G-10

Cargo Delivery System

The **Cargo 10** is a complete assembly of military equipment manufactured to the highest standards using the best **Military Specification** materials available in today's market. The **Cargo 10** is manufactured in the United States in a facility that is Federal Aviation Administration (**FAA**) certified for manufacturing parachute equipment.

These high standards of materials and workmanship will provide years of quality service.

The **Cargo 10** Parachute provides the capability to safely deliver up to 800 lbs. (363 kg.) of cargo from an aircraft in-flight.

This system features a static line deployment of the main canopy.
