**GOING GREEN...
THINK BYGREEN!**

bygreen ®

WE ARE **BYGREEN**

LEADING THE WAY IN SUSTAINABLE SOLUTIONS

At Bygreen, we know that packaging and products can impact the environment.

That's why we're on a mission to offer innovative and sustainable solutions you can trust. Each product we sell is carefully chosen, and we work closely with our manufacturers to address issues

right at the source. We believe that even the smallest change from our distributors to each customer with every product sold can make a huge difference for our planet.

A Family Business with a Nationwide Reach

Bygreen is a small, family-owned business. We've grown to serve customers all across the country, always striving to provide top-quality products at competitive prices. Our passion for excellence and sustainability drives everything we do, and we're proud to be a part of your community.

Pioneers in the Market

We're proud to be first to market with many of our products. As Australia's leaders in paper straws, we offer the largest range of sizes and colours, so you're sure to find exactly what you need. Our extensive selection means you can always count on us to support your needs while promoting sustainable practices.

OUR MISSION

OUR MISSION IS TO DELIVER **GREEN SOLUTIONS** TO OUR CUSTOMERS. THROUGH INNOVATION AND EDUCATION, WE SUPPLY SUSTAINABLE, ECO-FRIENDLY PRODUCTS THAT INSPIRE **ONE SMALL CHANGE** FROM EACH CUSTOMER. TOGETHER, THESE CHANGES CREATE **ONE BIG DIFFERENCE** FOR OUR PLANET.

CIRCULAR ECONOMY

A SUSTAINABLE CHOICE

We are advocates of the circular economy, a revolutionary alternative to the linear economy.

Unlike the “Take, Make, Dispose” approach, we follow the three-fold mantra of “Make, Use, Recycle.” Our focus lies in creating products using sustainable materials with a useful lifespan and ensuring they are recyclable or compostable at the end of their use.

By embracing the circular economy, we significantly reduce waste, alleviate landfill burden, and contribute to mitigating greenhouse gas emissions while conserving valuable natural resources.

WASTE HIERARCHY

FOR A GREENER TOMORROW

At Bygreen, one of the core principles guiding our mission is the waste hierarchy – a fundamental approach that shapes our entire product life-cycle.

The waste hierarchy consists of six key steps: Avoid, Reduce, Reuse, Recycle, Recovery, and Disposal.

Through eco-friendly alternatives and renewable materials, we minimize our carbon footprint and conserve resources.

Our easily recyclable products contribute to a circular flow of resources, while responsible disposal is a last resort, adhering to environmental regulations.

Join us in building a greener, sustainable society with every choice leaving a positive impact on the environment.

OUR COMMITMENT TO A CIRCULAR ECONOMY

At Bygreen, we are dedicated to advancing a circular economy through a series of impactful initiatives that emphasize sustainability and waste reduction.

Through these initiatives, we not only champion sustainable practices within our operations but also set an example for others in the industry, showcasing the tangible benefits and feasibility of committing to a circular economy.

SUSTAINABLE PACKAGING

Over half of our products are packaged in paper and cardboard. This choice not only supports recycling efforts but also reduces the reliance on plastic, which is more harmful to the environment.

REUSABLE PRODUCTS

Almost 20% of our products are supplied in reusable formats. By promoting products that can be reused, we help to minimize waste and encourage our customers to adopt more sustainable habits.

FSC® CERTIFICATION

An impressive 58% of our products are FSC® certified. The Forest Stewardship Council (FSC®) certification ensures that our products come from responsibly managed forests that provide environmental, social, and economic benefits.

WASTE DIVERSION

On site, we are committed to furthering our circular economy vision by diverting 3.8 tonnes of waste from landfill. This effort significantly reduces the environmental impact of our operations and supports our overall waste reduction goals.

PALLET WRAP REDUCTION

We have managed to reduce our pallet wrap usage by 40%. This substantial reduction lowers our plastic consumption and associated waste, contributing to a more sustainable shipping process.

REFORESTATION EFFORTS

Through our donations to Brettacorp, we have helped rejuvenate 3,370sqm of forest, equivalent to 13,522 trees. These efforts help re-establish ecosystems for many creatures, such as the double-eyed fig parrot, the mahogany glider, and the spectacled flying-fox.

CUSTOM PRINTING

BRAND OUR PRODUCTS WITH YOUR LOGO

At Bygreen, our wide range of sustainable, eco-friendly products help make a big difference to our planet – one customer at a time. So why not use our custom design and printing services to put your own stamp on these products?

We can customise the following products to make your brand stand out:

- Straws
- Coasters
- Flag picks
- Reusable cups
- Cutlery

Let's get creative...

