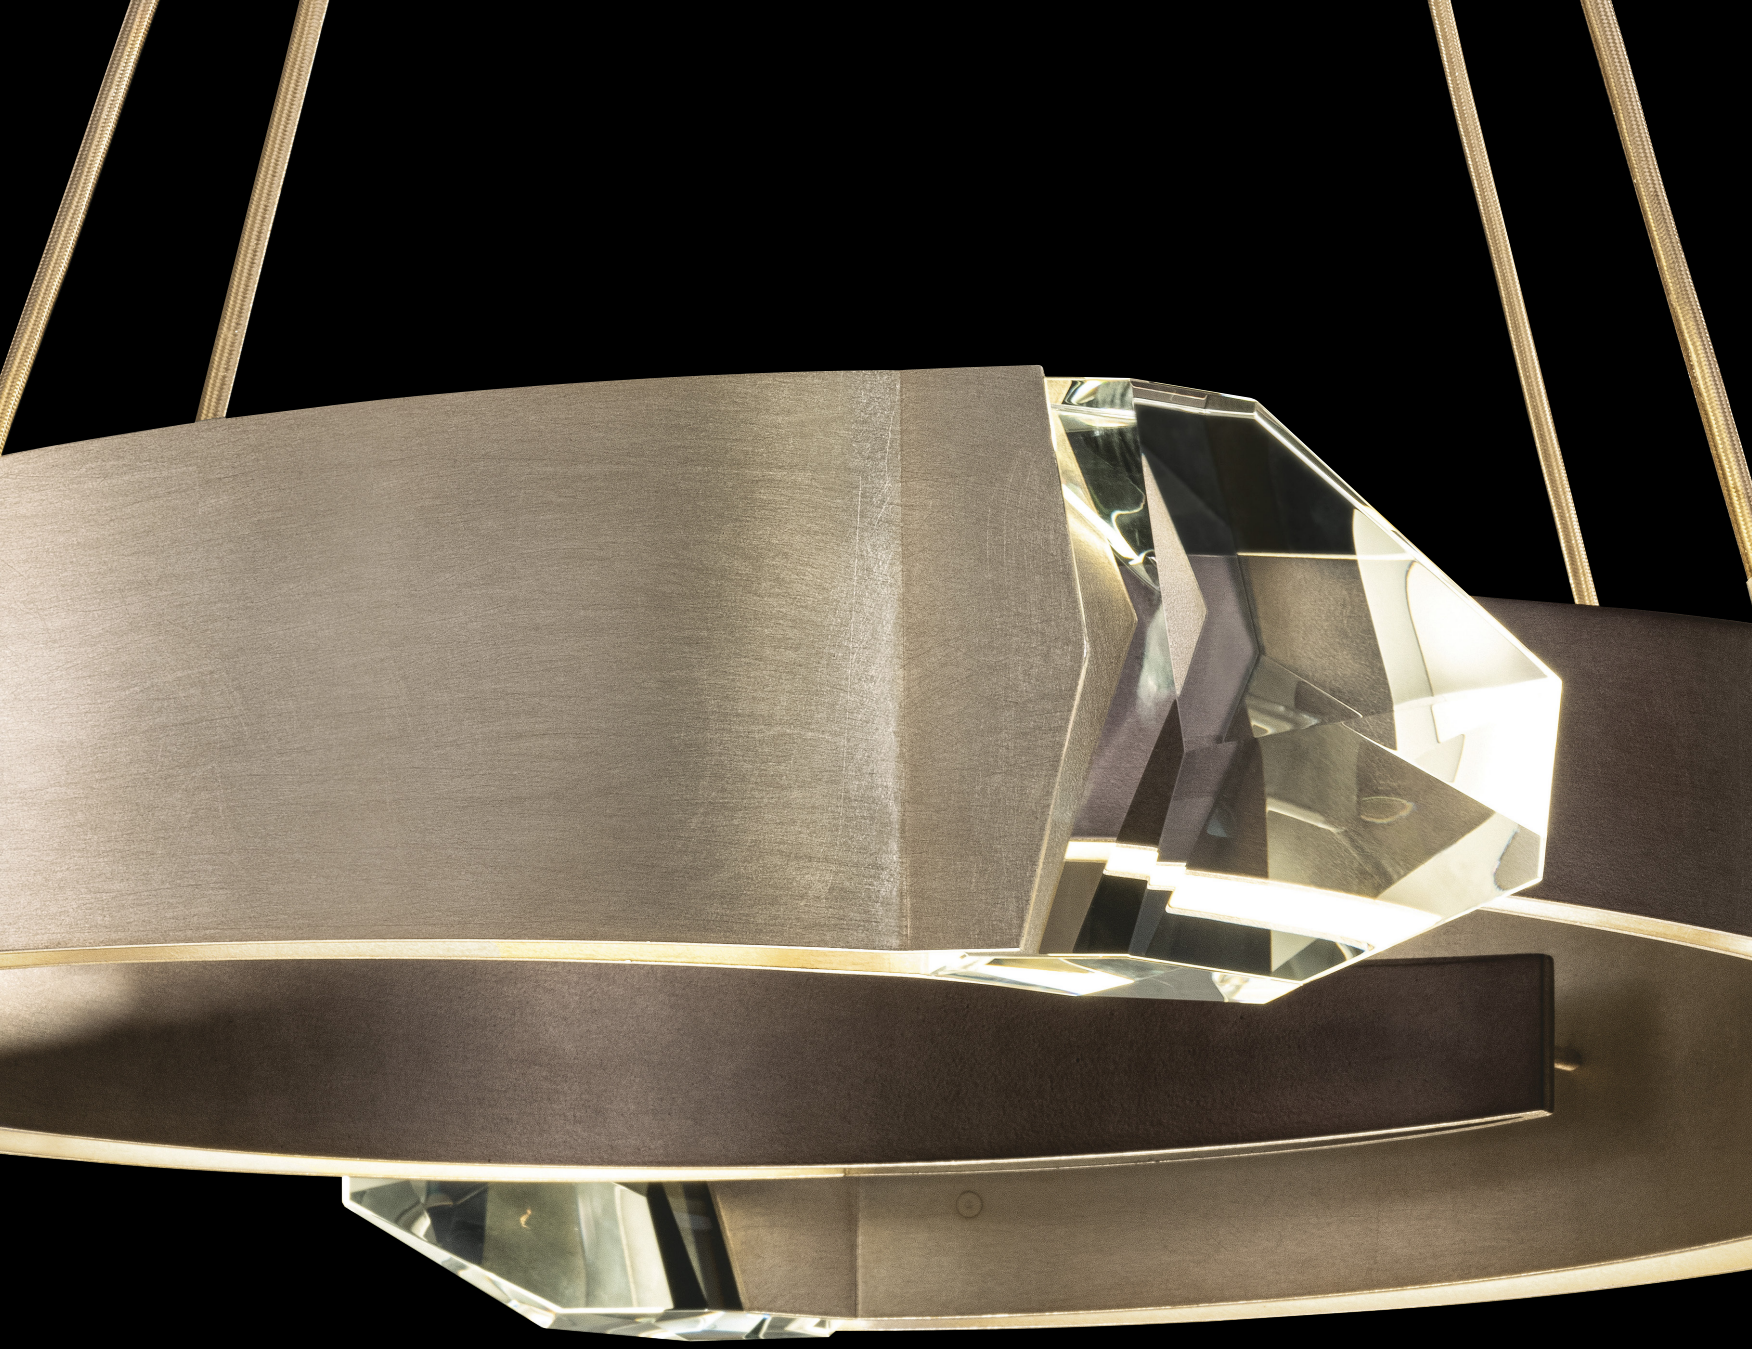

Hand-applied Finishes

Exquisite finishes are the trademark of all Fine Art Handcrafted Lighting collections. Many of the finishes require dozens of steps and applications to achieve the desired effect. Each piece is handcrafted with a unique finishing process, making it a one-of-a-kind work of art.

STRATA

Strata—truly the jewelry of any chic home. Each Strata crystal is cut from a solid block. The random hand sculpted faceted gem blends the line between nature and man, light and reflection, transparency and mass.

INTERIOR DESIGN BY MANDY MAFI
PHOTOGRAPHY BY BRADLEY CARICOFE

BEVELED ARCS

This collection is a groundbreaking concept with dramatic sweeps of arcing beveled crystals, mounted with metal. Exquisite and innovative, the Beveled Arcs collection is equally effective in dramatizing a traditional or contemporary setting. A true advancement in lighting design for the 21st century and beyond. Available in original muted silver or muted gold with antiqued candlesticks.

Also, as part of our Standard Finish program, our Beveled Arcs collection has been given a contemporary look with our bright "fresh" standard silver leaf or standard gold leaf finish with matching candlesticks.

AZU

