# FC BARCELONA SPAIN

We transformed the training facility of this elite football club by installing a state-of-the-art gym, equipped with cutting-edge fitness technology and modern amenities. The new facility not only enhances the players' physical conditioning but also reflects the club's commitment to providing top-notch resources for their athletes.

# GYM DESIGN

→ MCSPORT UDINE, ITALY

# THE PERFECT DESIGN IN ONLY 3 STEPS

## 1. CONSULTATION, MEASUREMENT AND ADVICE

Tell us your ideas, dreams and demands. We measure your space, advise and calculate what's possible within your budget. Due to our experience, most of the time in this stage we also help you with business-specific questions.

→ OPTIMUS SALUD LOGROÑO, SPAIN

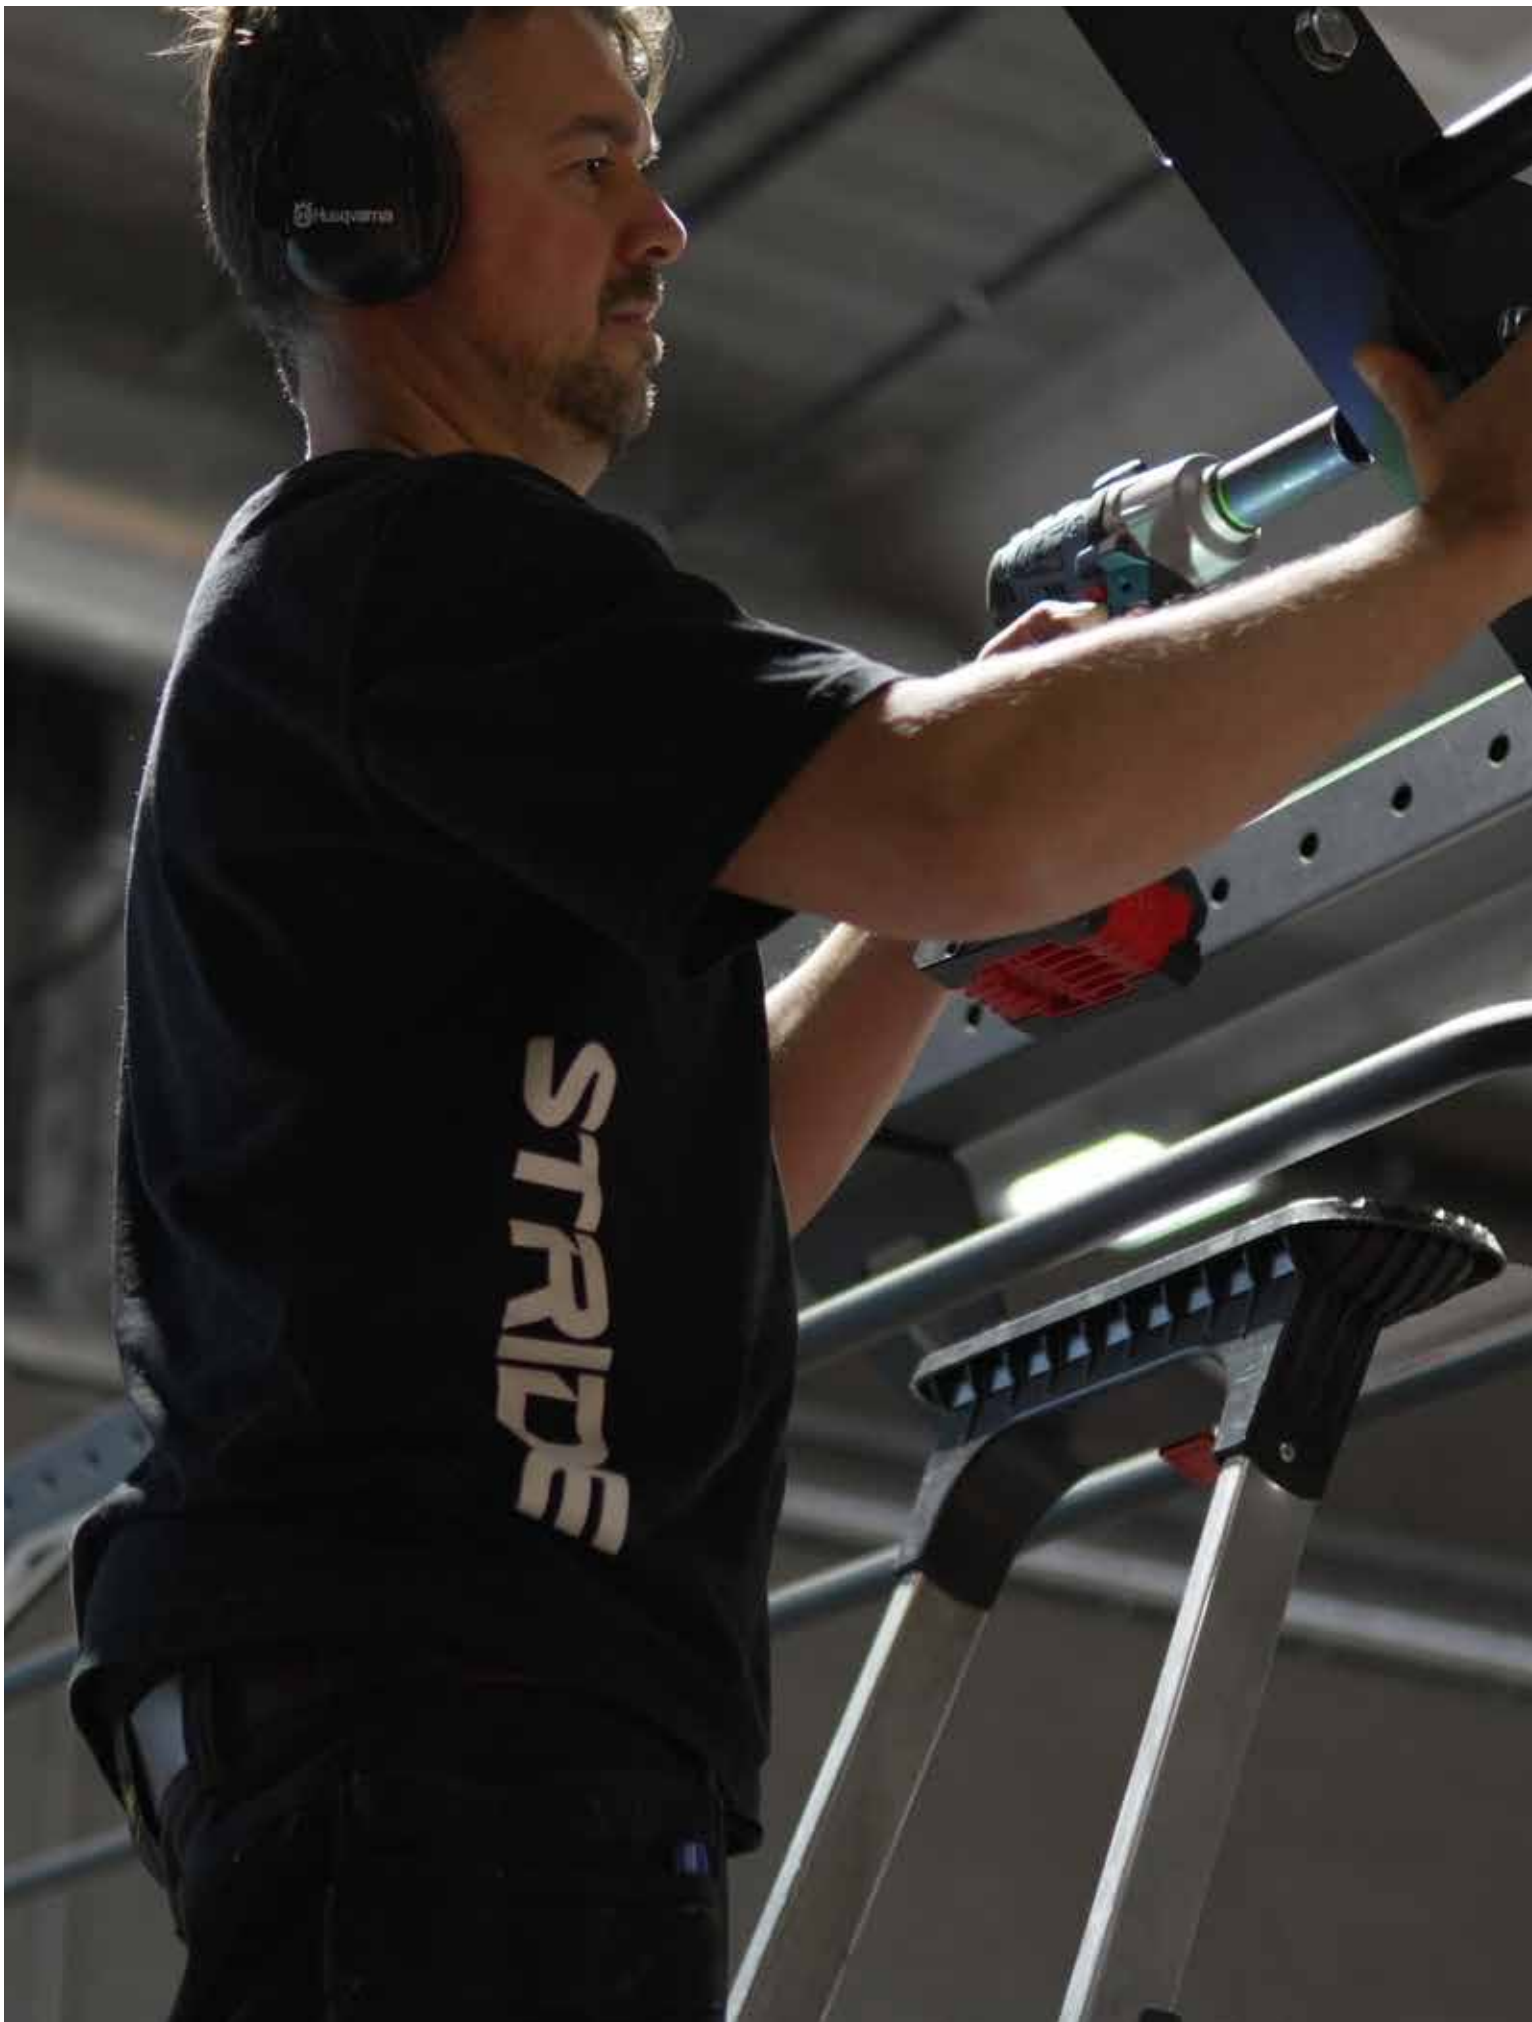

## 2. VISUALIZATION AND IMPLEMENTATION STRATEGY

Our facility design experts make a 3D-visualization of your space and discuss with you how the delivery, building and implementation will go. In this stage we also fine-tune the budget and expectations.

## 3. BUILDING AND COMPLETION OF THE PROJECT

Our team guarantees a perfect installation and finishing of your functional training space so you are ready to open and kick some ass. Working with STRIDE also means continuous support after-sales and option to have business consulting.

# 3 WAYS TO BUILD YOUR GYM

1 SELF  
INSTALL

2 INSTALLATION  
CONSULTANT

3 FULL  
OPTION

FIND MORE INFO  
ON OUR WEBSITE  
[WWW.STRIDEEUROPE.COM](http://WWW.STRIDEEUROPE.COM)

# 1

## DO IT YOURSELF

Gather a handy crew and install everything yourself, assisted by our manuals and instruction videos. Optionally add a DIY installation kit to your order so you have all the tools ready to get started.

### KIT INCLUDES

WÜRTH

# 2

## INSTALLATION CONSULTANT

We guide you through the process of designing your ultimate gym and deliver what is required to do so, but the installation is still in your hands.

7h on-site assistance by a 2 STRIDE project consultants, including use of installation materials and accessories. Client provides additional workers.

Fixed price + transportation costs.

### THIS EXISTS OF:

Pre-installation  
Q&A + guidelines

1 day rent of  
all measuring  
and installation  
equipment

comes with  
2 STRIDE project  
consultants

# 3

## FULL OPTION

We have full control over the installation so you can relax and watch your gym being built for you, all the way from rough idea to finishing touch.

We take care of load-in and load-out, drilling, measuring, glueing, waste management, after-cleaning.

