COMPLETE BESPOKE SOLUTIONS

Welcome to bespoke solutions, where elegance meets eco-consciousness. We're proud to introduce our new range of laser-engraved reed straws, combining personalized sophistication with a green approach.

Each sip you take from these unique, 100% plant-based straws enriches not only your drinking experience but also your contribution to the environment. By choosing our reed straws over single-use plastics, you're turning every beverage into a statement of sustainability. Enjoy these straws at our location, then take them home as a memento of your stay — a stylish reminder of your commitment to a greener world.

Our custom solutions experts will work with you to design and quote to your specifications. Whether you would like to highlight a specific event, company or brand we have you covered with numerous customizations and options.

"The Straw that saved the Camel's back."

WHAT OUR CLIENTS ARE SAYING

WOW!

"These straws are great. As an Event Planner always planning weddings and parties these straws are amazing. Guests tend to complain about the paper straws that they get mushy and don't last— this solves that problem and great for the environment!"

FUTURE OF STRAWS!

"We tested these out several times and left them in liquid for hours. They never got soggy like paper straws do and they are also flexible. Owning a bartending company, we go through a lot of straws at each event. The Holy City Straws are a guilt-free way to use straws without hurting the environment. They are a great company to work with and I have already recommended them to several friends. Thanks again :)"

AWSTRAWK

"These are exactly what I've been looking for for my mobile cocktail company. It's easier to keep track of plastic straws in a brick and mortar setting and dispose appropriately; if there's such a thing... but when you're in a field in Maine, and a straw made of straw ends up in the field, it's just going home after a long vacay and heroic job. I dig em!"

WHEAT STRAW!

"I tested the straws in both a hot and cold beverage, and I can honestly say the straw never got soggy in neither drink. If you're looking for a straw to use for your margarita or coffee this straw works great!"

FORGET PAPER STRAWS!

"I must say I'm pretty impressed by these straws. I like the fact I don't have to switch straws to finish my drink nor do I get bits of paper in my drink! HolyCity Wheat straws are great!"

GREAT STRAW AND FAST SHIPPING! GREAT EXPERIENCE!

"These straws are not only an ideal alternative to plastic straws, but should become the new normal. As a natural straw, they are the perfect traditional size and never get soggy. Great straw!"

Thanks for your consideration.
We look forward to the possibility of working together!
Cheers!
