- Natural Essential Oils
- Safe for Pets

# Eco' Me®

## WHY ECO-ME?

In 2006 Eco-Me was born out of need and concern. The need to remove harmful chemicals from our homes and the concern that toxins from everyday products has led to the increase of disease.

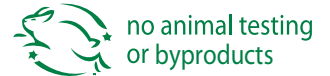

When the Founder's sister was diagnosed with breast cancer at age 35, she began researching environmental factors as a possible cause. As a result, Eco-Me products were created to focus on family health and wellness using only premium quality ingredients for safe and effective cleaning.

This attention to detail has earned the products top ratings by the Environmental Working Group (EWG.org) and has been rated #1 by the Whole Foods Market Eco-Scale.

Each product is carefully formulated without harmful chemicals or ingredients:

- NO SULFATES (irritants)
- NO PERFUMES or DYES (Phthalates)
- NO HARSH PRESERVATIVES (Allergens)

By using Eco-Me products in your home or business, you are getting the tough cleaning jobs done, safely and effectively, while helping to provide a healthier and more sustainable planet.

### Manufactured in the USA by Eco-Me in sunny Southern California.

- Local and US ingredient supply chain - full disclosure