Some of Australia's best known brands use our design and printing services. Our talented graphic design team can create products that are as unique as you are.

HOW ARE YOU GOING TO STAND OUT?

The process is simple...

1. Send us your logo and a description of what you'd like.
2. We'll design your artwork free in house.
3. Our production team will get your products printed and delivered to you.

If you already have a graphic designer, we can send a template that they can use for your artwork. Whichever way you want to go, we'll make sure your brand is seen and heard!

PAPER STRAWS

WE ARE AUSTRALIA'S BIGGEST PAPER STRAW SUPPLIER

Switch to sustainable sipping with Bygreen

We're proud to offer the highest quality paper straws in the market, ensuring consistency and reliability. Our straws are crafted from premium, food-grade paper sourced from well-managed, FSC®-certified forests and other controlled sources.

Choose from our two options:

ECO-STRAW

3-ply economy straws for customers who want quality at competitive prices.

STRONG STRAWS

5-ply premium straws that last over **4 HOURS** in a drink.

Our straws are free from waxes, made with just 0.6% food-grade glue, making them a high-quality and eco-friendly choice for your sipping pleasure.

We have the largest range of paper straw styles and colours. You can be assured we have a straw for every occasion.

ECO-STRAW

3 PLY PAPER STRAWS THE ECO-FRIENDLY ALTERNATIVE

3-ply paper straws are a superior eco-friendly alternative to PLA and plastic straws.

The paper is sourced from FSC®-certified responsibly managed forests, utilising renewable resources. These straws are biodegradable and home compostable, reducing their impact on the environment.

Additionally, choosing paper straws helps mitigate plastic pollution while enjoying a sustainable and enjoyable way to sip your favourite beverages.

WOODEN CUTLERY

WOODEN YOU LIKE TO EAT WITH THESE?

Carefully crafted from responsibly sourced timbers and bamboo harvested from FSC®-certified forests, our One Tree cutlery collection is the highest quality cutlery on the market.

Our commitment to sustainability ensures that our utensils do not harm marine life or contribute to the ever-growing landfill problem.

As part of our dedication to the environment, our packaging is entirely made of paper with no plastic lining, guaranteeing its eco-friendliness.

Choose from our selection of plain wooden utensils or opt for our waxed wooden cutlery, which even includes gelato spoons. The light wax coating not only eliminates the timber taste but also enhances your dining experience.

Experience the benefits and superior quality of our eco-friendly cutlery today..

***ALL OF OUR WOODEN CUTLERY IS MADE OF MATERIAL FROM WELL-MANAGED FSC®-CERTIFIED FORESTS.**

GUARDIANS OF GREEN

At Bygreen, we prioritise our planet and its inhabitants through our Guardians of Green initiative.

We support individuals and organisations who share our vision, embracing ways to make a positive impact, from local initiatives to collaborations with like-minded partners.

We're proud of our achievements but recognize the ongoing need for progress. If you're striving for a sustainable and equitable future, let's unite and build a better tomorrow together.

Bygreen is dedicated to supporting SIP week and the Perry Cross Foundation in their quest to cure paralysis. We believe in the foundation's vision of funding research for better outcomes. As a straw importer, Bygreen sponsors and provides solutions for SIP week, supporting people with disabilities. Bygreen collaborates with the foundation, providing straws and funding, and remains committed to supporting this remarkable cause.

PERRY CROSS AND TEAM SIPPING AWAY

Bygreen is a proud sponsor of the Eidsvold Eagles RLFC in 2024, a club close to the heart of our founder, Mick Krause. After a five-year break, the community's renewed enthusiasm has revived the club. Bygreen supports this effort to bring back Rugby League as a community cornerstone. Let's soar with the Eidsvold Eagles!

YOUNG MICK IN HIS OLD FOOTY DAYS

PALM LEAF RANGE

SUSTAINABLE AND FOOD SAFE TABLEWARE

Palm leaf tableware is an ideal, eco-friendly alternative to plastic plates and bowls. Our products are compostable and biodegradable – so they return to the earth when you're done.

Made from fallen leaves of the Areca palm tree, our products undergo a safe and sustainable process:

1. High pressure cleaning
2. Pressing and heating
3. Checking and UV sterilisation

No waste is generated during production, as offcuts are re-purposed for smaller bowls, and scraps become compost for Areca trees.

Our 100% organic palm leaf plates, bowls, and platters are suitable for hot and cold liquids. They remain strong, don't get soggy, and don't affect the taste of your food.

