CPD
CERTIFIED
The CPD Certification Service

What can you expect?

SuDS, Rain Gardens and Planters

The 360° session covers Sustainable Drainage Systems with a focus on Rain Gardens and SuDS Planters, including horticultural and maintenance advice.

Urban Greening

See how green infrastructure boosts biodiversity, cleans air, cools cities, and improves public spaces.

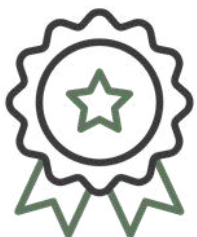

Online training

Usually hosted online on Google Meet or Teams. Depending on availability, sessions can be provided at offices for London based organisations.

Session duration

Our CPD sessions typically take place during lunchtime and last one hour. We ensure that there is time for a Q+A session at the end.

CPD Certification

You will be sent an official CPD accredited certificate once the training is complete.

What we cover:

We deliver advice on Sustainable Drainage and the following products:

- SuDS Planters
- Rain Gardens
- Custom Planters
- Street Furniture
- Mobility Hubs
- Parklets
- Nature Gardens
- Pocket Parks
- Green Screens
- Living Walls

In addition to product guidance, we discuss a range of themes central to sustainable development, such as:

Case Studies and examples

Repurposing parking spaces

Water attenuation calculation

Innovative rainwater harvesting

Town centre regeneration

Community design & planting

Our CPDs are aimed at:

Architects, developers, local authorities and **BIDs** who are looking to enhance their understanding of landscape-led design.

We can provide expert advice on:

- Designing and improving the public realm
- Landscaping techniques and best practices
- Maintaining healthy and sustainable green spaces
- Creating tailored green infrastructure
- Horticulture and selecting suitable plants

From new developments to public realm improvements and sustainability goals, our CPDs offer practical insight into integrating SuDS and urban greening into the built environment.

How we tailor our sessions:

Whether you want to focus on technical design, biodiversity, or greening strategies, we'll adapt the session to make it as useful as possible for you and your team.

Let us know what you'd like to explore in more detail, and we'll shape the content around your goals so you leave with the knowledge and skills to deliver effective green infrastructure.

Every project and team is different, which is why our CPD sessions are flexible and tailored to your needs.
