**CONVOCATION**

**Transformations** are essentially a tough process to go through. It requires disruptions and sometimes a rough reality check. The end result however, is one of triumph and joy.

This year, we have witnessed global transformations as countries struggle to recover post-pandemic while nations have realigned themselves to ensure safety and survival of their economy and supply chains. The most drastic transformation is perhaps climate change which we have experienced its destructive repercussions.

The workplace environment too has its own set of transformations with more workers demanding work-life balance, a positive environment and flexible schedules.

It's amazing to be living and witnessing all these and soon you will be the recipient or even the driver of even more positive changes.

As you complete this phase in your journey, Universiti Tun Abdul Razak (UNIRAZAK) is proud to have been able to equip you with skills and knowledge that will impact multi-generational lives. Use the education you have received and take action to transform the country into a highly developed nation. Do this, without forsaking the HEROES values you have embedded in yourselves. These values will take you far, help you adapt and face future challenges.

Most of all, make full use of the education you received at UNIRAZAK which was designed to prepare you to become individuals who create value for the communities you will belong to, be it the workplace, interests and families. Use it well and build on it through continuous and lifelong learning.

The 21<sup>st</sup> UNIRAZAK Convocation Ceremony is perhaps the most memorable for us as we enter the 25<sup>th</sup> year of existence on 18 December 2022. It is even more memorable now that we have returned to physical convocations while embracing digital conveniences as much as we can.

It is the university's fervent hope that we all constantly embrace transformations and become better people; that we are idealistic yet realistic to be flexible enough to manoeuvre life's challenges with ease.

Razakians, your convocation today is a celebration of one of many transformations and the beginning of a new life and future milestones.

Class of 2020, 2021 and 2022 Graduands, **CONGRATULATIONS!**  
You made it!

## THE UNIVERSITY MACE

Historically, the mace is a symbol of authority dating from medieval times when knights carried them during processions with their kings. As the tradition grew, the mace became a ceremonial symbol of peaceful leadership, and maces were embellished with jewels and metals. Today, a university's mace is carried before the president or chancellor and platform-party dignitaries during commencements, inaugurations and other academic ceremonial processions.

**THE TORCH** engraved on the top end of the mace, adapted from the logo of UNIRAZAK, symbolises the ultimate role of the University as a beacon of light that spreads knowledge throughout the national, regional and global communities. The five facets of the mace symbolise the five pillars of the 'Rukun Negara' or National Commandments which are constantly upheld under any circumstances.

The name of the University is engraved around the base of the torch in Roman script, signifying the unity of the whole university community.

**THE CHALICE** portrays the main function of the university in pursuing knowledge. The name of the university engraved in Jawi script represents determination and faith which are the basic and fundamental thrusts of university education.