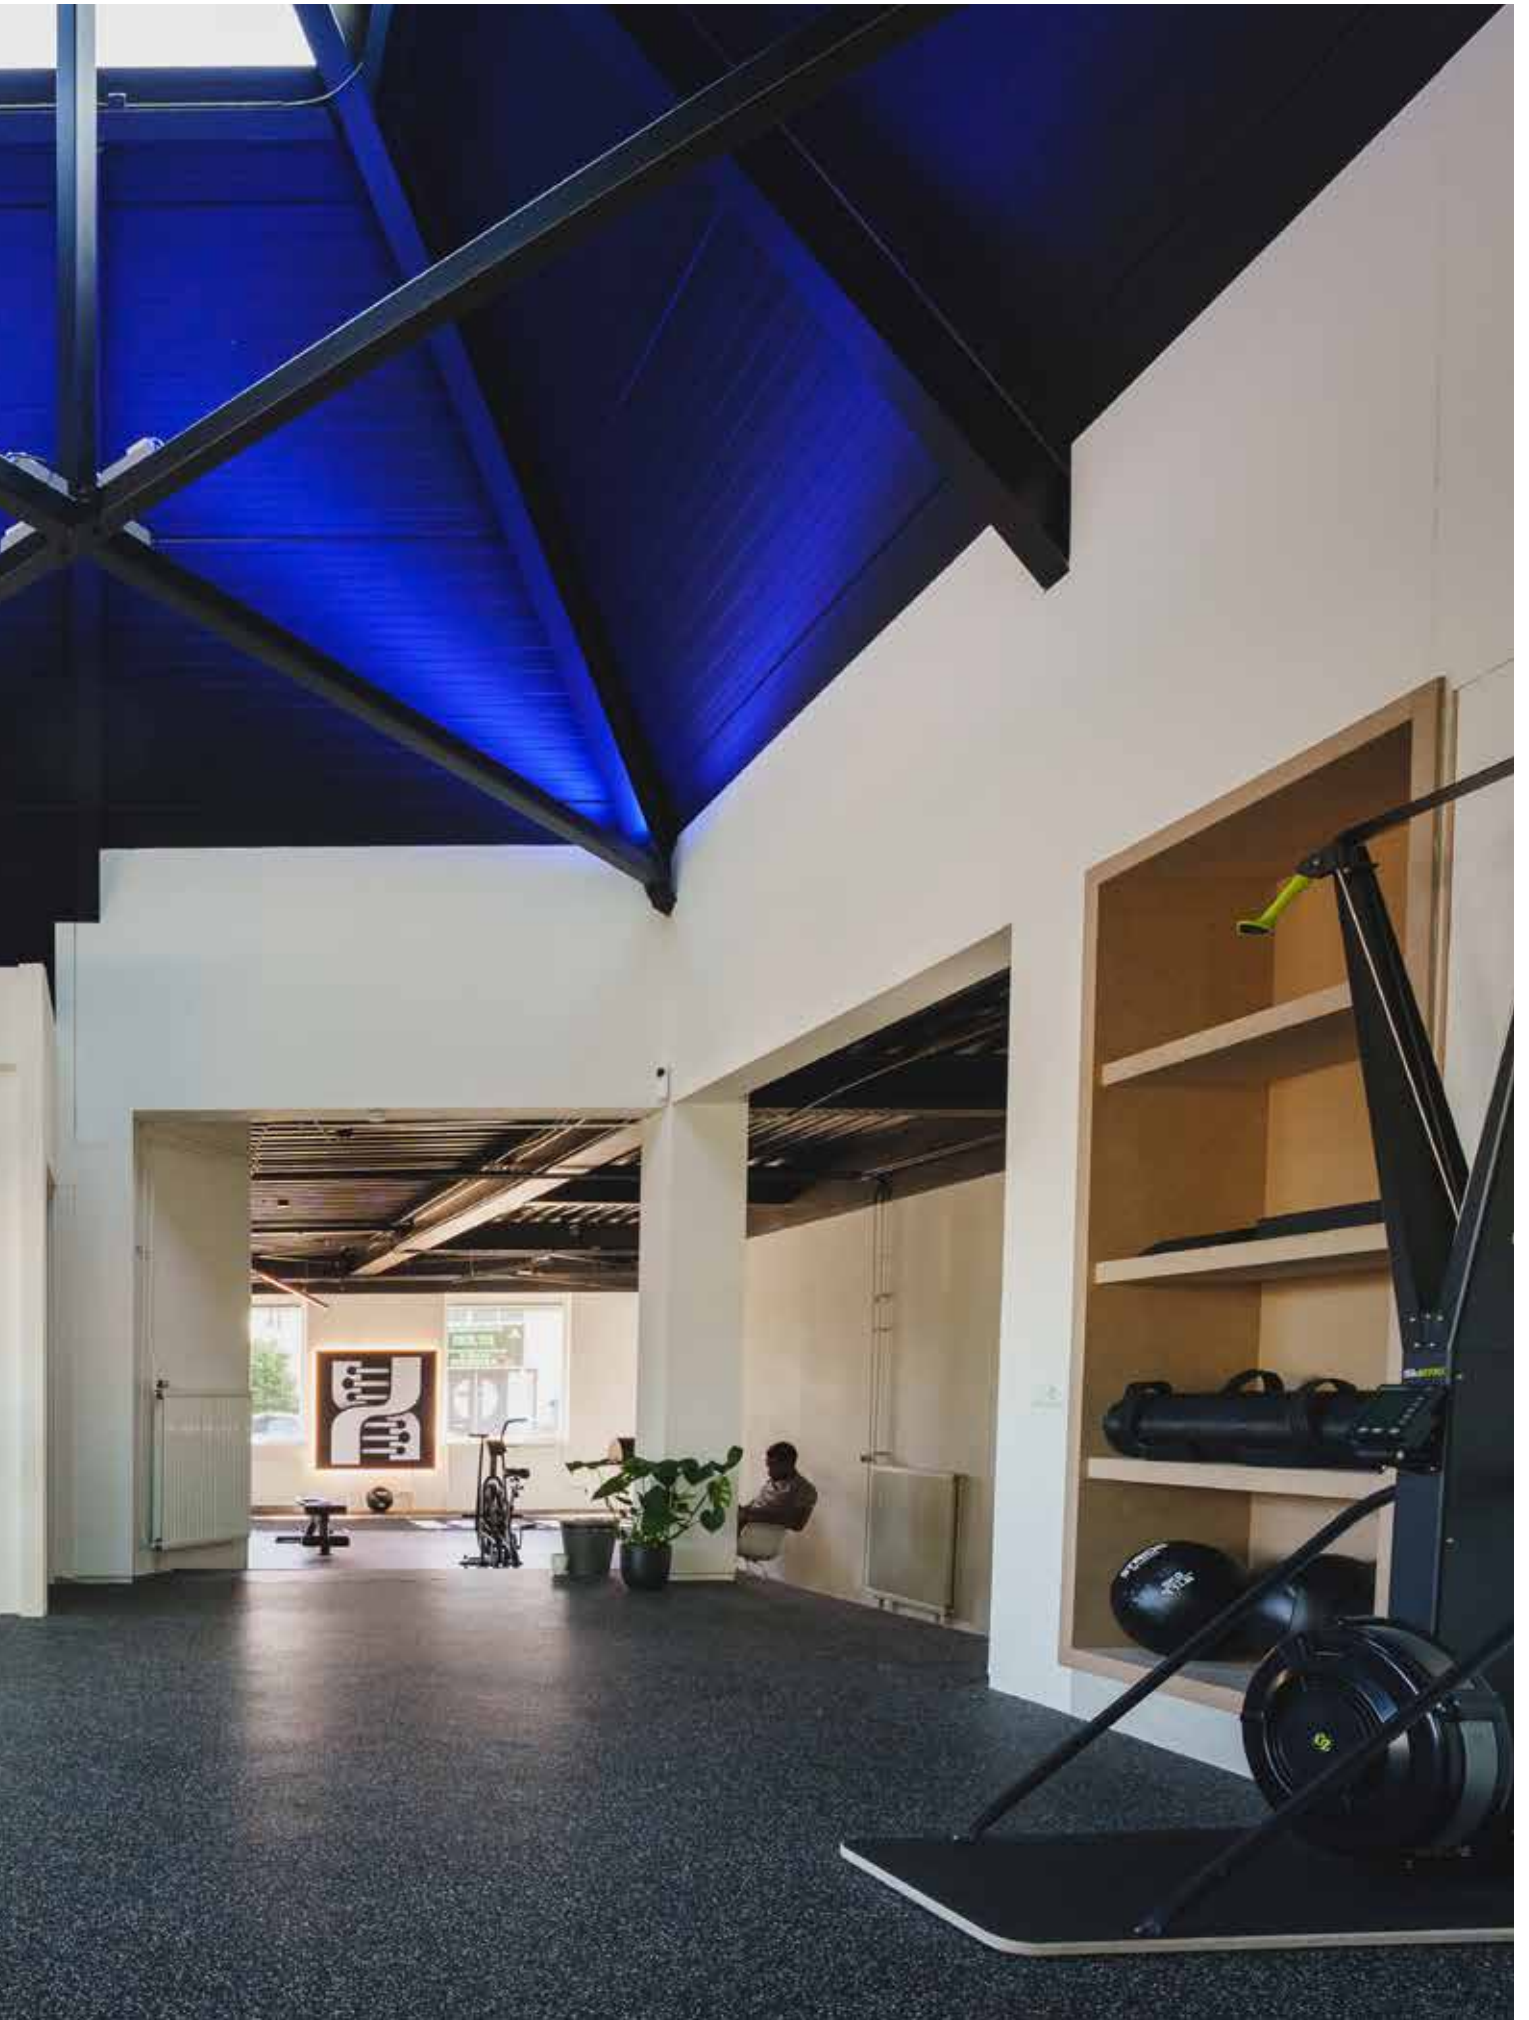

Our offer comes with an estimated amount of installation hours which will be adjusted accordingly after the actual installation.

### WE TAKE CARE OF:

- load-in and load-out
- drilling
- measuring
- glueing
- waste management
- after-cleaning

→ HELIX BAVEL, THE NETHERLANDS

# ROYAL ANTWERP FC. BELGIUM

We turned a big area—2,600 square meters—into an awesome training spot. We focused on putting in a sprint track meticulously cut and seamlessly laid out so that you can't see any joints, firmly adhered to the ground to ensure it stays immovable, even under the fastest sprints. This track, is built to withstand the rigorous training of top-tier footballers.

# 5 TYPES OF GYM FLOORING

## 1 ARTIFICIAL TURF

A turf or sprint track in your gym enhances functional training, allowing for sled pushes, sprints, and agility drills. It supports high-intensity workouts, improves athletes' speed and power, and offers a versatile surface for various exercises, making your gym more dynamic and appealing to performance-focused clients.

### 1. PLAY TURF

Play turf is plain, tufted turf in one color, perfect for versatile gym use.

### 2. IN-LAID TURF

In-laid turf is tufted turf with white meter marks, ideal for large gym areas.

### 3. STANDARD TRACKS

We offer 6 pre-designed standard sprint tracks, available in 2 colors.

### 4. CUSTOM PRINTED TURF

Our custom printed tracks offer limitless color options and complex design possibilities.

### 5. CUSTOM TUFTED TURF

Our custom tufted turf allows intricate designs in 5 colors, with white markings for added functionality.

