ABOUT US

Vasavi Exports is a trusted name in the world of Indian wooden handicrafts, dedicated to preserving, promoting, and exporting authentic hand-crafted wooden products to global markets. Rooted in tradition and driven by commitment, we work closely with skilled artisans across India to bring timeless craftsmanship to homes and businesses worldwide.

India – A Land of Diverse Craft Traditions

India is a truly secular and culturally rich country, home to numerous states, each with its own distinct handicraft traditions. For centuries, artisans have honed their skills within families and communities, passing knowledge from ancestors to the next generation. These crafts are not merely products—they are living traditions shaped by history, culture, and devotion.

At Vasavi Exports, integrity is our foundation. What we commit is exactly what we deliver. From the initial discussion and design finalization to sampling and bulk production, every step is handled with utmost care. Each product is nurtured like a baby—with attention, patience, and respect—before it reaches our client. We believe that this sincerity creates positive energy, which naturally attracts long-term buyers and meaningful partnerships.
