# July is Parks and Recreation Month!

NRPA'S PARK AND RECREATION MONTH

In July 2026, Park and Recreation Month highlights “The Power Of” parks and recreation and the people who make it all possible. Parks and recreation brings us together, strengthens our health and well-being, and builds more resilient, connected communities.

Throughout the month, we’re celebrating the many ways parks and recreation reveals the power of what connects us:

- **The Power of Connection:** Parks and recreation is where relationships grow, cultures meet and communities bond.
- **The Power of Play:** From playgrounds to programs to youth sports, play fuels creativity, joy and lifelong learning.
- **The Power of Community:** Public spaces offer room for everyone to gather, celebrate and heal.
- **The Power of Nature:** Nature restores and inspires us, and parks ensure everyone can access its benefits.
- **The Power of Belonging:** Welcoming parks and programs make every person feel valued.
- **The Power of Well-Being:** Parks and recreation advances health, resilience and shared community benefits.

July is Parks and Recreation Month, a nationwide celebration that recognizes the vital role parks and recreation play in building strong, healthy, and connected communities. In Kyle, we are proud to join agencies across the country in honoring the spaces, programs, and people who make our community thrive.

*Parks and recreation is more than playgrounds and programs – it is where community happens.*

Throughout the month of July, Kyle Parks and Recreation will offer a variety of engaging programs, special events, and activities for all ages and abilities. From youth camps and athletic programs to community celebrations and wellness opportunities, there is something for everyone to enjoy.

We will also be shining a spotlight on the dedicated staff members who make it all possible. Their commitment, creativity, and passion are what transform our parks into welcoming spaces and our programs into meaningful experiences.

**City Park Reservations:** The Kyle Parks and Recreation Department handles the reservation and rental of many public parks and buildings. These rentals include private rentals of various City of Kyle facilities including pavilions, baseball, softball, and multipurpose fields, and buildings.

**Park Food Permits:** The Parks and Recreation Department is offering food vendors the opportunity to register to distribute food at designated park locations. Vendors may obtain a Food Distribution Permit for \$250 per month, per location. This permit allows approved vendors to operate during approved days and times within City parks. All vendors must meet City requirements, health regulations, and Parks and Recreation guidelines prior to approval.
