Four door locker
1810 H x 385 W x 500 D mm
Sloping top adds 148mm to height

- Optional sloping top
- Doors = Blue Pantone 2736 or Grey Pantone 428
- Grey body = Pantone 428
- Optional adjustable shelf level available
- Optional number plate
- Choice of locks

Here's why our polyethylene lockers are the perfect fit for schools, leisure centres, and public areas:

Robust and Rust-Proof: Our polyethylene lockers are not only robust but also rust-proof, ensuring longevity even in wet area changing rooms and outdoor covered storage settings.

Vandal Resistant: With heightened vandal resistance, our lockers offer peace of mind in areas where security is paramount.

Versatile Usage: Plastic lockers can either be used outside under canopies or walkways or in damp and humid environments.

Pre-Assembled Convenience: No hassle with on-site assembly! Our lockers come fully pre-assembled, ready for use!

Efficient Design: The profiled top and recessed base of each quarto locker enable easy stacking.

No More Obstructions: Thanks to doors with a maximum opening angle of 90 degrees, adjacent lockers remain unobstructed, ensuring seamless access for users.

Upgrade your locker experience today with our durable polyethylene lockers – the ultimate solution for demanding environments!

Accessories

Retro fit sloping top

The slope prevents items and litter being left on locker tops and makes cleaning easier.

Top increases locker height by 148mm.

Locker base

Helps lift the bottom of the locker up off the ground by 100mm. Especially helpful in damp environments.

Adjustable shelf

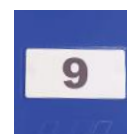

Additional plastic adjustable shelf. Fits full height lockers to sub-divide the compartment.

Number plates

Three type available at extra cost.

- Stainless steel
- Engraved plastic
- Vinyl paper

Lock options - Locks are splash proof but not weatherproof.

Cam lock

This simple and economical cam lock provides user access with a small, easily replaced key.

Padlock fitting

Transfers responsibility for locking to the user. The user is required to secure the locker with a padlock (not supplied).

Coin return

A convenient and popular lock system for shared-use lockers, this lock releases the key when a coin is inserted into a secure capture mechanism. On completion the coin is returned to user.