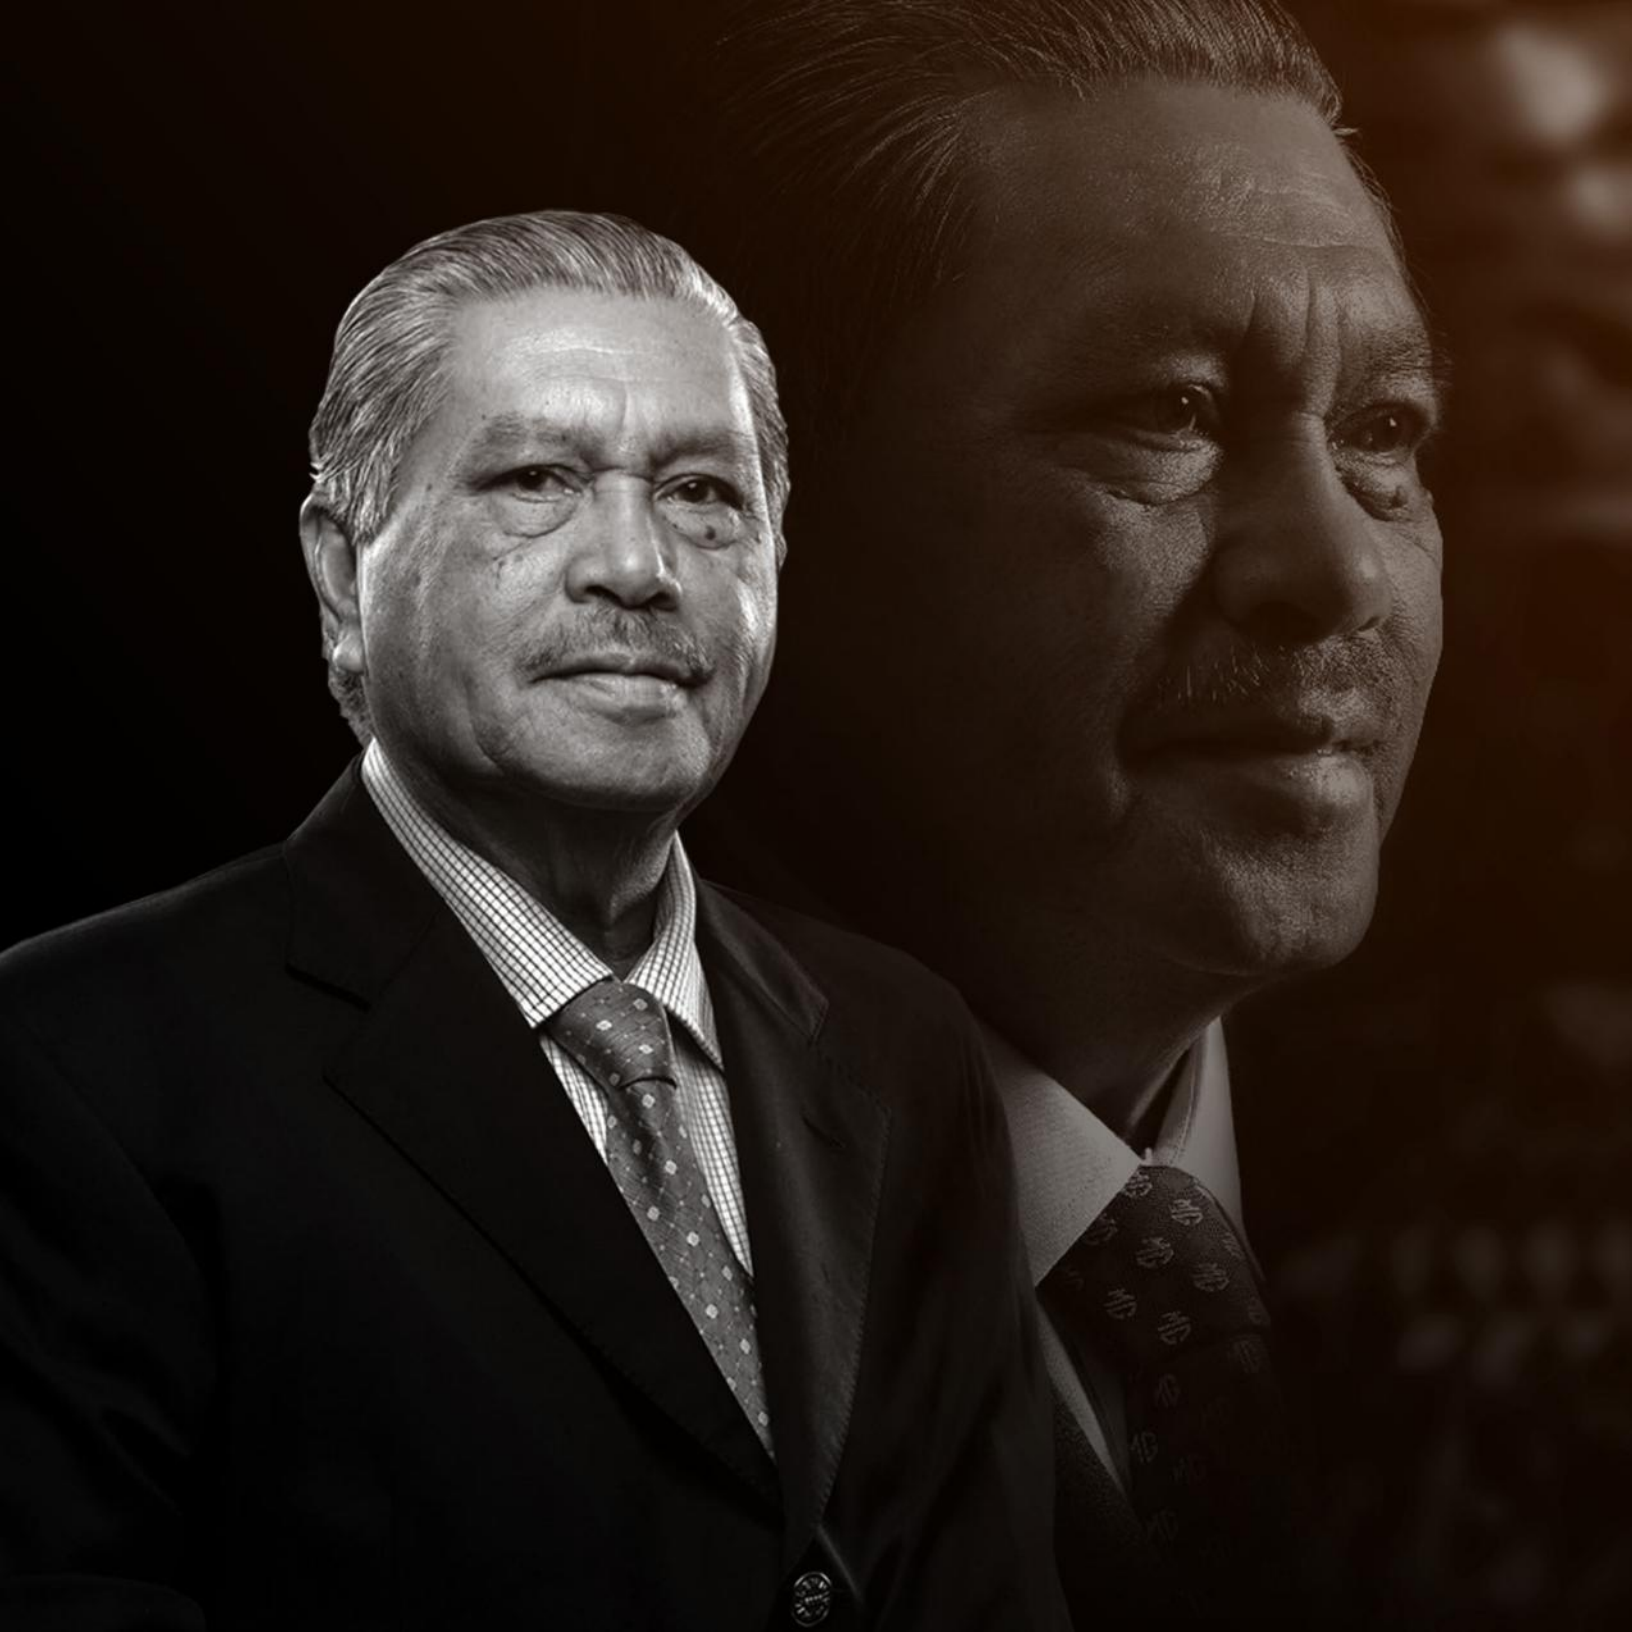

The motifs of gold thread 'songket' at the lower part of the chalice express the university's aspiration to continue its knowledge dissemination while upholding Malaysian traditional values.

**THE LOGO** of the university which is surrounded by carvings of Malaysia's official national flower, the Hibiscus, signifies the philosophy of the University and the dynamism of the various academic programmes offered.

**THE SHAFT** symbolizes the readiness to contribute knowledge and expertise for the advancement and development of the people and the nation.

The Qur'anic verses from the Surah Al- Mujadalah (58:11) and Az-Zumar (39:9) contain the call for courage in seeking knowledge and upholding the truth, which reminds us of our unending responsibility to nurture, protect and celebrate academic achievement among students, faculty and staff. The 'Pending' or Malay belt buckle depicts energy, power and ability in producing dynamic scholars who are pragmatic, creative and innovative to contribute towards the advancement of Malaysian society and the country.

# AWARD OF POSTHUMOUS HONORARY DOCTORATE

ALLAHYARHAM  
TUN AHMAD SARJI ABDUL HAMID

HONORARY DOCTOR OF  
PHILOSOPHY IN MANAGEMENT

“

I hope to see a prosperous and developed Malaysia where its people are religious, morally upright, skillful, compassionate, corruption-free and intensely patriotic.

