FRANCOIS VOCHELLE

François Vochelle - St Barths - 2018

A wide-angle aerial photograph capturing a coastal landscape at sunset. In the foreground, dark, rugged cliffs meet the ocean, with white waves crashing against the rocks. Beyond the coastline, a large body of water stretches towards the horizon. On the opposite shore, a town is nestled among several prominent, rounded mountains. The sky is a dramatic canvas of colors, transitioning from deep blue on the left to fiery orange and yellow on the right, with scattered clouds catching the light.
