About

Discover the art of dovetail craftsmanship with our bespoke, custom-made drawers. Available in sizes up to 1500 mm wide and 750 mm high, each piece is tailored to your exact specifications. Choose from premium timbers such as OAK, WALNUT, CHERRY, BEECH, ASH, or BIRCH PLYWOOD, ensuring unmatched quality and style.

Every drawer is made to order, offering options for unfinished, lacquered, or stained finishes. Select from traditional or standard dovetails, swan-necked sides, and custom inner drawer handle cut-outs for a truly personalized touch.

Notched and pre-drilled to accommodate any brand of concealed runner.

Unleash your creativity - the possibilities are endless...

Why choose us

Our bespoke dovetail drawers are crafted to the highest standards using premium timbers, including OAK, WALNUT, CHERRY, BEECH, ASH, or BIRCH PLYWOOD. Every drawer is custom-made, ensuring there are no standard sizes and allowing you to tailor each piece to your exact requirements.

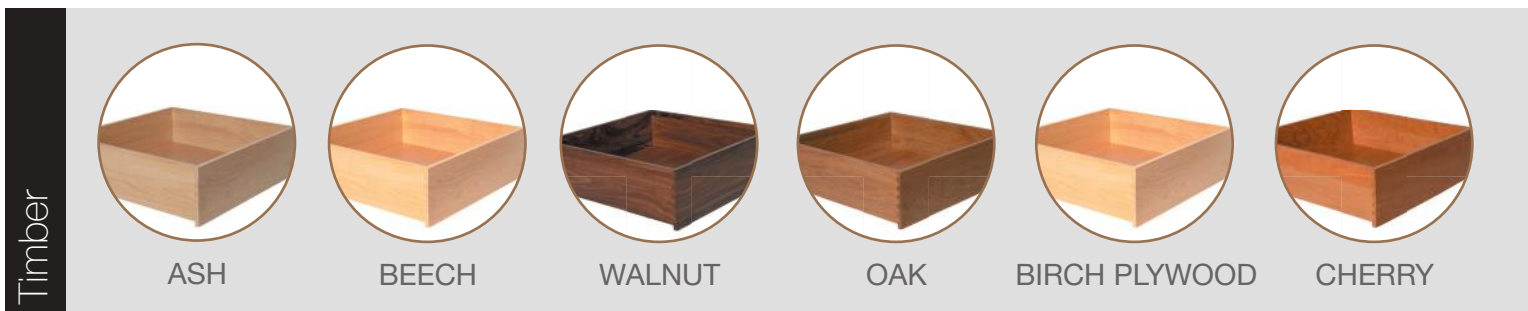

Whether lacquered, unfinished, or stained, each drawer showcases precision craftsmanship for a flawless finish.

Order with ease

Ordering your custom dovetail drawers is simple and hassle-free. Tailor every detail to your needs and receive your order in as little as ten working days.

Material thickness

Choose from

12mm

13mm

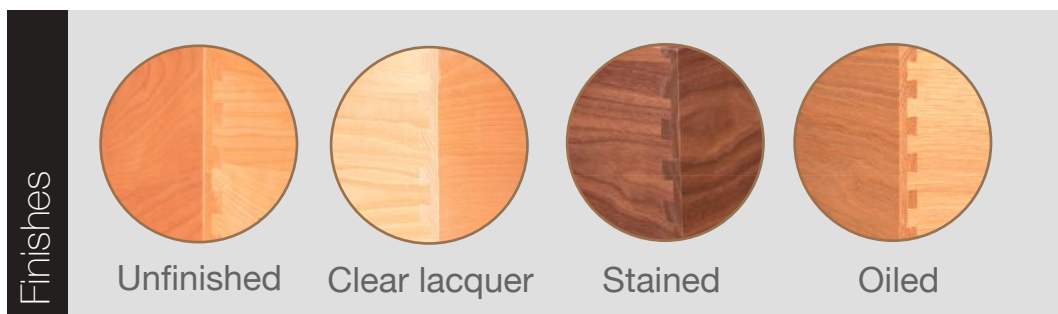

15mm

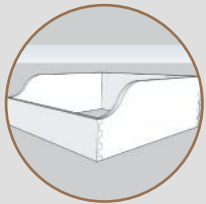

All our drawers come with:

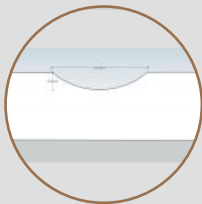

- Dovetail on all corners - traditional & standard joints
- 10mm thick base
- Flush top
- Fully assembled
- Made-to-measure
- 10 working day lead time

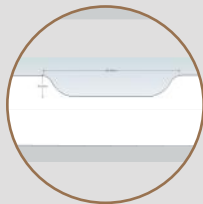

Specifications and options

Swan neck

Bow

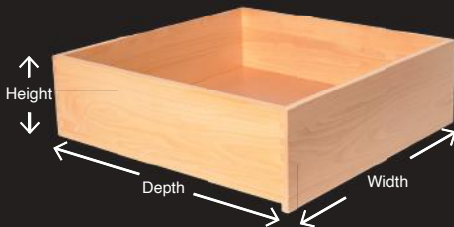

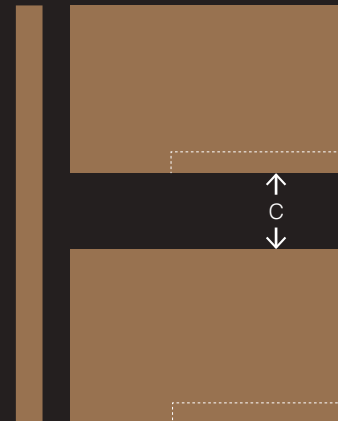

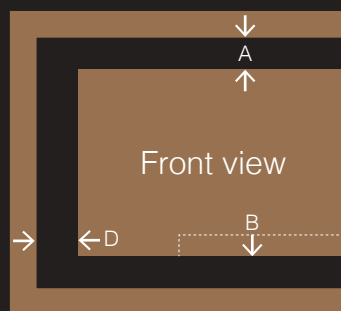

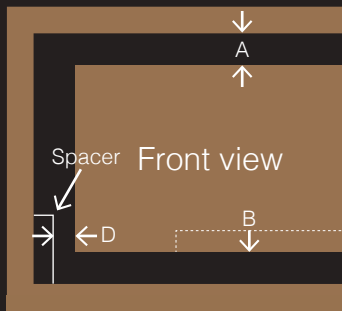

D Handle

Handle cut out

Other options available:

- Notched for Runners
- Shaped Sides
- Dropped Front

- A: Minimum space above drawer = 7mm
- B: Minimum space below drawer = 15mm
- C: Minimum space between drawers = 22mm
- D: Spacing between carcass and drawer sides = 8mm each side 13mm/6mm each side for 15mm

Drawer Depth: Runner length - 10mm if using the drawer as an internal drawer (no separate drawer front) If not, drawer depth = runner length + 3mm for 13mm or 5mm for 15mm drawer front

Please note: Spacers may be required when fitting runners in an In-Frame application.

Order with ease

Ordering your custom dovetail drawers is simple and hassle-free. Tailor every detail to your needs and receive your order in as little as ten working days.

How to measure actual width of your Dovetail Drawer Box

To determine the finished outside width of a dovetail drawer box, measure the internal cabinet opening width and deduct the allowance required for side thickness and runner clearance, as follows:

12 mm drawer sides:

Drawer box width = internal cabinet width – 18 mm

13 mm drawer sides:

Drawer box width = internal cabinet width – 16 mm

15 mm drawer sides:

Drawer box width = internal cabinet width – 12 mm

Note:

Deductions account for combined drawer side thickness and required running clearance. Confirm runner specifications before final sizing.

Drawer depth calculation for Blum MOVENTO runners

Drawer depth = Runner length – 10 mm

If drop front required, add drawer front thickness to drawer length.

If front notched is not required, add drawer front thickness to drawer length.

Cutlery, utensil inserts & spice racks —
all bespoke sizes available to compliment your project
