Worldwide Project	52

The background of the image is a top-down view of a desk. It features several sheets of paper with hand-drawn sketches. The most prominent sketch is a large, curved arrangement of furniture, possibly a sofa or a row of chairs, rendered in light brown and tan watercolor washes with black outlines. To the right of this main sketch, there are several smaller, rectangular sketches, also in watercolor, which appear to be components of a home cinema system, such as speakers or a subwoofer. A black pen with a silver tip lies horizontally across the top right of the sketches. The overall lighting is soft and even, highlighting the textures of the paper and the fluidity of the watercolor drawings.

What we do?

We plan and create TURNKEY Home Cinema.
This means that all elements needed inside a home
cinema can be supplied by us.
Our strenght is the combination between design
and technology.
Exquisite Italian furniture side by side with top level
AV systems

What makes us different?

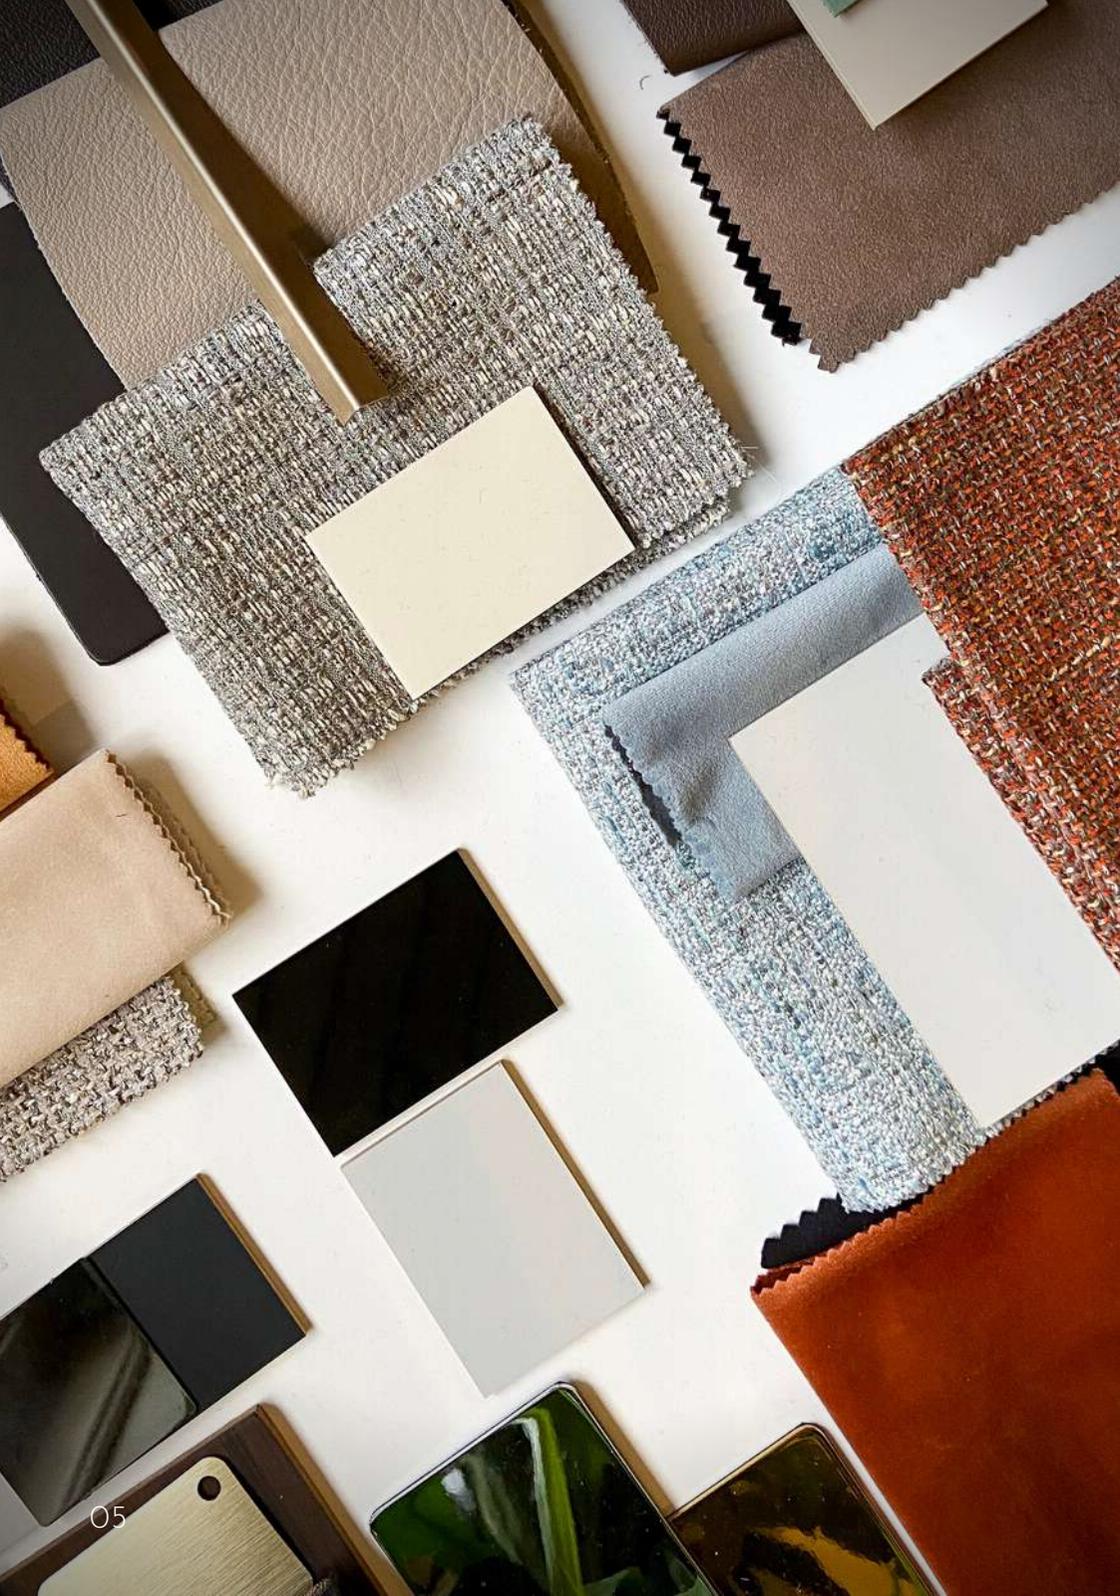

The strength of Vismara Design is its people.

You will find many producers of home cinema, but what really sets us apart is the human value.

The constant presence, the personalized assistance in every step of design and construction process and the desire to achieve increasingly exciting results.

For the past 70 years, Vismara Design has been a cornerstone for customers from all over the world, thanks to a special attention and a deeply rooted expertise.

