ANNUAL

SPRING/FALL

Ever wish you could plant a food plot in the spring that could enhance your soil and fix nitrogen levels for your fall-planted plot? With four different annual clovers, CRUSH® Seeds of Science™ Fixin' Clover™ is quick to germ and helps to reduce weed competition during the spring and summer, while building a valuable source of green fertilizer by way of roots that fixate nitrogen. Speed of germination, maximized forage biomass and nitrogen fixation, support soil health and antler growth; making it the perfect choice for serious food plotters.

THE PERFECT 10™

Blend Contents: Forage Winter Wheat, Rye Grain, Forage Oats, Winter Peas, Crimson Clover, Ani-Crush™ Radish, Forage Collards, Ani-Crush™ Turnip, Ani-Crush™ Sugar Beets, and Rape

#24001 • 10 LB • \$29.99

#24014 • 20 LB • \$54.99

COVERAGE

10 lb • 1/4 Acre • Plants 11,000 square feet

20 lb • 1/2 Acre • Plants 22,000 square feet

ANNUAL

FALL

The Perfect 10™ is your ultimate food plot solution, combining 10 of the most preferred forages for white-tailed deer. This all-in-one blend was formulated specifically for use on Lee and Tiffany's personal hunting grounds, using 10 of their favorite seed varieties. Diversity and longevity are what makes this mix attractive to deer from the first day of the season to the last!

Plants 22,000 sq ft

ANNUAL

FALL

HOLY CLOVER

Blend Contents: Sainfoin, Yellow-Blossom Alfalfa,
Ani-Crush™ White and Red Clovers, and Creeping Alfalfa

#24015 • 20 LB • \$149.99

COVERAGE

20 lb • 1 Acre • Plants 44,000 square feet

Searching for an alternative to regular clover plots? Up your hunting game and spice up your food plots with this unique blend of Holy Clover, special alfalfas and premium clover varieties. Diversity and alternating maturity levels give deer available, preferred food options throughout the season. This food plot mix offers extreme drought tolerance, grazing resilience, and high protein content; giving you a food plot that is nutritious, delicious, and has incredible attraction!

PERENNIAL

SPRING/FALL

CLOVER ^{PLUS} ALFALFA

Blend Contents: Creeping Alfalfa, Yellow-Blossom Alfalfa, Ani-Crush™ White and Red Clovers, Select White Clovers, and Crimson Clover

#24012 • 10 lb • \$99.99

COVERAGE

10 lb • 1 Acre • Plants 44,000 square feet

PERENNIAL

SPRING/FALL

Grow incredible, lush recruitment plots that withstand heavy grazing pressure with CRUSH® Seeds of Science™ Clover Plus Alfalfa. This high protein, high forage mix contains the best perennial varieties preferred by white-tailed deer! After years of extensive testing and research, the Ani-Crush™ team developed what we call the perfect blend of premium clover and alfalfa. Different maturity times, means there will always be a preferred, ready-to-eat option for your deer herd.

PRO CLOVER

Blend Contents: Ani-Crush™ White and Red Clovers, Select White Clovers, Balansa Clover, and Crimson Clover

#24002 • 2 lb • \$24.99

#24011 • 8 lb • \$89.99

COVERAGE

2 lb • 1/4 Acre • Plants 11,000 square feet

8 lb • 1 Acre • Plants 44,000 square feet

PERENNIAL

SPRING/FALL

Put the knowledge and expertise of the pros to work in your food plot with CRUSH® Seeds of Science™ Pro Clover. After years of testing and research, the Ani-Crush™ team was able to develop what we call the perfect blend of clover varieties. Diversity of this blend maximizes forage biomass and protein content, supporting herd health and antler growth; making it the perfect choice for kill plots. These long-lasting perennials survive up to 5 seasons; going the extra mile for all season attraction!

PRO BRASSICA BLEND

Blend Contents: New Zealand Brassicas, Forage Collards, Ani-Crush™ Turnip, Ani-Crush™ Radish, and Forage Rape

#24003 • 2 lb • \$17.99

#24013 • 8 lb • \$59.99

COVERAGE

2 lb • 1/4 Acre • Plants 11,000 square feet

8 lb • 1 Acre • Plants 44,000 square feet

ANNUAL

FALL

Brassicas make the best fall kill plots! So, planting CRUSH® Seeds of Science™ Pro Brassica Blend for late season whitetail attraction is a no-brainer. We combined Lee and Tiffany's most trusted and preferred brassica varieties to create food plots that maximize tonnage and protein levels, while enduring extreme temperatures and drought tolerance. It's a real showstopper!

PRO SUGAR BEETS

Blend Contents: Ani-Crush™ Sugar Beets, Select Clovers, and New Zealand Brassicas

#24010 • 4 lb • \$44.99

COVERAGE

4 lb • 1/2 Acre • Plants 22,000 square feet

ANNUAL

SPRING

Create a field of nature's candy and offer your deer amazing late season attraction with CRUSH® Seeds of Science™ Pro Sugar Beets. This killer blend is a result of years of research and extensive testing, resulting in a tempting mix that deer can't resist. Sugar beets, premium brassicas, and superior clover varieties make this easily established food plot a Lakosky favorite. The exceptionally high sugar content of these premium sugar beets maximizes attraction and palatability; making this an irresistible sweet treat for whitetails!

PRO BEAN BLEND

Glyphosate Tolerant

Blend Contents: Soybeans

#24032 • 50 lb • \$139.99

COVERAGE

50 lbs • 1 Acre • Plants 44,000 sq ft

ANNUAL

SPRING

Give deer the beans they crave! Plant CRUSH® Seeds of Science™ Pro Bean Blend this spring and grow your next killer food plot. Beans are high in protein and offer crucial health and antler-boosting nutrients. This soybean/legume mix withstands heavy grazing pressure and produces large amounts of forage and grain including shatter-resistant varieties, giving your deer herd a continuous food source from spring through the hunting season!
