PINBOARD LINOLEUM

Pinboard linoleum, or BULLETIN BOARD, offers a practical, simple solution to collect and exchange thoughts and ideas whenever people plan, create and meet. Simply share your thoughts by pinning your idea onto the wall.

BULLETIN BOARD is an all natural material that can be applied in framed pin boards or directly onto the wall. Its surface is tactile and colourful, creating a decorative element in your space, in addition to being a practical aid in your day to day activity.

THE **ALL NATURAL** SOLUTION
TO HOLD YOUR THOUGHTS

NATURAL & DURABLE

BULLETIN BOARD is produced from natural and renewable raw materials.

A combination of oxidised linseed oil, rosin and finely ground cork gives the product its flexibility and resilience. This combination results in a product with exceptional durability.

Its strength and resilience make BULLETIN BOARD the ideal material for pin boards, notice boards and all other surfaces where ideas and information are exchanged. The board material retains its grip and doesn't crumble like traditional soft boards as the pinholes close after extraction of the pins due to the flexibility that characterises the material.

PRACTICAL & HYGIENIC

BULLETIN BOARD does not attract dust and has bacteriostatic properties.

This makes the product a practical solution in classrooms, for the ever changing exhibitions of children's drawings. But also a hygienic solution in healthcare environments where 'get well' messages can be pinned behind the bed.

COLOURFUL INTERIORS

BULLETIN BOARD is available in an exciting and intense range of 15 colours, that gives character and atmosphere to its environment.

The colours in the bulletin board collection have been harmonised with Forbo's offer in Marmoleum floor coverings which in turn also makes the them suitable for combinations with other materials such as wood, stone, aluminium or plaster, creating decorative as well as functional wall surfaces.
