- Real-time device fault check with store dashboard monitoring

What Sets the JetCafe Above the Rest?

01

Flexible Installation

Meet People Where They Are

Compact design allows for installation in a wider variety of locations. Place the JetCafe in even the most crowded areas to attract busy customers and increase sales.

02

Sustainability

Help Take Care of the Environment

With the JetCafe, customers can wash their reusable cups with the accompanying tumbler washer, and then order a drink using the same cup.

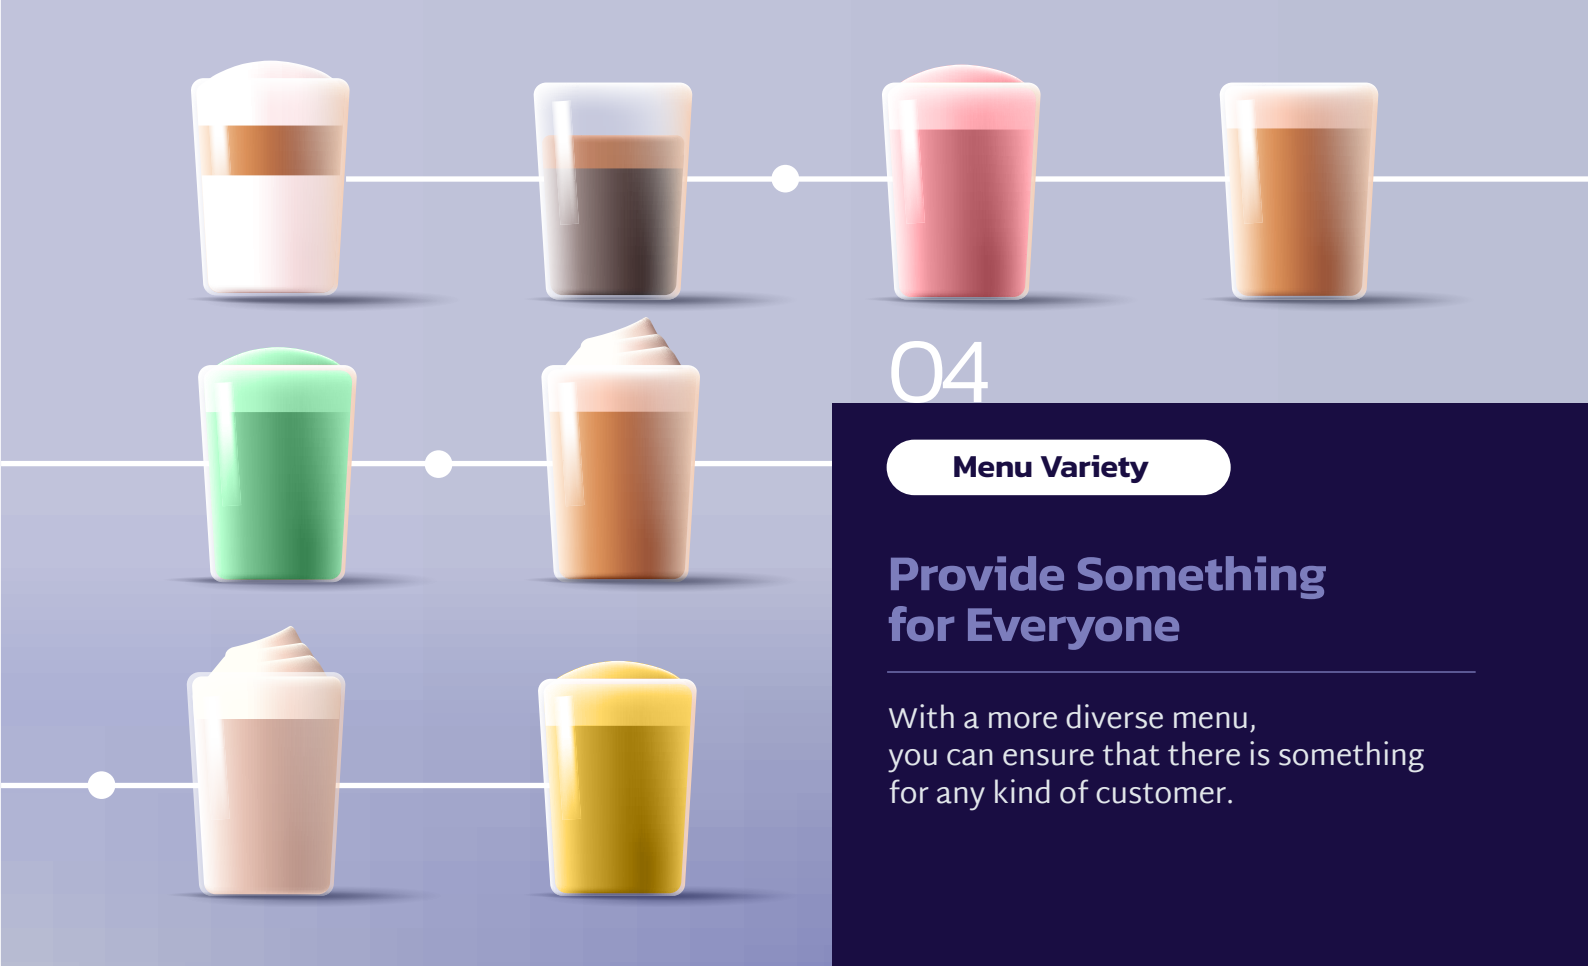

03

Smart Management

Inventory Check Is a Thing of the Past

The JetCafe automatically monitors the inventory levels of all products and ingredients. When levels are low, it will alert you for a refill.

04

Menu Variety

Provide Something for Everyone

With a more diverse menu, you can ensure that there is something for any kind of customer.
