Founded in 1984 by the iconic Renato Breda, a rider and passionate off-road enthusiast, Circuit Equipment was born from the racetracks and real-world motocross experience. His experience as a rider was the starting point for identifying, developing, and perfecting solutions that revolutionized the national market, bringing innovation, technology, and performance to the world of motorcycles.

Throughout its history, Circuit has established itself as a benchmark in the segment, expanding its operations beyond Brazilian borders. Today, the brand is present in more than 50 countries, with four strategically located international bases in Brazil, the United States, the United Arab Emirates, and Italy.

With a strong presence in the main Motocross, Enduro, and Supermoto championships, Circuit Equipment remains connected to the tracks, the riders, and the evolution of the sport, offering a complete line of products developed for those who live and breathe motorcycling, both on and off the track.

LOCK-ON

MA016-2B1 GY/BK

Lock-on style handgrip made from high-grip thermoplastic elastomer (TPE), featuring an internal tube and anodized aluminum ring for secure mounting and UV protection. Designed for quick and reliable installation without wire or glue, it includes an integrated throttle tube and is compatible with a wide range of off-road motorcycles. The diamond and hexagon pattern combines comfort and durability, with a soft contact area and rigid ends for impact resistance.

DISC COVER

BALISTICO

CD007

The Balistico Disc Cover is made from polypropylene with a carbon fiber-style texture and UV protection, offering high strength and durability. It features strategically placed air vents for effective cooling, keeping the brake system in optimal condition even under extreme conditions.

OFF-ROAD

FAST THROTTLE 2 & 4 STROKE

CA001 - 2 STROKES // CA005 - 4 STROKES

OFF-ROAD

ON-ROAD

CA001 - 001
BK

The 2-Stroke Fast Throttle is made from UV-protected nylon, providing fast and precise engine response, allowing maximum power with just a 1/4 turn. Ideal for off-road competition motorcycles and street bikes.

CA005 - 005
RD

CA005 - 001
BK

The 4-Stroke Fast Throttle features an aluminum body and a polypropylene tube with UV protection, providing fast and precise engine response, allowing maximum power with just a 1/4 turn. Ideal for off-road competition motorcycles and street bikes.