The Customization

Nowadays nothing is more important than give a wide range of choice.

Any taste is unique and special, our aim is to reflect this uniqueness inside the home cinema.

A big importance for us is the possibility to tailor made home cinema on the basis of space and clients request.

Playing with different configuration, materials and colours give us the joy to create unique custom spaces.

VISMARA SERVICE

CONCEPT

We work with you to design your dreamy Home theater that is perfectly attuned to your tastes and inspirations.

ALULA

Modular Outdoor Sofa

The beginning of Outdoor Home Cinema

SEATING

Alula | Modular Sofar

Alula was born from the need to create the perfect environment to enjoy one's free time in the open air. Alula takes its inspiration from the enchanting Saudi city, it is an inviting and comfortable seat that allows you to translate the Home Cinema experience into an Outdoor setting. Its beauty is enhanced by a refined selection of outdoor covering, from fabrics to leathers. A decorative *gros grain* on the arms gives a French touch to the sofa.

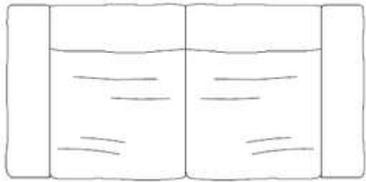

Being a sectional sofa, Alula can be configured in any layout, creating the best Outdoor Home Cinema composition.

ACOUSTIC Treatment

Vismara home theater acoustic treatment combines exclusive aesthetic with a performing acoustic functionality.

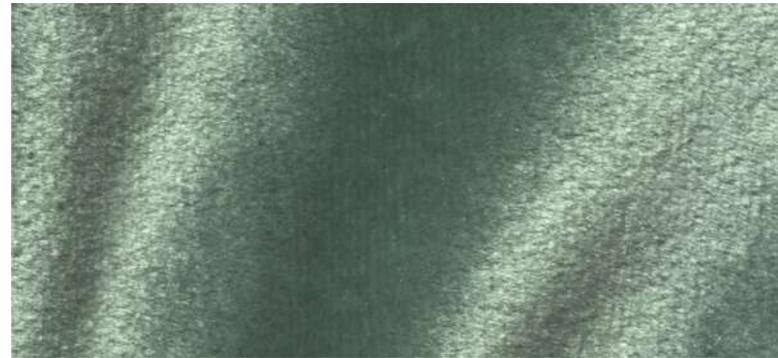

Our acoustic boiserie are studied to limit reverberation and reflections of sound.