This collection is inspired by the craftsmanship of fine jewelry, runway fashion trends, and the beauty of nature itself. Its name is short for Azucena, a "Madonna Lily" in Spanish. The flirtatious interplay of crystal and metal floral adornments creates a romantic atmosphere emanating feelings of joy and the celebration of life. Azu is offered in three new stunning finishes: silver leaf, gold leaf and winter blossom white gesso, all with white and gold brushed floral adornments.

Location Rating: Indoor damp
Reversible: Yes
Vertical Mount: Yes
Horizontal Mount: Yes

INTERIOR DESIGN BY LANA KNAPP
PHOTOGRAPHY BY LORI HAMILTON PHOTOGRAPHY

LILY BUDS

State-of-the-art graceful bouquets of crystal lily buds form perfectly lovely compositions for chandeliers, pendants and sconces in a standard silver leaf or standard gold leaf hand applied finish. The lighting effect is naturally elegant, subtly brightening a space with the poetic promise of new blooms inherent in buds.

CRYSTAL LAUREL

To ancient Mediterranean peoples, laurel stood for victory, distinction, and merit. The Greeks and Romans wove them into crowns and gave them as honors to heroes, athletes, and great poets. The laurel wreath became one of the most enduring design motifs of all time, and it has inspired our Crystal Laurel collection of decorative lighting. Stylized crystal leaves with boldly cut facets reflect light in delicate patterns. Our classic Crystal Laurel in antique taupe with silver leaf accents or warm gold with antique candlesticks are also featured.