## 2 RUBBER TILES

Rubber tile flooring in your gym ensures safety, shock absorption, and durability. It's ideal for heavy lifting areas, reducing noise, protecting equipment, and preventing floor damage. The non-slip surface enhances user safety, while its easy maintenance and comfort make it a smart, long-term investment for a professional gym environment.

### 1. INTERLOCKING RUBBER TILE

Durable and easy-to-install puzzle-like gym flooring pieces: shock-absorbing, versatile.

### 2. CONNECTING RUBBER TILE

Connecting tiles have built-in connectors, so no glue is needed for installation.

### 3. STANDARD RUBBER TILE

Our basic rubber tiles absorb high impact like connecting tiles but differ in structure.

### 4. OUTDOOR RUBBER TILE

Outdoor tiles are made from recycled rubber, they connect with pins, no glue needed.

## 3 SPC CLICKFLOOR

SPC clickfloor is perfect for your physio practice or gym. It's highly durable, stable, and handles heavy equipment and foot traffic with ease. Its moisture resistance ensures hygiene, protecting against sweat and spills. Plus, it reduces noise, creating a calm, focused environment for clients and staff.

### 1. LIGHT OAK LOOK

Light oak SPC clickflooring offers a natural, timeless look with durability.

### 2. CONCRETE LOOK

Concrete-look SPC clickflooring provides a sleek, modern, and durable finish.

### 3. HONEY OAK

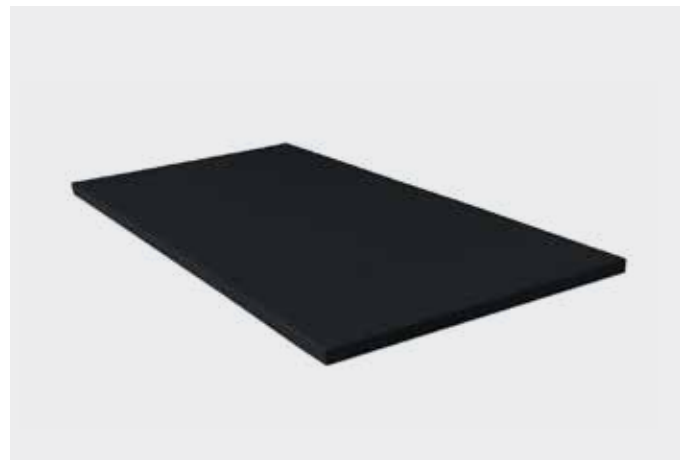

Honey oak SPC clickflooring adds warmth and elegance with lasting durability.