Strong, semi flexible yet not brittle, odourless, water and heat resistant. This leaf sheath has its own natural grains, characteristic texture and colour. This product is beautiful the way nature intended and can be returned to the earth.

ALL PALM LEAF PRODUCTS:

- ARE MICROWAVEABLE UP TO 2 MIN ON HIGH
- ARE SAFE IN A CONVECTION OVEN AT 180° FOR UP TO 40 MIN
- ARE SAFE TO USE FOR HOT AND/OR COLD FOODS
- IF STORED IN VERY COLD OR WET AREAS, MAY RESULT IN LOSS OF PRODUCT QUALITY

PINE PRODUCT RANGE

ARE THESE WHAT YOU'RE PINING FOR?

Welcome to our pine collection. Where natural aesthetics meets functional catering essentials. Crafted sustainably for serving finger foods at any event.

Our disposable Pine Boats provide an elegant solution for presenting appetizers and small bites. These boat-shaped vessels feature a thin layer of pine, providing a charming backdrop for your culinary creations. Perfect for gallery openings, cocktail parties, or corporate events.

Our disposable Pine Cones and Pine Cups offer a creative alternative to plates, allowing guests to indulge in delicious finger foods with ease. Crafted with precision and attention to detail, our Pine Cones and Pine Cups are sure to delight your guests at your next event.

CATERING RANGE

HORS D'OEUVRES, CANAPÉS OR APPETISERS?

In today's world, maintaining proper hygiene and food handling practices at large events is crucial. Our collection of disposable toothpicks, cocktail forks, and bamboo tongs is here to help.

These essential tools are available in various sizes to suit any occasion, offering convenience while promoting hygiene. Disposable toothpicks prevent cross-contamination, cocktail forks provide a hygienic way to handle appetizers, and bamboo tongs offer a sustainable and versatile utensil option.

Incorporating these items into events ensures the health and safety of guests, creating worry-free experiences.

Made from FSC® certified responsibly sourced bamboo or birchwood from well managed forests.

*ALL OF OUR CATERING RANGE ARE FSC®-CERTIFIED 100% BAMBOO OR BIRCH WOOD FROM WELL-MANAGED FORESTS.

SKEWER RANGE

GET READY FOR YOUR NEXT BARBIE

BBQs have undergone a significant transformation over the years and have transcended the simple act of throwing another snag on the barbie.

Nowadays, they encompass a broader culinary experience, featuring a diverse array of ingredients such as meat, vegetables, and seafood. Ensuring an effortless and secure approach to cooking delectable food has become crucial.

That's where our bamboo skewers come into play. Crafted from responsibly sourced materials originating from well-managed FSC®-certified forests, these skewers are an ideal choice for effortlessly loading meat or vegetables onto your grill, enhancing your next BBQ experience.

FLAGS & MARKERS

A STAKE THROUGH YOUR STEAK

Our 100% biodegradable paddles are made from plantation birch timber and our skewers are made from plantation bamboo. This ensures both quality and environmental sustainability.

Enhance your food presentation with our versatile flag picks, and steak markers, adding flair to your dishes and delighting your guests.

Easily identify different steaks or cooking levels using our colour-coded paddles and steak marker flags, bringing efficiency and organisation to your kitchen.

For a personalised touch, consider our custom printed flags, allowing you to display your logo or brand message. Contact our office for more information on custom-printed flags and product details. Minimum order quantities may apply.

COCKTAIL PICKS & STIRRERS

DO YOU LIKE IT SHAKEN OR STIRRED?

Enjoying a cocktail shouldn't come at the cost of harming the environment. That's why our commitment lies in providing eco-friendly solutions for your cocktail experience.

Our cocktail picks and stirrers are crafted from FSC®-certified 100% Bamboo or Plantation Birch Timber sourced from responsibly managed forests.

Not only do they add a touch of natural elegance to your drinks, but these versatile picks can also double as food picks, serving multiple purposes with sustainability in mind.

COFFEE ACCESSORIES

KEEP DELIVERIES HOT AND ELIMINATE SPILLS

Our Stirrers allow you to mix your drink with ease while being light on the environment.

EcoStix Coffee Stoppers and Stirrers will protect your coffee from spills. Fantastic for deliveries and coffee runs. They are made from FSC® Certified Plantation Birch Timber from sustainable and well - managed forests.

The reusable carry around drinks carrier is a patented design and manufactured in the UK with great emphasis on quality and reliability. Strong and durable, with a feeling of sturdiness when in use, the carrier folds out to carry 3 or 4 cups with perfect balance.

