Women's Fits

Gone are the days where women have to wear the same cut as men. Classic Sportswear has put women's performance front and centre, conducting working groups with elite female athletes to develop products specifically designed for women. We proudly offer new & improved kit that **enhances comfort and performance.**

Our women's fit jerseys are **tailored to a woman's shape**, with contouring in the shoulders, waist and hips resulting in an athletic, performance fit that is still feminine in appearance.

Our women's fit shorts are crafted to sit higher on the waist and are tapered through the hips, with the end product being a look and feel that is both modern and high performance.

Sponsor Placement

Customise your team kit with Premium Sponsor Placement.

Choose from a variety of locations indicated by the "P" on our templates.

Our expert design team will seamlessly integrate your logos into your kit for maximum impact.

Size Chart

We have a commitment to excellence in everything we do. If you're having trouble, talk to our experienced team and we'll tailor the perfect solution for you.