”

Even in his absence, the aura Allahyarham Tun Ahmad Sarji Abdul Hamid leaves behind in terms of his work and his persona still overwhelms you with immense respect. A man who was passionate about reading, education, work, sports, nation building and his family. He exudes a calm but commanding presence; demonstrating in his every conversation, his stature as a highly educated and knowledgeable man.

### **Humble Beginnings**

Born on 16 September 1938 at Kampung Batu Tiga, Tapah, Perak, Allahyarham was the eldest of 8 siblings. He came from a modest background; his father encouraged him to study hard and speak English while his mother taught him religion and family values.

Growing up close to Tapah town, his home was the typical

kampung home. His father built their wooden home in 1945, surrounded by fruit trees. There were no electricity or water until 14 years later. Water was filled in pails from the school nearby and carried home for his family to use. Kerosene lamps lighted the night and water from the river behind his home provided baths. Floods during rainy seasons reached as high as seven feet, which was how high his home was raised.

It was common for those living in the era when independence was being negotiated, to be encouraged to study hard so they may hold positions in the civil service in order to serve the country later.

Beside studying hard, the late Tun was also exposed to sports at a young age. He played football and cricket in the large field near his father's district office. His father himself was the state's hockey star.

### **A Man of Gracious and Good Character**

The late Tun's zeal to serve the country, his parents' guidance in building good character, his humble beginnings in the small town of Tapah and his determination to continue his education to the highest level, has made him into a man of high character, a gracious soul and a well-spoken individual.

His love of reading is evident when one visits his home office. It's like walking into a corner of an ivy league university's library with books from wall to wall. He was also a well accomplished writer and a sportsman who later brought glory to lawn bowling as the President of the Malaysian Lawn Bowls Federation.

A Harvard graduate with a Masters in Public Administration, he has long been revered for his soft-spoken demeanour, strong ethics, concern for his team members,

interest in developing the young, forward vision, creativity, inspiring leadership and most of all, his resilience to see through every task or project.

His desire to see the country and the nation develop, to direct sights towards activities that deliver nation building goals, and his determination to ensure success in what he does; shines in every speech he gives and every meeting he chairs.

### **An Inspiring Leader**

The late Tun retired as the Chief Secretary to the Government of Malaysia, the top most position in civil service, having led and demonstrated excellent governance structure. His leadership was so successful that he was sought after by many organisations upon retirement.

He led Permodalan Nasional Berhad through another wave

of success with new product launches, syariah-compliant processes, and ensuring high standards of corporate governance in order to maintain public trust.

He earned many leadership roles be it in a non-profit organisation or a corporation, received numerous awards and was conferred various honorary degrees from many universities.

His visions for UNIRAZAK led the university into the new digital era, helping the university turn the pandemic fate around with an increasing enrolment rate. In fact, the university has continued its trajectory with its highest enrolment rate for 2022, thanks to his forward-thinking leadership.

The late Tun Ahmad Sarji's contributions to the nation, to the business community and to the university; his life and his achievements; demands an

entire series of books.

Through this summary of his lifetime, the university hopes that it can inspire the youth of today, in particular, UNIRAZAK graduands, to seek excellence and to practise strong work ethics in whatever you do. Emulate him as much as you can and always be forward-thinking, empathetic and inspiring.

“Knowledge is power you can exercise only over people who know less - not over people who know more. You must work hard and show effort. About the only thing that comes to us without effort is old age.”

Allahyarham Tun Ahmad Sarji Abdul Hamid

# Chancellor Award

## Amirul Daniel Hakim Bin Azmi

*The Bank Rakyat School of Business, Innovation, Technology & Entrepreneurship (BRSBITE)*

Amirul Daniel Hakim has been recognised for his integration of academic excellence with accomplishments in the areas of leadership, athletics, community service, creative and performing arts as well as campus involvement.

This Chancellor Award recipient chose Islamic Financial Planning as his major after realising that not many people have gone into the discipline, hoping to penetrate and become one of the best experts in the field.

Driven and committed, Amirul Daniel Hakim graduated with a 3.86 CGPA from the Bank Rakyat School of Business, Innovation, Technology and Entrepreneurship.

### **How does it feel to receive the Chancellor Award?**

I've always aimed for the Chancellor Award since the first day I stepped into UNIRAZAK. Now that I actually got it, it feels surreal and I am completely honoured.