### 4. LIGHT GRAY

Gray SPC clickflooring delivers a sleek, modern aesthetic with durability.

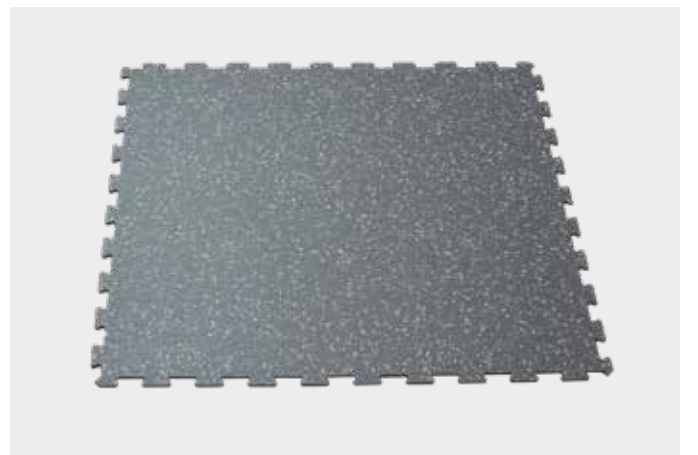

## 4 JUDO MATS

Judo mats / soft flooring is a smart investment for your gym. It offers superior shock absorption, protecting athletes during intense training and reducing the risk of injury. Its non-slip surface ensures safety, while its durability withstands heavy use. Easy to clean and maintain, it provides comfort, safety, and longevity for a high-performance environment.

## 5 TOPFLOOR TILES

Introducing TOPFLOOR's newest innovation: interlocking tiles available in two sleek shades of grey. Designed for fast, adhesive-free installation, they're perfect for sports environments—gyms, training centers, and fitness studios. Durable, easy to maintain, and built to withstand intense activity.

## INTERLOCKING 10% EPDM

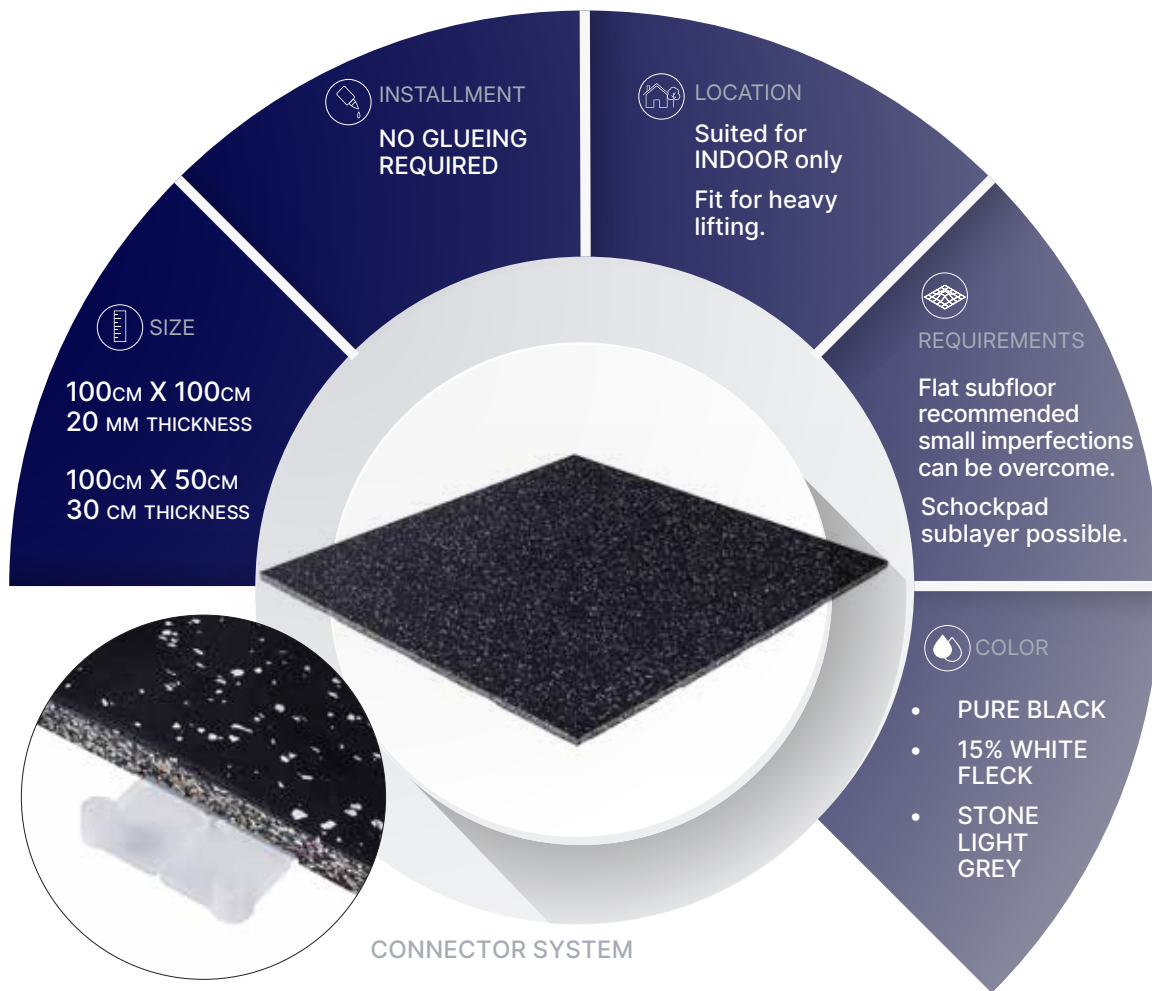

Art. Nr.	Item
EW-PUZZLE1010	Interlocking Rubber Tile (10mm; 10% EPDM)

The STRIDE interlocking (puzzle) tile is the product of choice for leveled spaces where gluing is not allowed or possible. This tile has a black SBR rubber base to which you can add a certain percentage of colored EPDM fleck to make the tile lighter and more vivid.

# B CONNECTING TILE

The STRIDE connecting tile is without a doubt our most popular rubber flooring product. Thanks to its extremely dense, cold bonded and therefore almost fully closed top layer, it is easier to clean and offers the highest level of hygiene.

The sublayer and patented bottom structure with studs reduce the impact of heavy equipment and provide officially tested acoustic benefits in sound and vibration.

This uniquely designed pattern on the bottom has holes to fit connectors, small PolyPropylene attachments that hold the tiles together in a smart free floating way without needing any glue or other complicated installation methods.

