Introduction

Hello! I am a metaverse fashion designer, and I specialize in creating clothing and accessories for virtual worlds and online gaming platforms, mainly in Zepeto. My passion for fashion and technology led me to pursue this exciting field, where I can explore new creative possibilities and push the boundaries of traditional design.

Tools & Softwares I Use

I have a strong understanding of the virtual world and the limitations of designing for digital environments. I am skilled in using various digital tools and software, such as 3D modeling and texturing software, to bring my designs to life. I am also knowledgeable in the latest trends and styles in both the real and virtual fashion world, allowing me to create designs that are both functional and fashionable.

- Autodesk Maya
- Unity
- Marvelous Designer
- Adobe Substance Painter
- Adobe Photoshop

Style that speaks for itself.

I take great pride in my ability to create designs that not only look amazing but are also practical for avatars to wear. My creations doesn't stick with specific fashion genre. I like it when my shop has various style that people can choose from, I am always pushing the boundaries of what is possible in the metaverse.