It gives me a sense of accomplishment that all my hard work and efforts throughout my undergraduate years have paid off. This is a reminder for me that dreams do come true, and can be achieved with determination and perseverance.

### **It has been a year since the pandemic hit us, can you share some of the challenges you went through in the new normal.**

I was blessed to be able to complete my studies before the pandemic, so I didn't get to experience the whole online distance learning.

But entering the working environment during the lockdown definitely wasn't

easy. In a blink of an eye where the whole world was changing, I had to adapt quickly to the new normal but at the same time, staying on top of my game.

I am thankful that UNIRAZAK has equipped me with the necessary skills during my studies through their practically-built course layout and trained me to identify my strengths and weaknesses that have proven to be useful especially in these trying times.

### **What was your favourite part about studying at UNIRAZAK?**

My favourite part of UNIRAZAK would be its location which is in the heart of Kuala Lumpur and that obviously comes with many perks.

Besides the location, UNIRAZAK's core brand as a boutique university with curated courses that partnered with globally renowned professional bodies which will equip the students not only with a degree but also an accreditation or professional certifications from their partners.

The best thing is that since UNIRAZAK is not as big as other universities, I feel connected with everyone. The management is student-centred as all the lecturers know you personally and will share with you any relevant opportunities available. I don't think you can get this type of close-knit relationships at other universities.

### **Which instructor(s) influenced you most?**

To be honest, all the lecturers that have taught me are amazing and have contributed to shaping me into becoming the person I am today.

But if I were to pick a few, first, it would be my academic advisor; Madam Latifah who has always pushed me to become the best version of myself and always equipped me with an abundance of knowledge with a wider spectrum.

She would always remind me that there is more to this out there and the importance of learning all for my future. It was eye-opening.

Another person who played a vital role in my journey was Mr Zawawi. He believed in the potential that I have and directed me in the right direction, and made me realise what my strengths are.

### **What is one piece of advice you would give to new students?**

An advice that I would like to give the new students is to always give our all in every endeavour. Do everything wholeheartedly as the outcome will always be the reflection of our efforts. So study hard but don't forget to have fun at the same time; balance is the key. Work on figuring yourself out to know what's best for you, and do things your own way and pace.

Don't do it because others are doing it, and feel pressured by it. It's okay to fail at times as no one is perfect, and the beauty about failing is that you will come back stronger and ultimately become the best version of yourself.

# Vice-Chancellor Award

## Mahendrarajah A/L Selvaraja

Graduate School of Business (GSB)

Working adults looking to enhance their skills and knowledge within their field are among the many students here at UNIRAZAK. Mahendrarajah A/L Selvaraja began his career jumping into a big corporation and found it overwhelming.

He wanted to start fresh and decided to take on a position at an SME which meant wearing a lot of hats at the same time, and learning from each other all the time. Looking to be better at his career, he decided to pursue a Master's degree in Business Administration and now is a Chief Executive Officer at a local company.

Mahend has graduated from UNIRAZAK with a CGPA of 3.95 and received the Vice-Chancellor Award.

### How does it feel to receive the Vice-Chancellor Award?

I still remember the day I received the news. I was at the office at the time and I was really flabbergasted when the caller told me that I was chosen for the Vice-Chancellor Award.

I've always been grateful to UNIRAZAK for providing me with the scholarship that helped me complete my studies and to receive this award, it has just made my journey at UNIRAZAK even sweeter.

### It has been a year since the pandemic hit us, can you share some of the challenges you went through in the new normal.

I was pretty lucky that I was able to complete my studies just right before the lockdown. I escaped the entire online

learning. Nevertheless, from my own experience, even before the pandemic reached the world, the professors at UNIRAZAK have already started using an online system for our classes.

I was able to download learning materials at the office to read during my lunch break and able to submit my assignments from the comfort of my own home.

Then I would like to also thank Dr Roland, he is an entrepreneur professor. He said, "Don't just simply do business but make sure that the business you do is 'x' value. Make sure that it is sustainable".

These are highly impactful but the rest are also equally good.

**Teamwork is the fundamental ingredient of triumph. You'll gain more by working as a team.**

### What is one piece of advice you would give to new students?

Razakians should always focus on the fundamental thing when it comes to studying, which is teamwork.

Each of us knows only very little about everything, and the only way for us to figure things out is to work on it together.