As part of our Standard Finish program, our Crystal Laurel collection has been given a contemporary look with our bright "fresh" Standard Silver Leaf or Standard Gold Leaf finish, as shown to the right. Sconce and lamp shades have also been updated for a coordinating modern look.

ENCASED GEMS

Mounting colored gems creatively in metal is one of the oldest art forms, and survives today in the realm of jewelry. Inspired by this grand tradition, Fine Art has created jewelry for the home. Crystal gems in carefully chosen coordinating hues are mounted with a fine metal encasement and integrated into original metal lighting fixtures. All of the designs are offered in a venerable bronze patina, variegated gold leaf, or vintage silver leaf.

Model #	All Clear (-3)

CERTAIN ITEMS WILL NOT INCLUDE ALL GEM COLORS DISPLAYED ABOVE. For specific color variations contact your Territory Manger or your Customer Service Representative. Gemstone colors reflected are not intended to be exact replicas of color due to the limitations of printing, naturally occurring color variations, and the hand-craftsmanship of our lighting designs.

US/INTL bulbs are not included for all items in this collection.

Plain chain and/or plain canopy are also available to decrease the height on all hanging fixtures.
Please contact your Territory Manager or our Customer Service department for details.

EATON PLACE

Drawing inspiration from the London of the 1820s, Fine Art has created Eaton Place, a highly original collection of lighting with strong traditional roots, fashioned of solid brass and steel in a rich dark brown patina with garnet undertones. Unprecedented in scale and magnificence are the massive, fully faceted solid crystal bell-shaped pendants, urns, and bobeches of optic quality. The shades are composed of faceted solid crystals mounted in metal frames, which create a stunning effect of refracted light. Also available in a warm, muted silver leaf finish.

WESTMINSTER

Westminster is thoughtfully designed to be both boldly dramatic and quietly subtle. Double-faced beveled crystals exquisitely float openly in individual metal frames that conform to the crystal shapes but without touching them. The lanterns, chandeliers, pendants and sconces are offered in a choice of warmly washed pale antique gold or softly weathered English brown iron patina with vestiges of silver. Both aged finishes lend a casual elegance to today's interior styles.

A MIDSUMMER NIGHTS DREAM

Since the beginning of time, human beings have longed to live in the world of their dreams—a place of serene beauty. As we create our homes, all of us aspire to bring our dreams to life. Fine Art offers you the chance to bring into your home the eternal magic of summer moonlight in a romantic garden pavilion. Each creation has an elusive, dream-like quality, from the faceted crystal drops and cut crystal beads enriched with moon dust, to the delicate lines traced in iron in a moonlit patina. Behold a designer's reverie, rendered into reality to adorn a fantasy home with magical illumination.

MONTE CARLO

The Monte Carlo collection is dedicated to the halcyon days of an American princess. Grace of Monaco possessed poise, sophistication, and a taste for elegant design. Brilliant faceted crystals of massive scale adorn gracefully intersecting arms in a gently worn gold leaf finish. Hand-blown swirled crystallized glass shades are framed in gilded metal.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

MONCEAU

Monceau is an exploration of geological faceting. The classical emerald cut is a rectangular composition with two short sides cut North & South and two long sides cut East & West. The top surface of Monceau has a large rectangular plane that serves as a window with deep facets on four sides. The use of classical facets in crystal creates a modern statement on this large scale. Each Monceau crystal is cut from a solid mass. The center is cored out and all facets and surfaces are meticulously polished. Metal frames in choice of standard silver leaf, standard soft gold leaf or hand-rubbed bronze.

BOND

From Miami with Love…
Introducing Bond… bold, sophisticated, and oozing with confidence. Statement pieces to add luxury to a modern environment, Bond is a collection of illuminated cylinders formed by handcrafted glass set within a silhouette, beautifully lit from within, spanning space vertically or horizontally. Wrap Bond with one of our American studio glass options: Diamond Blanket—using naturally faceted crystal frit, thermally induced to an exact heat, creating a blanket of sparkling crystal. Bahama Sand—fused layers of opaline white glass, capturing a natural micro pebble finish, reminiscent of shells in the sand. Choice of four finishes: Two-tone finish in Silver Leaf & Black or Gold Leaf & Black, single finish in Standard Gold Leaf or Standard Silver Leaf.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

60″ LINEAR PENDANT

Model #

TERRA

The natural beauty of our Terra glass is featured in its purest form, the heroic glass skillfully suspended by the minimal metal frame. Pendants feature parallel glass forms in clear or glazed with gold leaf, enhancing the visual contrast of the highly polished edge against the rich texture of our hand-cast studio glass. Pendants are available in three "Standard Finish" options: Soft Gold Leaf, Silver Leaf, and Black Iron. All for indoor use only.

This collection also features multiple sconce sizes and a flush mount. The versatile design of these wall fixtures can be used on ceilings or walls, horizontally or vertically. Choice of three finishes: Standard Soft Gold Leaf and Standard Silver Leaf for indoor use only, and a hand-rubbed Black Iron for indoor and outdoor use with clear or gold leaf glass.

