TURNKEY SERVICES

LET RAPIER HANDLE YOUR NEXT PROJECT FROM END-TO-END

With Rapier Industries turnkey services, your organization can see vision become reality. From complete design, to startup and commissioning, RAPIER has you covered.

Design & Engineering

Let RAPIER help bring your vision to life by letting our expert team of engineers design your next project. Maximize your investment by ensuring you have the most revenue efficient operation.

Contract Management

With one single point of contact, the process has never been more simplified! RAPIER will oversee the entire process, allowing the fastest, most efficient path to completion of your next project.

Construction Process

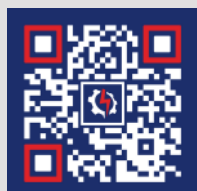

All contractors, installation, startup, and commissioning run through the RAPIER team. Your project will be delivered on-time and on-budget, getting you to revenue faster.

About us

RAPIER is your Total Solution Resource, serving the engineering, electrical, and consulting needs of American industry. Whether it's time for a large-scale renovation, a new production line, automation & controls, or you simply need a maintenance and service partner, RAPIER has you covered. With many years of industry experience, a long track record of success, and a globally recognized list of satisfied clients, RAPIER is focused on delivering your projects on-time and on budget.

Why Go Turnkey?

- ✓ Take your vision from concept to revenue faster, maximizing your investment.
- ✓ One single point of contact ensures maximum efficiency and productivity.
- ✓ The Rapier team will protect you from long delays and unnecessary costs.

LOW VOLTAGE SERVICES

CONTROLS & AUTOMATION

With a comprehensive suite of capabilities, RAPIER is your partner for automating all your processes. From semi-automated modular solutions to fully automated turnkey solutions and testing systems, we have the knowledge and expertise to deliver reliable, efficient, and accurate controls that meet your unique needs.

FIBER OPTIC CABLING

As technology advances, so does the amount of bandwidth needed for businesses to successfully operate. RAPIER provides fiber optic networking for organizations needing flexibility and the ability to transmit large amounts of data quickly. From data center design to fiber extensions, we can provide single-mode and multi-mode fiber solutions.

FACILITIES IOT

The Internet of Things offers endless possibilities for automation and remote control. Use IoT to automate operations, analyze inefficiencies, detect security threats, and recognize equipment problems before they arise.

ADDITIONAL SERVICES

- Certified Network Cable Installation
- Cable Testing and Certification
- LAN & Data Center
- Wireless & Security Systems

IS YOUR ROUTINE FOR MAINTENANCE ANYTHING BUT ROUTINE?

Avoiding shut downs, expensive service calls, and repairs is as easy as letting RAPIER do a free facility audit.

What Is It?

Let one of our expert team members come in and evaluate your facility for gaps in the existing maintenance plan, and any essential issues that currently exist. We will provide a written report identifying any glaring issues, as well as any potential underlying issues that may lead to a costly shutdown or catastrophic equipment failure.

No Obligation Report

Your free audit comes paired with an in depth report, outlining our suggestions for protecting your facility from costly shutdowns. While we are happy to provide any services needed, our audit is 100% obligation free. Our goal is to become a valuable resource to you in ensuring you avoid any future catastrophic failure.

Services Offered

Maintenance Contracts

24/7 Emergency Services, Electrical, Hydraulic & Pneumatic Systems Support, Master Service Agreements.

Preventative Maintenance

Infrared Scans, Torque & Clean, Infrared Scans, Workflow Optimization, Remote Monitoring & Integration.

Compliance Services

Load Studies, Arc-Flash, Coordination Studies, Equipment Safeguarding, Reliability & Backup Power.