So work on your group projects, join a club, share your knowledge and figure things out together. By doing that, the world will become a better place.

It's safe to say that UNIRAZAK has already figured out the online learning method and ready to assist students complete their studies during challenging times like this.

### What was your favourite part about studying at UNIRAZAK?

I have about 8 Professors who taught me in UNIRAZAK, out of which the greatest impact, who had made me who I am today, is Prof. Dr Rizal. He really pushed me to be better.

## Rohaiza Binti Azemi

Tun Abdul Razak School of Government (TARSOG)

Rohaiza Binti Azemi proves that choosing Economics isn't just about passion for analysis. Her decision to choose Economics was also a strategic decision. The field gave her career flexibility to join literally many different industries such as banking, finance, government and business.

Obviously on a trajectory for success, this International Trade major, has exhibited not just leadership skills but skills in strategic thinking, teamwork, communications and analytical thinking. Rohaiza has successfully organised events or delivered on her executive council roles in university clubs. She has volunteered at the Kechara Soup Kitchen Charity Event as their Director demonstrating that leadership goes beyond age and experience.

Currently working as a Protégé for Hong Leong Bank Berhad's GALCO (Assets and Liabilities Management), Rohaiza has interned at the National Institutes of Health (NIH) writing research highlights and scoping reviews for researches conducted for the Ministry of Health.

Rohaiza graduates with a CGPA of 3.91 and receives her First Class Honours degree from the Tun Abdul Razak School of Governance.

### How does it feel to receive the Chancellor Award?

It's beyond my expectation to be honoured with this award. I'm deeply grateful to receive this. All the hardwork and efforts that I put throughout my journey as an undergraduate finally paid off. I couldn't

thank my lecturers, family and friends enough for making my dream come true.

**It has been two years since the pandemic hit us, can you share some of the challenges you went through then and now, in the new normal.**

Attending online class during my final

central part of Kuala Lumpur made my degree journey become more interesting as I can hang out with my friends after class wherever we want.

The best part of my journey at UNIRAZAK is also that my beloved bestfriend, Mumtaz and I, are both being honoured with the highest awards. We made it!!

### Which instructor(s) influenced you most?

Honestly, from foundation until degree, all the lecturers that taught me are not just knowledgeable, but they also very supportive and concerned about their students.

If I want to choose which instructors that influenced me the most, I would definitely say Assistant Professor Dr. Anthony and Ms. Jenny. Dr. Anthony is not just an experienced lecturer, but he is also very dedicated in sharing his knowledge with his students. Because of him, my interest in economics grew stronger. Besides being a dean, Ms. Jenny is also a supportive lecturer who always love to guide her students in every single thing.

### What is one piece of advice you would give to new students?

As a Razakian, my only advice to new students is to enjoy your study journey as much as you can. You might not have the same experience again in the future. So, make new friends as much as you can but at the same time stay focused and motivated in your studies.

**Make new friends as much as you can but at the same time stay focused and motivated in your studies.**

year is not as easy as I thought. Facing never ending assignments, projects and tests was really stressful.

Although I faced this most difficult condition in the past academic year, my lecturers and the support staff had made my transition to online learning smoother.

### What was your favourite part about studying at UNIRAZAK?

My favourite part about studying at UNIRAZAK would be its environment before the pandemic. UNIRAZAK, which is known as boutique university, makes me feel more connected with people in the campus at all levels.

## Mumtaz Binti Mohamad Nasir

*The Bank Rakyat School of Business, Innovation, Technology & Entrepreneurship (BRSBITE)*

Mumtaz Binti Mohamad Nasir is not new to excellence and drive, having won various awards, a scholarship and excellent grades in her secondary school days.

Graduating with a 3.96 CGPA and a First Class Honours degree from the Bank Rakyat School of Business, Innovation, Technology and Entrepreneurship under her belt, Mumtaz has been a Dean's List recipient since her Foundation years.

Realising the potential Islamic Banking & Finance (IBF) has in the future with the rising demand and development in the field, Mumtaz decided she wanted to major in IBF once she completed her Foundation.

As she began setting her sights and navigating her path towards achieving her dreams, she came to realise that financial literacy is important for everyone, and understanding it from the Syari'ah perspective was crucial to her and the society she lives in. The positives in Syari'ah-compliant financial system is gaining greater traction in the banking system particularly in Malaysia.