# C STANDARD TILE

Just like the connecting tiles, our standard rubber tiles also absorb high impact. The difference lies in the structure of the rubber: whereas the connecting tiles have a closed top layer, the standard rubber consists of coarser granules in the base layer and a rougher and more porous surface.

BLACK STANDARD

Budget-friendly rubber tile offers an affordable alternative to our premium connecting tile.

STO-STAND20	Standard Rubber Tile   Black (20mm)

The rubber has been recycled out of old car tires and is bonded with PU. Because only raw material is used, these tiles are basically odorless. There are no studs at the bottom and no connector system, so a leveled subfloor and gluing are highly recommended (or at the least complete enclosure under tension in between physical boundaries).

# D OUTDOOR TILE

The STRIDE outdoor rubber tile is also produced from recycled rubber granulate. The tile's porosity and channels on the bottom allow for smooth and fast drainage, making sure that excess water finds its way through and most of all that the top layer dries quickly.

**INSTALLMENT**  
GLUEING NOT REQUIRED

**LOCATION**  
Suited for OUTDOOR

# SOFT FLOORING

An MMA/boxing/judo floor provides plenty of padding for all kinds of ground training and sparring in combat sports. Reduce injuries by absorbing impacts and improve footwork by increasing slip-resistance.

Judo mats offer easy installation, durability, and low maintenance.

## WHY JUDO MATS

We began using judo mats for boxing areas back in 2014 and experimented with various other flooring options over the years. However, two years ago, we decided to switch back to judo mats due to several key benefits:

- Easy installation
- Simple to clean
- No issues with ripping at the seams
- Highly durable product
- Excellent price per square meter

## JUDO MAT

Art. Nr.	PRODUCT
STR-JudoMat	100 x 200 x 4 cm   BLACK

Scan this code to watch a video on how to install judo mats.

A few reasons not to choose other types of boxing flooring

### spanflooring

- Visually appealing, but prone to joint tearing
- Difficult to maintain
- High cost per square meter
- Complicated installation process

### Tatami rolls

- Significant cutting waste
- Velcro joints tear easily and may cause injuries

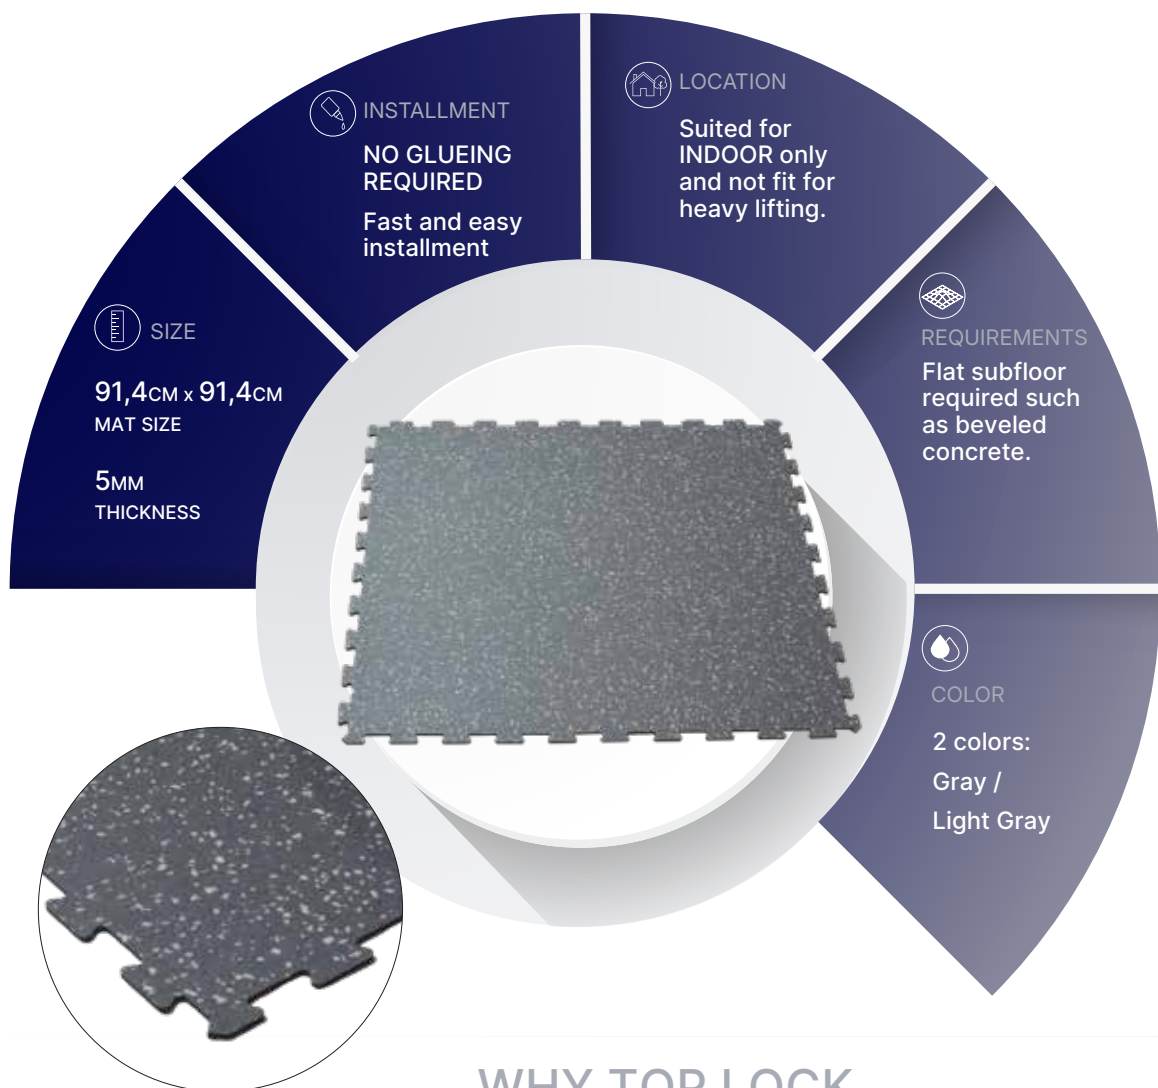

### Puzzle foam

- joints become dirty over time
- looks cheap
- not so durable: scratches and damaged foam

# TOP LOCK FLOORING

TOP LOCK Flooring is a multi-layered interlocking looselay vinyl tile with polyurethane treatment (PUR+), 5mm thickness with a dovetail joint, barasion group T. The tile is reinforced with double fiber glass layer that provides the material with excellent dimensional stability.

TOP LOCK is suitable for high traffic applications like fitness centers or gyms.