NEW GLASS OPTION NOW AVAILABLE

Inspired by Zen patterns formed with tiny pebbles, Rake combines monumental cast glass with deep hand-carved patterns, perfectly captured by an array of hidden LEDs, giving the studio glass a contemporary feel to an ancient design.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

ANCIENT ART
MODERN ART

ELEVATE

Fine Art Handcrafted Lighting has created a collection destined to inspire. “Elevate” establishes a platform that can unlock design concepts in unlimited vertical and horizontal spaces. The suspension of uniquely designed elements in American studio glass allow for infinite opportunities in space design. From our pre-configured canopies with LED down lighting, to custom elements created for site-specific large-scale installations, Elevate is truly a work of Fine Art! Challenge us to “Elevate” your uniquely designed environment. Canopies available in standard silver leaf or soft gold leaf.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

LIOR

Designed by WOOGMASTER STUDIO

Asked about the interpretation for "Lior," designer Alex Woogmaster responded: "Lior in Hebrew can mean my light, and light to me, both of which seemed appropriate for my first design collaboration with Fine Art. The fixtures are influenced by the ephemeral appearance of illuminated rock crystal, which has here been interpreted into handmade glassworks with the collaboration of the Fine Art studio glass master craftsmen. Lior is meant to evoke a primal sense of craftsmanship: formed of glass spires that mimic natural crystal formations as much as they do rays of sunlight, and clean metal lines in unadorned but precious finishes—all inspired by the raw sense of wonder Adam might have had upon first seeing light on Earth." Available in standard silver leaf, standard gold leaf, or standard bronze.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

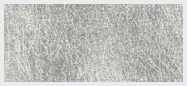

48″ RECTANGULAR PENDANT

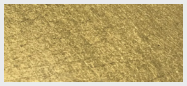

Model #
898040-1 Standard Silver Leaf

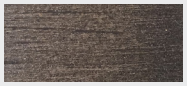

Dimensions
H 12" (30 cm) W 48" (122 cm) D 11.5" (29 cm)

OUR CABLING SYSTEM

Glass pendants are individually adjustable after installation for optimum composition. This is a major advantage compared to other drop pendant cabling systems that require cutting. Cables are hand adjustable by simply pushing up to shorten the length. To increase cable length, push plunger up and pull cable out.

CUSTOMIZATION

As seen on page 245, Natural Inspirations has multiple canopy configurations. However, through Fine Art Handcrafted Lighting's Customization Program we can make canopies to your specification in size and in number of drops with supplied appropriate transformer capacity. Canopies can be customized in finish and shape, including a version that has been coated with a base primer for you to paint to match your home decor.

*Clear and Natural "Quartz" are predetermined at approximately 25% per shape.

VESTA

Vesta is inspired by one of the largest asteroids in our solar system that continuously orbits the outer reaches of space. Its rocky form has been punished over billions of years since the early formation of our planets. Our glass artisans have recreated this celestial form using a unique technique of freehand glassblowing that creates a ghostlike illumination through the colored glass. Each hand-blown, sculptural piece is a unique work of contemporary art.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

DELPHI

Designed by WOOGMASTER STUDIO

When Alex Woogmaster began working on designing the Delphi collection, he wanted to arrive at a design that felt clean, timeless and true. The collection is inspired by the myths and legends of the ancient Oracle of Delphi, and each piece needed to have an almost mystical quality, glowing from an almost primitively classical basin silhouette—made of hand formed or blown glass—set within a silhouette whose form above all, emphasizes purity. There is something deeply peaceful and reassuring to Alex about the concept of knowledge, and while these fixtures don't necessarily reveal truths, we hope that the light they shed can, metaphorically speaking, help bring the light of truth into our lives. At the very least, these fixtures are meant to bring a contemplative serenity and clarity to our world.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

ARCTIC HALO

Fine Art Master Glass Artist Frank Englesby has been inspired by memories of childhood dreams: the heavenly light show that dances around the midnight moon hovering over the Arctic circle. We have conceived lighting fixtures that capture this effect perfectly, in the form of shallow bowls, drums, rings, waisted bodices, and cylinder sconces. Using thousands of handmade "rough-cut" crystal gems made in our glass studio, Arctic Halo celebrates the refracted light of ice crystals carried by cirrus clouds and forming a lunar halo in the night sky. Drums and rings with tightly woven white fabric diffusers. Available standard soft gold leaf, standard silver leaf or matte black.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

ALLISON PALADINO

A state-of-the-art dimmable LED collection of lighting fixtures and sconces conceived by Allison Paladino incorporates our exclusive studio process of dichroic rough-cut sculpted glass, conceived by Fine Art master glass artist Frank Englesby. Each rough-cut glass gem is lit by (small and high efficacy) hidden LEDs, highlighting a dual-colored reflective brilliance. Dichroic glass was developed by NASA for use in space shuttles. Making dichroic glass requires complex processing technique in high-temperature vacuum chambers using vaporizing metallic oxides such as magnesium and titanium. The process requires 15 to 45 individual layers totaling a width less than a single human hair.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

THE BIG SLEEP · RAYMOND CHANDLER

PLUME

Plume sets classical lines soaring into modern designs. A labor of love by the artisans of our South Florida studio, this elegant collection interweaves elements of our signature handblown studio glass with handmade metal fabrication. The resulting forms exhibit the finest craftsmanship and cast ribbons of light of the richest hues. Available in standard silver leaf or standard gold leaf with the option of dichroic glass "plumes" or clear crystal and white "plumes."