The objective is to enhance the properties of sound so wall panels will have to be broadband absorptive with a good amount of diffusion to create an ultra-powerful surround sound

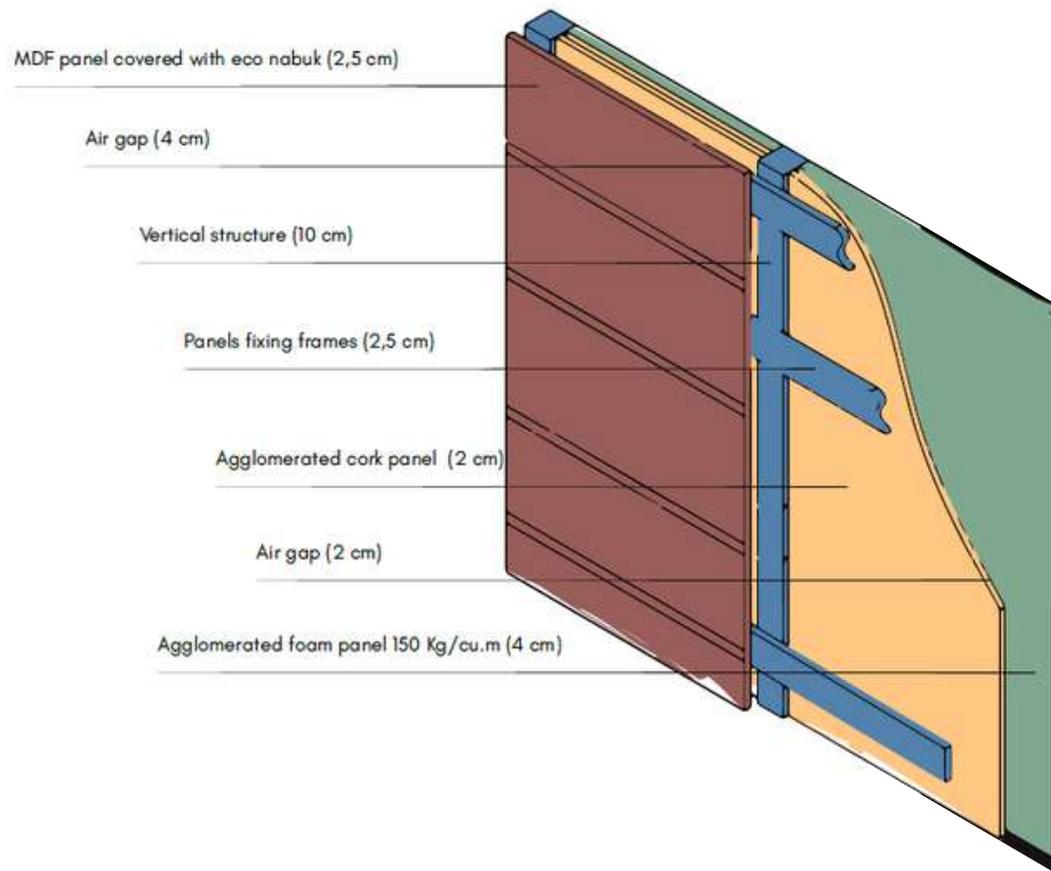

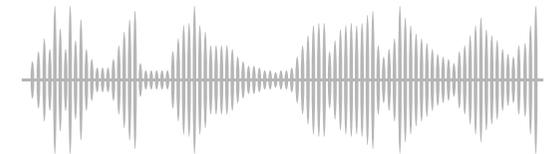

Customize your Home theater with a wide range of materials, including luxury fitted carpets, european leather and acoustic-enhancing 3D fabrics in a vast palette of colours.