Which is why this cheerful and driven young lady wishes to spend her time making sure that she contributes substantially in this area particularly in educating and creating a society with greater literacy in Islamic Banking.

### **How does it feel to receive the Vice-Chancellor Award?**

All praises to Allah, I'm grateful, proud and happy for the acknowledgement. It's like getting a pat on the back for the hard work and sleepless nights. It's truly a boost of confidence and a recognition I will always cherish. Thank you to everyone who plays a role in my success story.

### **It has been two years since the pandemic hit us, can you share some of the challenges you went through then and now, in the new normal.**

I remember when Covid-19 hit us, it was around March 2020 when we were starting our new semester at UNIRAZAK. I was motivated and excited to start my second year, but everything changed when Malaysia announced to go into lockdown. Clueless, I had no idea how UNIRAZAK and myself would manage the new normal.

It was mainly difficult to find the motivation and keep my focus as I was not in a learning environment and faced many distractions. Plus, it's easy to feel burnout when all we do is sit in front of the laptop all day.

Fast forward, I finished all semesters online, including internship where I fully worked from home. It was not an easy journey at the start, nonetheless, UNIRAZAK and its lecturers were quick to adapt and adopt to the new normal, guaranteeing quality education for students although it was done online.

Constant encouragement and support from lecturers, family, and friends helped me find determination till today. Also, owing to my online learning experience, I was able to manage working from home during internship.

### **What was your favourite part about studying at UNIRAZAK?**

I love the inclusive learning environment UNIRAZAK provides, where students and lecturers are able to interact closely in everyday class, making sure no one is left out and learning needs are always met. Be it physical or online class, the lecturers

never fail to make students feel supported, heard and valued. Another best part is, my friends and I had our fun while studying at UNIRAZAK and we were able to create lifetime memories as students. It's the little things actually, like watching Netflix and playing table football at Level 10, sleeping on the bean bag in the library, short after-class catch up at Surau, and café lunches.

I certainly had fun outside university too. UNIRAZAK is near to many KL City attractions, and I wouldn't want to miss experiencing them.

### **Which instructor(s) influenced you most?**

I remember every lecturer I have learnt with – throughout foundation and degree. I'd love for them to know that each has their own uniqueness and had some influence on my life. If I can name a few, Professor Dr. Siri Roland Xavier, who taught me International Business, he may not know it but the way he conducted class was eye-opening. I love how a class can be very laid-back, but still able to provide a quality and effective learning experience for students. It made me learnt that when a process is enjoyable, it creates motivation and helps students remember what was taught better.

Associate Professor Dr. Omaima, who taught most of my programme's core courses. Dr. Omaima has always believed in my potential, acting as the source of my confidence and determination. I aspire to be an amazing person as Prof - competent, experienced, and knowledgeable but always staying humble. Each class with Prof was engaging, meaningful and informative. The positive learning experience she provided has contributed so much to the person I am today, and who I will become in the future.

# Chancellor Award

## Roisah Binti Abdullah

*School of Accounting & Taxation (SAT)*

Roisah Binti Abdullah's life reads like a biographic novel. A developing storyline that will inspire many who knows her personally. Suffice to say, this young scholar's drive and determination has changed her destiny. A top STPM scholar, a UNIRAZAK scholarship recipient, a student leader, and a Bachelor of Accounting (Honours) degree graduate.

The outstanding Chancellor Award winner chose accounting for the many opportunities it offers. The profession gives her the chance to learn about a business and how it operates from routine to non-routine activities. Demonstrating that excellence isn't university campus bound, she believes that the accounting profession will expose her to interacting and learning from people of different professions.

This committed young accountant-to-be has been on the Dean's list for five semesters, passed all six CPA Australia professional papers with three Distinctions and one Credit, and just short of less than three years to become a chartered accountant in Malaysia. She graduates with a CGPA of 3.75 from the School of Accounting and is currently an Audit Associate at PwC Malaysia.

### **How does it feel to receive the Chancellor Award?**

I am honoured to receive this award. It was such a long journey with ups and downs along the way. It made me feel like all the effort has paid off. I remember that success does not come overnight. It takes preparation, dedication and perseverance. I am also grateful to my family, friends and lecturers who were and are still a part of my journey. They have contributed to this achievement. Without their help and blessings, I will not be here. I really

appreciate them for what they do for me.