REUSABLE CUPS & BOTTLES

JOIN THE REUSABLES REVOLUTION

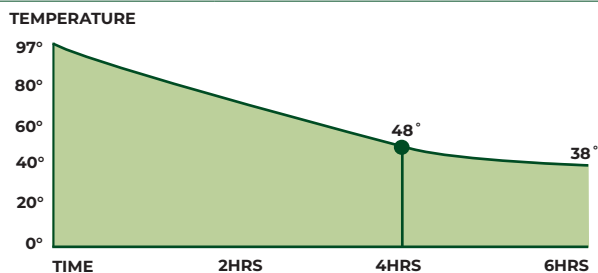

Plastic waste in the environment is becoming an increasing issue. Landfills are growing quickly, as is the amount of waste in our oceans. Recycling is not effective and is very limited in Australia. Reducing our waste by using reusables is one solution.

In Australia, over 1 billion disposable coffee cups are used annually, with the majority ending up in landfills. Similarly, only 30% of plastic water bottles are recycled, despite the production process consuming large amounts of oil and water.

BONZA CRAFT PRODUCTS

LET'S GET CRAFTY!

For years, our remarkable collection has been well loved by craft stores, teachers, schools, and educators alike. As we continuously assess our product offerings, we are expanding the Bonza range further to incorporate even more eco-friendly options.

We take pride in providing an extensive selection of eco-friendly products suitable for all age groups. Our materials are perfect for hobbyists, adult arts & crafts, and professional projects. Please note that some of these products are only suitable for ages 3+ as they contain small parts.

BRANDED PRODUCTS MADE EASY

ECO-FRIENDLY BRANDED PRODUCTS

Custom branding Bygreen's reusable coffee cups and bottles allows your customers to consistently advertise their business.

Our design team would love to work with you to introduce branded eco-friendly promotional products into your business as a product offering. We guide you through the entire process to ensure everything runs smoothly. You'll be surprised at how easy it is.

With a low minimum order quantity of just 48 units, it's low risk with a high reward. Our stock is held in Queensland, ensuring quick turnaround times, with printing often completed in less than a week.

Contact us today for more information or to get started. We have helped hundreds of customers to get their brand on our products and we would love to help you.

NEED HELP WITH YOUR MARKETING?

MARKETING MADE EASY

Boost your sales with our professionally designed marketing materials.

Promote our products with the help of our dedicated design team. We can provide informational flyers and can customize them by adding your logo and contact details, making them ready for you to print or share online.

We can also supply physical tri-fold flyers. With our eye-catching flyers, you can easily showcase the benefits and quality of Bygreen products. We can also help enhance your website presence by supplying digital assets.

Partner with us and let us help support your marketing efforts.

PACKAGING SYMBOLS

KNOW YOUR PACKAGING SYMBOLS!

You might have observed an increase in symbols displayed on product packaging and in this catalogue. Understanding their significance is crucial to make informed purchasing decisions and dispose of the packaging responsibly. Below, you'll find a list of frequently encountered symbols and their meanings, specifically for the products featured in this catalogue.

DISPOSAL

COMPOSTABLE

You can compost this packaging in either a home or industrial compost. It will degrade within 180 days in an industrial compost and within 365 days in a home compost.

RECYCLABLE

You can recycle this packaging in your home recycling bin. Clean off any food, grease, oil or other mess before placing it in the bin.

MATERIALS

RESPONSIBLY SOURCED PAPER & WOOD FSC® CERTIFIED

These products are made from materials sourced from FSC® Certified companies that use sustainable practices to help protect our forests.

FEATURES

CUSTOM BRANDING

This symbol indicates that our design team can customise the product to add your custom branding or create a unique solution just for you.

MICROWAVE & OVEN SAFE

This packaging can be used safely in a microwave or an oven. *Palm Leaf Products - within limitations - Microwaveable up to 2min on high. In a convection oven at 180° for up to 40 min.

HOT OR COLD USE

Packaging with this symbol is ideal for hot or cold food. At Bygreen, this packaging is strong, dependable and greaseproof.

FREEZER SAFE

You can use this packaging safely in the freezer. However, you should test the packaging first to ensure the type of food you're freezing doesn't affect the structural integrity of the packaging once it's thawed.

FREIGHT POLICY

PLEASE SEND ALL ORDERS IN WRITING TO sales@bygreen.com.au

FOR ANY ENQUIRIES OR MORE INFORMATION - PLEASE PHONE (07) 3888 0566

Orders placed before 12 noon will be picked and dispatched within 48 hours. Once your order is received, we will enter the order and email you a confirmation. Please check the confirmation and reply by email or phone ASAP if any order changes are to be made. If we have not had any reply - we will assume the order is correct and we will proceed to pick & send.