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

DIAMANTINA

A gem-like old hilltop village in Brazil, Diamantina is famed for quartz crystal clusters, considered since ancient times to have cosmic connections and psychic healing powers. Inspired by nature, Fine Art Master Glass Artist Frank Englesby has created a collection of lighting as wondrous and unique as nature itself. Building on glass techniques over 2000 years old, and using the core element of natural quartz, the spires are worked by hand at over 2000 degrees. The raw crystal spires are then rough cut and hand polished to expose the inner core to light. As in the natural world each piece is distinctly unique.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

LUNÉA

Designed by ERINN V.

Timeless elegance emanates at the core of this collection. Hand-cast glass—highlighted by hand-beveled edges—evokes the properties of rock crystal and creates an architectural feeling. Inspired by mid-century, Lunéa blends modern and classic aesthetics, allowing the pieces to add a touch of glamour to a modern home and modernize a more traditional space.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

CROWNSTONE

As a celebration of Roman ingenuity and design, a transformative element of classical architecture has been interpreted with the brilliance of glass. As the primary element of these elegant transitional fixtures, the Crownstone is captured in cast glass by the highly skilled artists in our Miami studio. Strength and elegance are the hallmarks of this bold new series, giving testimony to our commitment to innovative designs and American craftsmanship.

LAS OLAS

The unique hand-sculpted surface creates waves of texture that refract and reflect the illumination from within. Drop lights feature an organic form, finished with a hand-polished edge creating a dramatic contemporary feel. The organic body and base have a distinctive style as a truly sculpted glass table lamp. Each piece is handmade in our Miami Glass Studio and one-of-a-kind. Available in standard silver leaf or standard gold leaf.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

CRYSTAL BAKEHOUSE

In Fine Art's glass department, a "bakehouse" for crystal has been created by our glass makers, giving its name to a new concept of art-glass lighting. A five-day process of hand-creating crystal spires, then baking and annealing for several days at high temperatures to form a massive block which is then carefully polished. Bubbles and seeds formed naturally in the slow bakehouse process add to the dynamic effect when the slabs are illuminated by a light sources. The entire crystal composition comes to life. Available in Indoor/Outdoor silver and bronze finishes, and standard silver and standard gold leaf (Indoor only) with Crystal Spires.

*Wall fixtures provide up and down wall washer lighting through translucent panels at each end. Standard silver leaf and standard gold leaf finish is for Indoor use only. See page 383 for additional Indoor/Outdoor finish options.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

ALLEGRETTO

Allegretto, a musical tempo that is briskly bold yet relaxed, gives its name to a lighting collection created to the sound of music. Like a conductor directing his orchestra with artful movements of his baton, the Fine Art designers made confidently bold, swift strokes in drawing Allegretto. The lines for each piece in the collection make distinct, graceful gestures that timelessly span yesterday, today, and tomorrow, as the curves change direction gracefully with elegant simplicity. Our classic Allegretto in silver leaf finish or burnished gold leaf both with subtle brown highlights and white textured linen shades are also featured.

As part of our Standard Finish program, our Allegretto collection has been given a contemporary look with our bright "fresh" standard silver leaf or standard gold leaf finish. Shades have also been updated for a coordinating modern look.

CIENFUEGOS

The exquisite seaside city of Cienfuegos on the southern coast of Cuba was built by French émigrés two centuries ago, and is known as “The Pearl of the South.” The 1920s were a unique transitional period in architecture and design in Cienfuegos, combining the old and the new. Metalworking innovations flourished among the artisans. This period inspired our eclectic collection. Our classic Cienfuegos in antique bronze, weathered greige and gold with textured natural greige fabric shades are also featured.

As part of our Standard Finish program, our Cienfuegos collection has been given a contemporary look with our bright “fresh” standard silver leaf or standard gold leaf finish with matching candlesticks. Chandelier and sconce shades have also been updated for a coordinating modern look.

INTERIOR DESIGN BY MARC PRIDMORE DESIGNS

www.finearthl.com

PERSPECTIVES

Perspectives is inspired by the geometric interplay of angular forms, whose beauty is the phenomenon of perspective. In the spirit of the modernist movement in architecture, the rectilinear forms seem to float. As one moves around the pieces, the ever-changing spatial relationships fascinate the eye. Sculptural and structural, the lighting forms are a strong visual focal point. A patinated golden bronze finish with shades of multi-tonal gold organza add a subtly varied and uniquely layered pattern of light in a room. Also available in warm muted silver leaf finish with shades of multi-tonal white crepe.

