## IN DATA AND TECH

# REALITY CHECK

### Let's talk about women in data and tech...

The Women in Tech Network safely estimates that at the current pace of change, it will take **132 years** until the position of women in tech economic gender gap is closed.

[womentech.net/en-nl/women-technology-statistics](http://womentech.net/en-nl/women-technology-statistics)

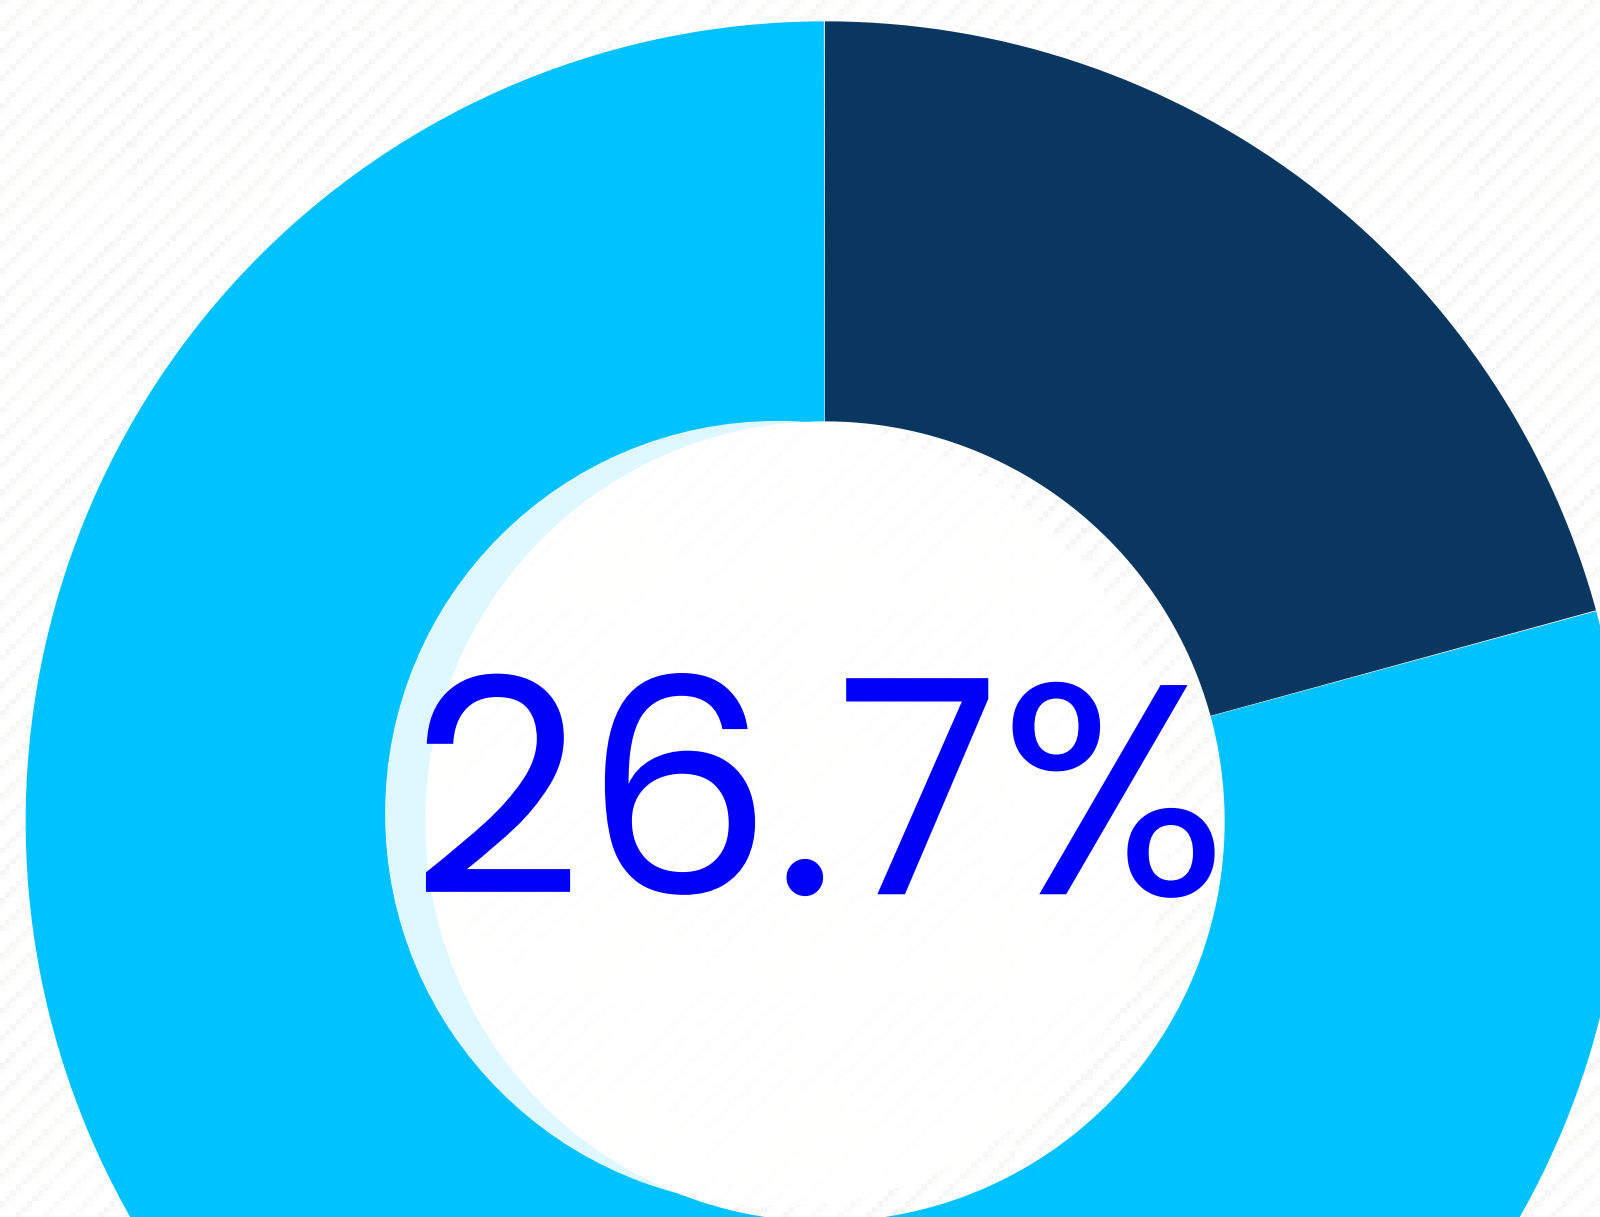

Still not convinced *that we can and should be doing more?*

1 in 10

Only 1 in 10 C-suite rolls at Fortune 500 companies are women.

Women hold 26.7% of entry-level technology jobs (lower rate for CTOs or heads of engineering).

Women in software engineering make 0.87 cents for every euro that men make.