SOUND Insulation

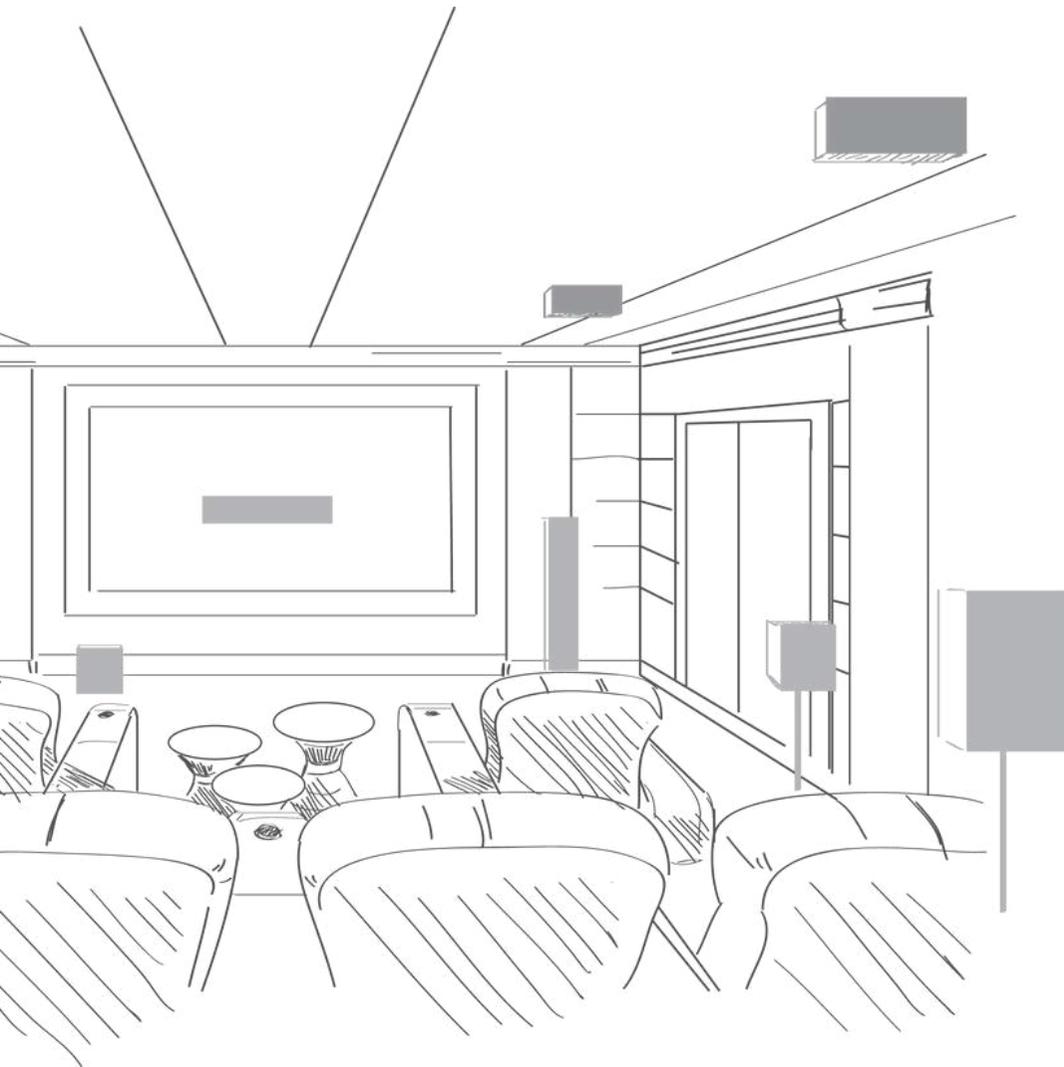

Vismara can take care of the sound insulation of the room which is typically used to keep sound from escaping a room. In case of need, the sound absorption material will be hidden behind acoustic panels to insulate the room.

Sound insulation clips for the walls to block the low frequency noise.

By considering that inside a Home theater there is an average of 75/80 dB, by adding our sound insulation system from outside you will feel only 35 dB.

AV SYSTEM

Every Vismara Home theater is equipped with pioneering audio/visual and automation equipment to transport you to the limits of your imagination.

The systems are studied according to the room size, budget, and performance you are strive to achive.

You can feel the sound with the best Dolby Atmos Sound speakers (integrated in panels or on-sight).

not just a product but a
UNIQUE EXPERIENCE

AUTOMATION

The control of the entire room can be easily done with a tablet or a universal remote control thanks to our high-performing automation system.

The home theater can be also controlled by any kind of automation clients already have at home. Remote diagnostics alert us if performance ever falls below optimum, so any issues can be quickly rectified.

Add a bit of magic to your
BESPOKE HOME CINEMA

Vismara borns as furniture manufacturer, therefore every extra element you want to create inside the room can be additional customization.

Built-in bar units, cabinet with pop-corn machine, karaoke funiture, tables, candy dispenser. Anything you can imagine can be studied and realized by Vismara.

A modern, dimly lit media room. The room features a large wall-mounted screen in the background displaying a couple. The room is furnished with several modular sofas in a textured, grey fabric, arranged around a dark wood coffee table. The coffee table holds a bottle of whiskey and some snacks. The walls are dark with vertical light strips, and there are potted plants and a floor lamp in the room.

The Last Trend

MEDIA ROOM

A Media Room combines the benefits of a private home cinema with those of a multipurpose room.

You can enjoy a private projection or a Karaoke Party in a very familiar mood, seating on couches and having your preferred drink on your cocktail table at the same time.

The furniture of a private Media Room can be combined to the style of the rest of the house.