SINGAPORE MODERNE

Singapore in the 1930s was a vibrant crossroads of Eastern and Western cultures. This was reflected in striking contemporary design, a look evoked by Fine Art today. Almond mica, hand-blown glass panels, orbs and pendants, combined with a warm muted silver leaf finish to create the strong design statement and dramatic subtle lighting effects of Singapore Moderne. Also available in brown patinated with warm translucent mica panels.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

LIAISON

In creating the nucleus of a new collection, Fine Art envisaged distinctly individual designs that communicate with each other in intimate harmony—the essence of a liaison. Each piece is unique in time and space, executed in hand-crafted metal with extensive component details and articulation, finished in a choice of antique hand-rubbed bronze or standard silver leaf. The glass shades are hand-blown with random glass overlay hand-worked by Fine Art glass artisans in clear glass with a partial, graduated satin frosting.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

INTERIOR DESIGN BY LINDSAY KADLICK INTERIORS
PHOTOGRAPHY BY ERIC KRUK

NEWTON

Designed by WOOGMASTER STUDIO

The strikingly carved and arrayed crystal planes of Newton are inspired by the light play of prisms. From pure geometric forms emerge rays of richly layered complexity. Contemporary in form and silhouette, these sculptures of metal and light offer the color-infused prismatic brilliance of multi-faceted glass in an ordered sensibility—crisp illumination sparkling at every angle. Available in standard silver leaf or standard gold leaf.

CASTILE

The mention of Castile conjures images of cool and graceful courtyards, of the gentle interplay of light and shadow over Moorish tiles, passing through filigreed ironwork and across the deep recesses of finely carved giltwood ornaments. Castilian decorative style in the 16th century inspires a collection of lighting which captures the beauty and romance of Castile through richly-wrought iron with worn gold leaf highlights, beige silk hand sewn shades with antiqued trimmings, and warm-toned mica panels.

Outdoor Lighting

Enhance your outdoors with unique
Fine Art Handcrafted Lighting outdoor designs.
Louvre outdoor collection shown.

TERRA

The natural beauty of our Terra glass is featured in our new introductions in its purest form, the heroic glass skillfully suspended by the minimal metal frame. Sconces and flush mounts in clear or glazed with gold leaf, enhancing the visual contrast of the highly polished edge against the rich texture of our hand-cast studio glass. The versatile design of these wall fixtures can be used on ceilings or walls, horizontally or vertically. Choice of three finishes: Standard Soft Gold Leaf and Standard Silver Leaf for indoor use only, and a hand-rubbed Black Iron for indoor and outdoor use with clear or gold leaf glass.

NEW GLASS OPTION NOW AVAILABLE

Inspired by Zen patterns formed with tiny pebbles, Rake combines monumental cast glass with deep hand-carved patterns, perfectly captured by an array of hidden LEDs, giving the studio glass a contemporary feel to an ancient design.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

CRYSTAL BAKEHOUSE OUTDOOR

In Fine Art's glass department, a "bakehouse" for crystal has been created by our glass makers, giving its name to a new concept of art-glass lighting. A five-day process of hand-creating crystal spires, then baking and annealing for several days at high temperatures to form a massive block which is then carefully polished. Bubbles and seeds formed naturally in the slow bakehouse process add to the dynamic effect when the slabs are illuminated by a light sources. The entire crystal composition comes to life. Available in indoor/outdoor silver and bronze finishes, and standard silver and standard gold leaf (indoor only) with Crystal Spires.

*Wall fixtures provide up and down wall washer lighting through translucent panels at each end.
Standard silver leaf and standard gold leaf finish is for Indoor use only. See page 301 for indoor finish options.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.
In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

LOUVRE

Built as a royal palace, the Louvre stands at the heart of Paris, housing the world's greatest museum. In the days of Louis XIV, within the palace walls lived hundreds of artists and craftsmen, supplying the decorative needs of the court. The arcades of the Louvre, then as now were lit by lanterns designed and made on site. Fine Art's Louvre collection of outdoor lighting designs is inspired by the simple yet elegant lines of the lanterns that have adorned the arcades of the Louvre for centuries. In a fine bronze finish with clear blown glass, Louvre is a strong addition to many architectural styles.

Not available in Standard Finish Options.

CHATEAU OUTDOOR

As night fell, the feasts and celebrations of Southern Europe moved inside the chateaux, and the light of hundreds of candles would cast a magic glow. These lighting designs inspired us to create Chateau, an interpretation of the metal arts still found in Southern Europe. The finish is of a variegated rich umber patina with gold accents.

COSTA DEL SOL

Invoking the soothing salty breezes of the Mediterranean and the rich design traditions of these historic coasts, the Costa Del Sol collection of outdoor lighting is an example of classical elegance, featuring stylized quatrefoil designs in Marbella wrought iron finish. Subtle iridescent textured glass adds another element of beauty to these pieces.

DEVONSHIRE

The great patchwork-quilt area of Southeast England, part of the West Country, abounds in rolling hills, foreboding moors and picturesque villages that provide some of the finest scenery in England. Inspired by its history, each piece features forged bronze finish with antiqued gold accents and textured seedy glass.

