## HOW TO MEASURE UP

### A. BUST

Measure around the fullest part of the bust, keeping the tape level and straight. Keep one finger between the tape and the body.

### B. HIPS

Measurement over the fullest part of your bottom / thighs.

Don't guess your size, ask a friend to measure you with a tape measure to help you order the right size. Compare your measurements with the chart above.

### \* PLEASE NOTE

Compare your measurements with the chart above.  
If your size falls between two sizes, we recommend that you choose the larger size.

To make it easier for everyone to find the best styles that flatter their body type, we have classified our styles into the following **'FIT' categories:**

#### FITTED

These garments are designed to closely follow the contours of the body, providing a more snug and form-fitting silhouette enhancing the figure.

#### REGULAR FIT

Regular fit garments are shaped to lightly sit on your body, giving it some form without being too tight. Regular fit is the most traditional fit & suits a wide range of body types.

#### RELAXED FIT

Relaxed fit is a looser and more comfortable cut, allowing for more freedom of movement.