## WHY TOP LOCK

Give your fitness club a strong, stylish foundation with TOP LOCK flooring — built to handle the toughest workouts and the busiest gyms. Its quick-fit design means fast installation with zero downtime, so you're ready to welcome members in no time. Durable, stable, and effortlessly modern, TOP LOCK makes your space look as powerful as it feels.

- Easy to install, replace and remove
- More slip-resistant than other types of surface
- Ultra water-resistant
- ECO friendly
- 19 dB less noise than tiling when users walk on it
- Easy maintenance

# LIGHTING

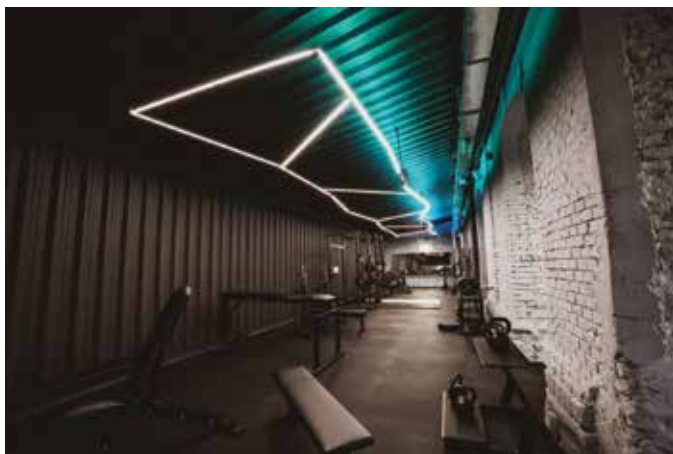

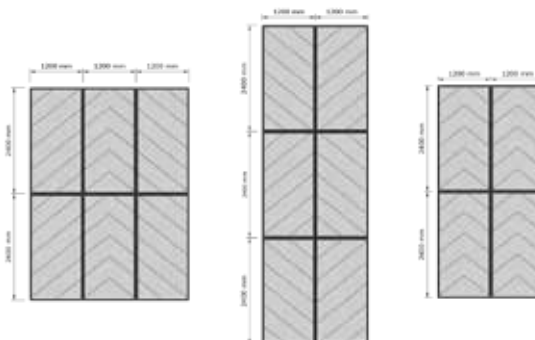

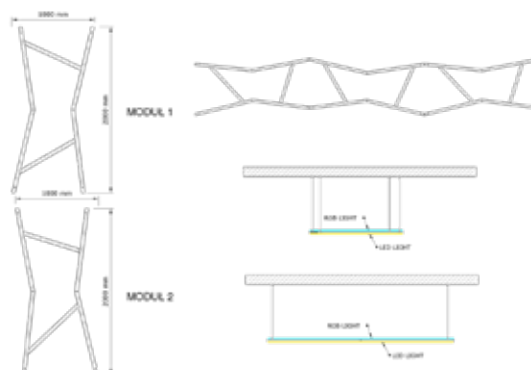

## JUPITER SYSTEM

Designed in three coherent systems that enable unique ceiling lighting scenarios. Made of mesh, steel frame and high quality LED lighting mounted on six chains for better security.

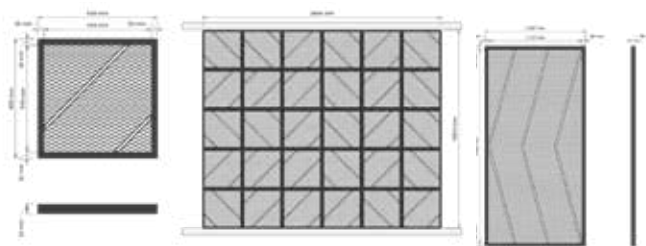

## MARS SYSTEM

A combination of steel profiles, wires and two types of light (LED and RGB LED) provides endless possibilities to create a unique mood in the room.