SINGAPORE MODERNE OUTDOOR

Singapore in the 1930s was a vibrant crossroads of Eastern and Western cultures. This was reflected in striking contemporary design, a look evoked by Fine Art today. This outdoor collection is available in dark bronze patina finish with off-white interior glass surrounded by a clear, textured outer glass.

BEEKMAN PLACE

Beekman Place is one of New York City's most sought-after residential addresses. A gracious ambiance that is elegant but not too formal, impressive but not ostentatious. Georgian-style architecture dictates the façade, with handsome detail and a rich history. This unequivocally elegant collection features outdoor designs in weathered woodland brown with gold highlights and solid brass accents.

Hand-applied Finishes

Exquisite finishes are the trademark of all Fine Art Handcrafted Lighting collections. Many of the finishes require dozens of steps and applications to achieve the desired effect. Each piece is handcrafted with a unique finishing process, making it a one-of-a-kind work of art.

We have made every effort to accurately represent the character of our finishes shown in this catalog, however, due to the printing process there may be variations. In addition, there may be variations in handmade finishes. To request a sample, please contact your Territory Manager or send an email to **customerservice@finearthl.com**

Standard Finish Options

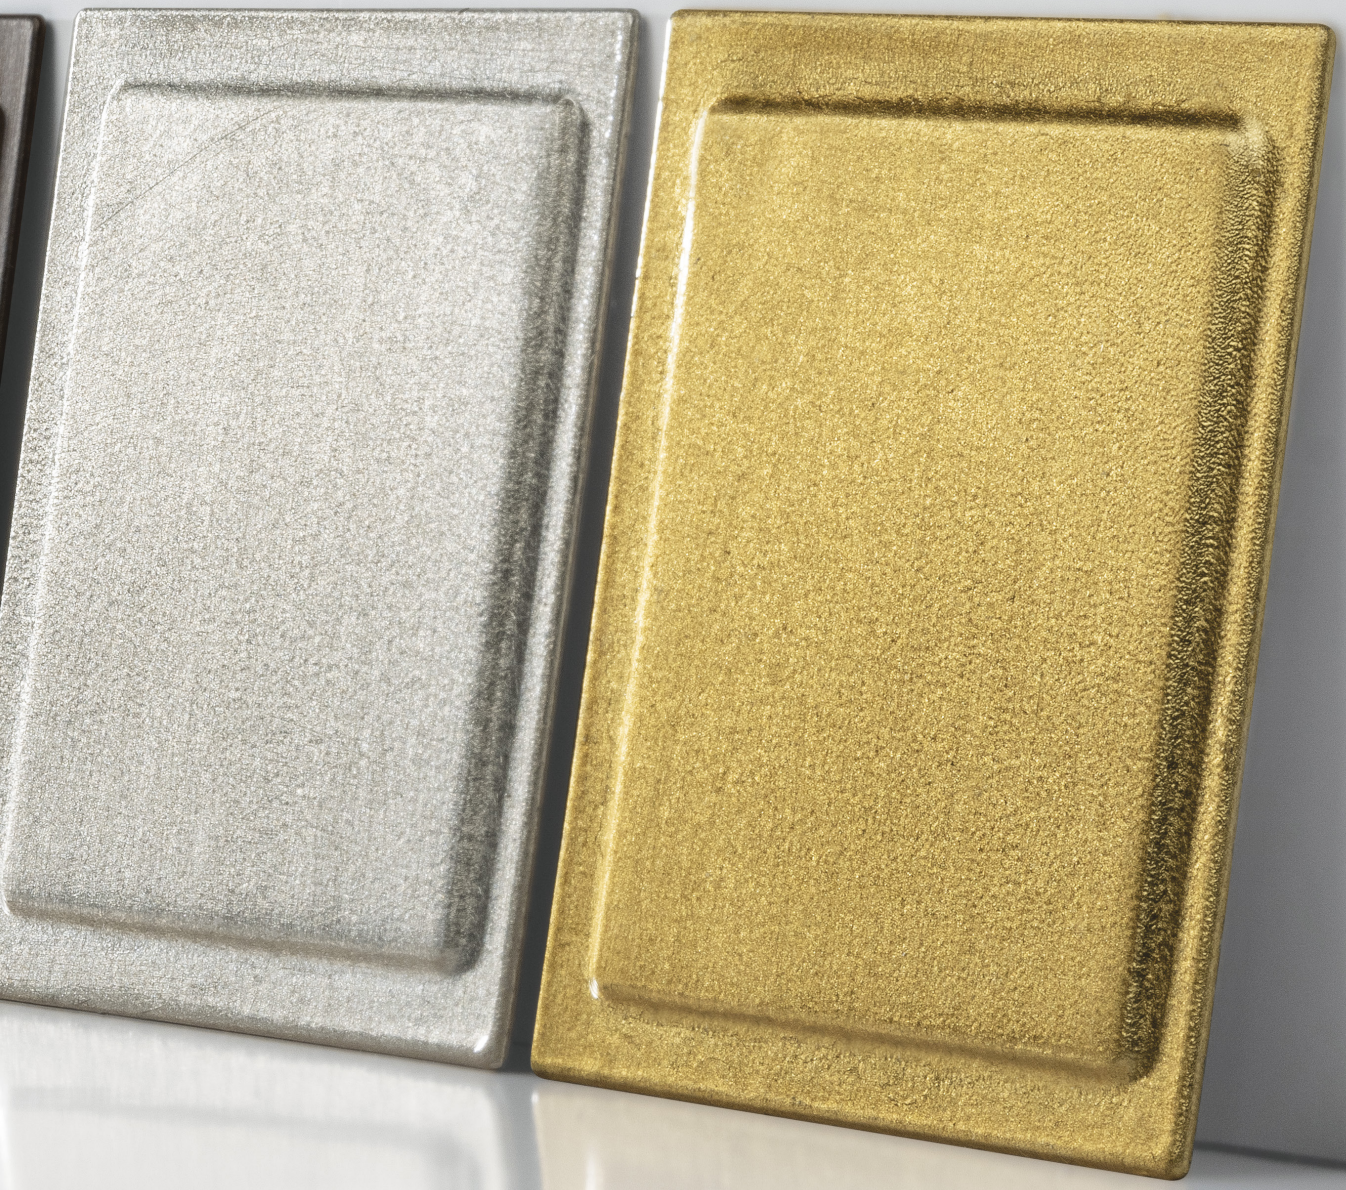

"As a true US manufacturer, our ability to provide our customers with customization opportunities, has been a strong competitive advantage of ours for many years now. Providing finish options is an integral part of our custom offerings. As we introduced product with new, more contemporary finishes, we saw the opportunity to bring new life to our timeless, classic forms. Today, we offer every style in our catalog in five finish options at no additional cost, providing endless flexibility to our customers' unique design needs."

RENE QUINTANA
Principal

THE FIVE STANDARD FINISH OPTIONS

Soft Gold Leaf, Bronze, Black Iron, Silver Leaf, Gold Leaf

SOFT GOLD LEAF
An understated air of luxury.

With champagne tinted gold leaf, our standard soft gold leaf finish provides a chic and elegant touch with an understated air of luxury.

www.finearthl.com

Original Eaton Place
Model No. 595440
in rich, dark brown patina.

www.finearth.com

BRONZE
Subtle tones, adding warmth.

Our standard bronze finish adds warmth to any room. The subtle tones of deep brown work well as an accent metal, particularly when patinated to a dark tone and highlighted with a light burnish to bring out the original color.

www.finearthl.com

STANDARD FINISH OPTIONS

Original Terra
Model No. 896750-3
in soft gold leaf.

Both finishes shown
are for indoor only.

Original Perspectives
Model No. 732040-2
in muted sllver.

BLACK IRON

A transitional finish with deep luster.

www.finearth.com