### **Please share with us some of your biggest challenges at UNIRAZAK and how you overcame it.**

One of the biggest challenges faced when I was studying at UNIRAZAK is when we were hit by the pandemic. The method of conducting classes had to change from physical to online. It was difficult to cope especially when the pandemic first started. I was in the third year where all subjects were more challenging and which required in-class lectures to gain a thorough understanding. It was tough and I realised that I need to accept these changes to be able to move forward in my life as a student. It was difficult as first but here I am now, finished with my studies, and experienced a new way of life where everyone is able to do both, physically and remotely.

### **What was your favourite part about studying at UNIRAZAK?**

The course that UNIRAZAK has offered to students where the students are not only equipped with the Bachelor's degree but also professional qualification to get us ready for the working world. Besides that, I learned so many things from the lecturers, gained from their immense knowledge and listened to their experiences especially from the accounting background. It has inspired me to do my best in this path I have chosen.

### **Which instructor(s) influenced you most?**

All of my Accounting and CPA lecturers. Every person I have ever met, I have listened closely to them and sought to learn as much as possible from them.

Each of them are different and unique from each other in many ways which I feel amazed by. I realised that they communicate with their own words and intentions. They shared great advices and tips on how I can go about life during and after university years. That inspired me totally both in my academics and career.

### **Tell us some of the things you are truly thankful for.**

I am grateful to have such a wonderful close family by my side during my 4-years journey as a student. I am also thankful to UNIRAZAK for the scholarship offered to further my studies in accounting field, and the lecturers who always guide me with meaningful knowledge and good advices whenever I feel lost. Besides, I am grateful to my friends for always being there for me when I needed it. I appreciate the times we've had thus far. Words cannot express my feelings, nor my thanks for all help I received directly or indirectly. Your thoughtfulness will be always be remembered. Thank you.

### **What is one piece of advice you would give to new students?**

As an alumna, I would like to encourage new Razakians to be brave and follow your heart in whichever journey you have chosen for your future. There will be difficult times and challenges coming your way, you will stand tall and embrace it as you grow stronger. Shall no effort be wasted in this battle. Victory awaits you in the end. It'd be worth it. Lastly, I hope that you would get what you've wished for and may all your dreams come true.

All praises to Allah for this wonderful award. I am so thankful and grateful that all my efforts and hard work have been recognised. Credit goes to all my family members, friends and lecturers who were there for me in this journey.

### **Please share with us some of your biggest challenges at UNIRAZAK and how you overcame it.**

The full lockdown happened when I was just starting my second semester of my

bachelor's degree and it is the worst thing that could have happen during my university life. The transition from physical to online learning makes it easy for some of us to lose motivation.

However, I see it as an opportunity for us to study effectively by using technology as part of the learning process. I overcame the challenges by looking at the positive side of the situation and took full advantage on it.

### **What was your favourite part about studying at UNIRAZAK?**

There are a lot of things that I would surely miss about UNIRAZAK. I like how the lecturers conducted their classes. Although their styles are different, but they share something in common which is not to let any student be left behind. They are so effective and caring throughout my entire journey.

The location of the university which is in the heart of the city makes it more memorable for us as we can always explore the big city after class by experiencing the wonderful attractions offered in the city.

### **Which instructor(s) influenced you most?**

I am so grateful to all my lecturers since foundation and bachelor's for playing a part in my success. There is one lecturer whom I wish to express deepest appreciation to; Professor Latifah. She guided me throughout most of my journey at UNIRAZAK.

I see her not just as a lecturer, but also

as a mother figure that cares about her students. She always gives her best in class and I really appreciate her vast knowledge in the field of Islamic Financial Planning.

To Professor Latifah, thank you for being there for me and supporting me from the beginning until the end. I could not thank you enough for everything that you have done for me.

### **Tell us some of the things you are truly thankful for.**

I am very thankful for the opportunity to have my foundation and bachelor education at UNIRAZAK. I appreciate the university for recognising my achievements and awarded me this great award. Other than that, I am truly thankful for all my friends that have been with me since day one until our graduation day.

### **What is one piece of advice you would give to new students?**

Plan your goals and try to achieve it; does not matter if it is academic goals or non-academic goals. Do not live your life without direction as you will be lost and waste precious time at UNIRAZAK.