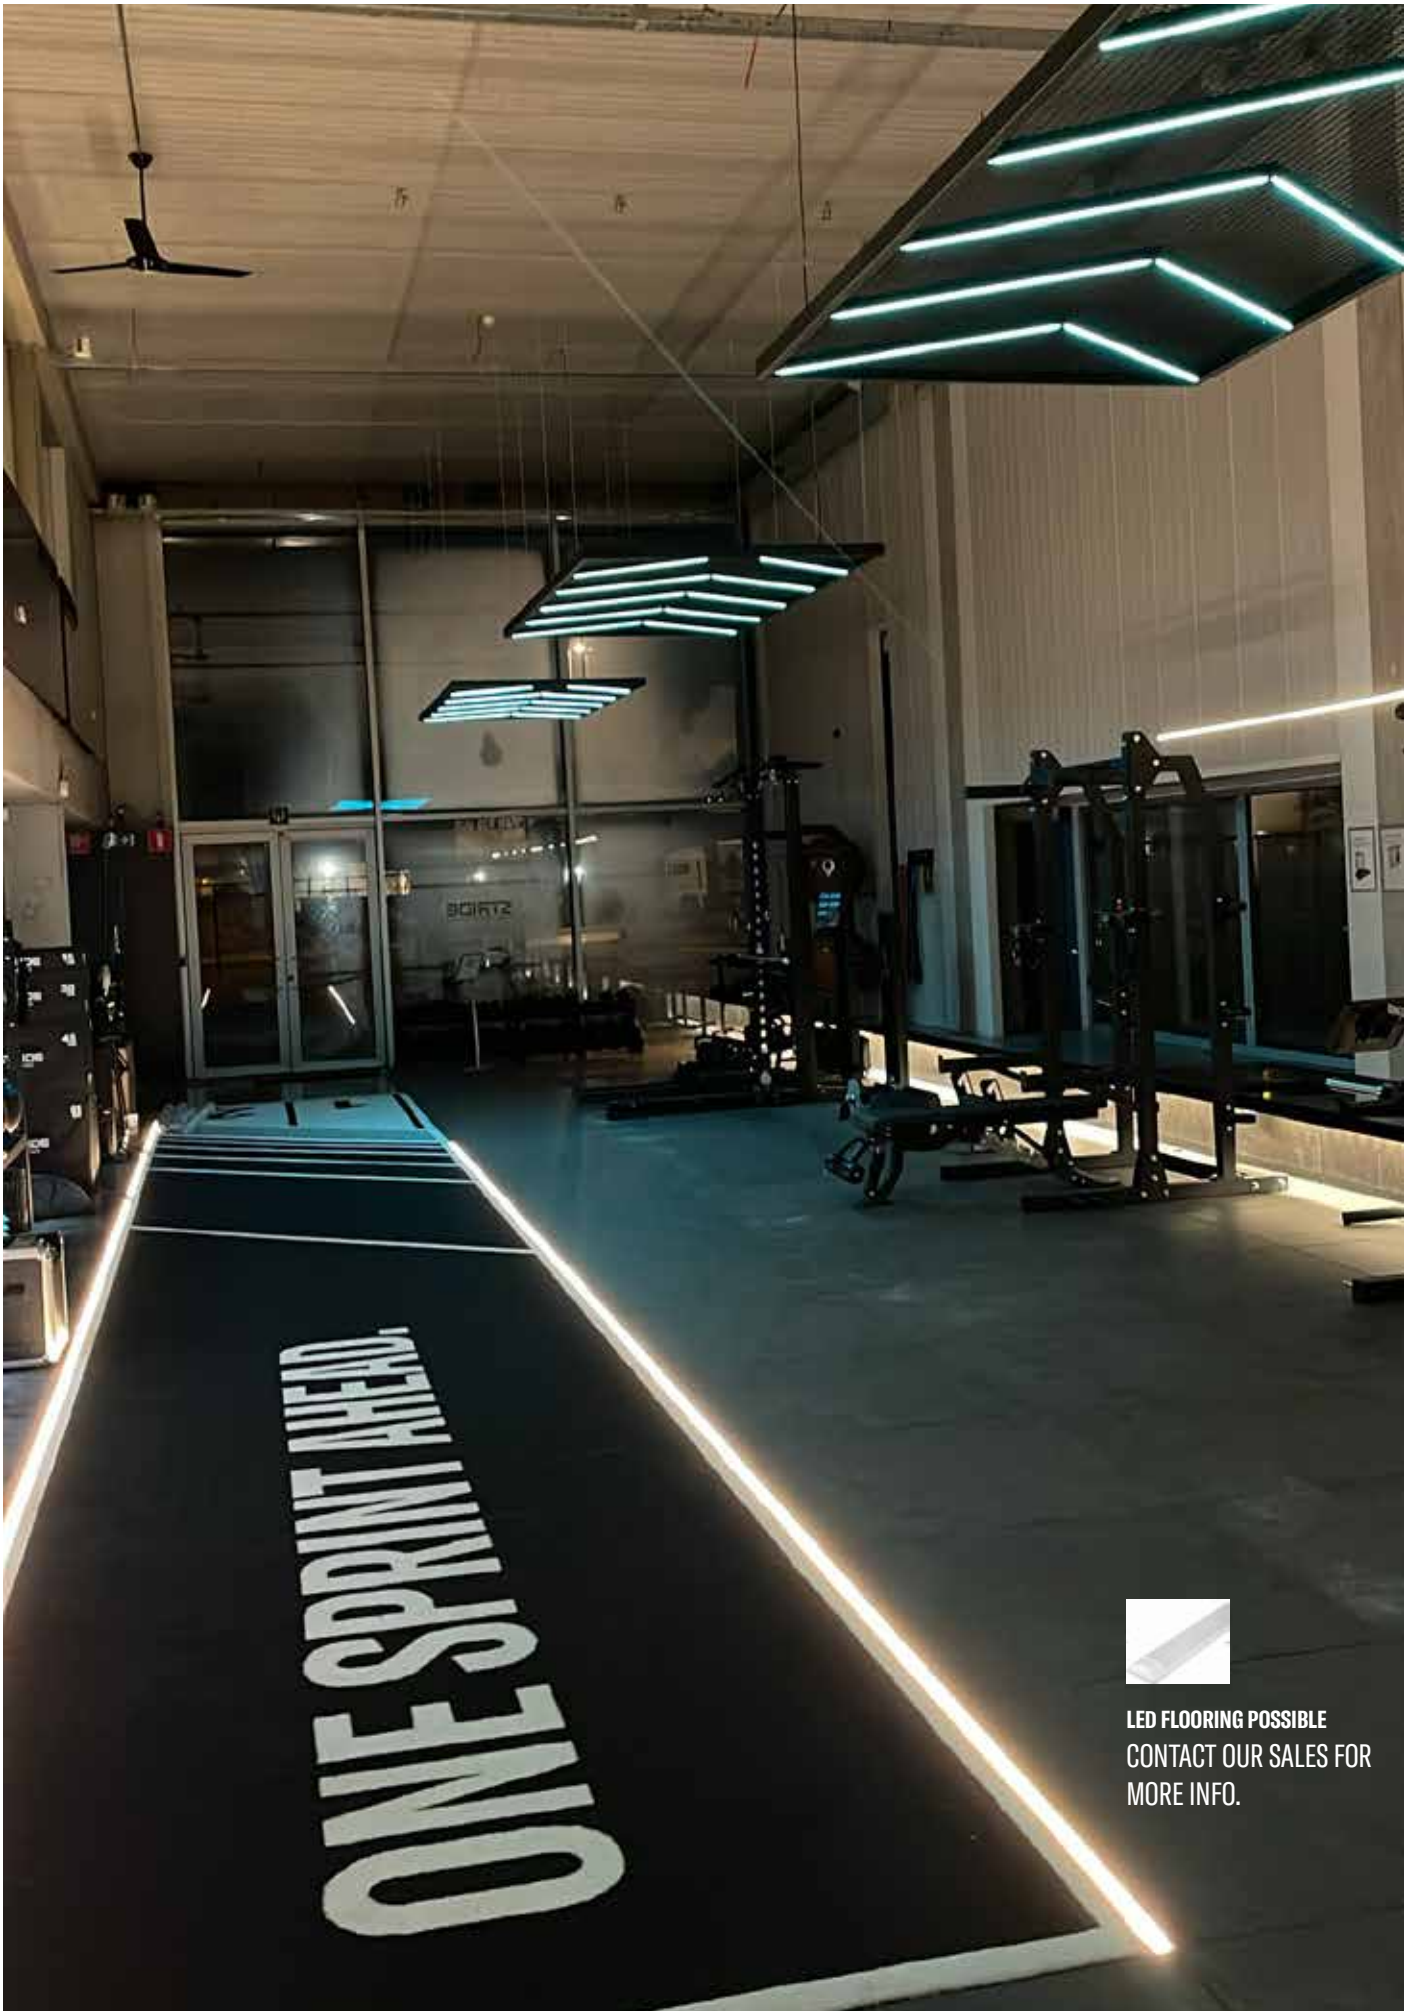

## MERCURY SYSTEM

Small square or large rectangular wall panels that can be easily combined to create new designs will certainly boost intensity of exercises (intense bright colours) or bring a calm subdued atmosphere (dark subdued colours).