Our standard black iron finish is a rich black transitional finish with a deep luster that is lightly antiqued and hand-rubbed along the joints and perimeter edges, resembling black iron.

This striking finish adds a bold statement to any chic interior.

www.fineartlt.com

SILVER LEAF
A dazzling presence.

Our standard silver leaf finish gleams and reflects from every angle. Its dazzling presence adds modern appeal and luxe charm.

www.finearthl.com

Original Winter Palace
Model No. 302740
in warm silver leaf.

GOLD LEAF

A transformative power.

There is nothing quite like the transformative power of gold leaf. Our standard gold leaf finish adds glamour, sophistication, and elegance, which can be used in all types of interiors ranging from a traditional home to modern high-rise apartment in New York.

www.finearth.com

Original Liaison
Model No. 860540
in antique,
hand-rubbed bronze.

All fixtures shown in this brochure have been digitally altered. Please request finish sample to ensure accurate representation.

CUSTOMIZATION

Bespoke Design | Metal Working | Studio Glass | Finishing

We offer you the freedom and flexibility to develop customized products and create original designs to meet your most discerning tastes and exacting specs. The process is one of total artistic collaboration between designer, architect, specifier, and maker to bring about the ultimate refinement of handcrafted lighting. You will receive a spectacular work of art sure to exceed your expectations—on time and on budget.

We provide a skilled team of lighting professionals that consult with you in developing a lighting plan to enhance the space, highlight the architectural features, and achieve the ambiance you desire. We offer a portfolio of thousands of original designs in a vast array of styling from which to choose, and as a true vertical manufacturer in America, we can customize our designs to meet your unique requirements.

Our experience, design and creativity allow us to partner in creating bespoke, iconic pieces at any scale, starting with just a sketch, inspirational photo, or idea. We can handle any size order. There are no minimum quantity requirements. We meet all ADA requirements. And we utilize our international partnerships and logistics expertise to bring additional sources of materials and value-engineering to meet your specific design and budget needs.

As an international company serving more than 70 countries, we offer international wiring certifications including: UL/ETL (US), CSA (Canada), CE, SASO, and GOST.

Contact Customer Service or Territory manager to start your next custom project.

There are many who attempt to emulate or copy our proprietary designs to benefit from our company's heritage, reputation and prestige. When specifying lighting by Fine Art Handcrafted Lighting, the professional is assured of its authenticity and exclusivity. Fine Art Handcrafted Lighting vigorously defends its intellectual property in the United States and internationally to protect our clients from counterfeit product and inferior quality copies.
