LAWN & GARDEN BATTERY RANGE

ABOUT US

EMPOWERING PERFORMANCE WITH EXPERT BATTERY SOLUTIONS

FULBAT is a French-based company established in 2005,
recognized as a trusted partner in both OEM and replacement markets.

Backed by strong technical expertise and industry experience, we develop innovative battery solutions designed to meet the evolving needs of our customers. Our comprehensive product range includes Starter, Industrial, and Motive Power batteries, covering a wide variety of applications.

Thanks to a robust global distribution network, FULBAT products are valued for their quality, performance, and reliability. Manufactured with advanced processes and certified to ISO 9001, ISO 14001, and IATF 16949 standards, our batteries and chargers consistently meet the highest industry requirements.

LAWN & GARDEN BATTERY INTRODUCTION

POWERING THE TOOLS OF TOMORROW

Whatever you operate, wherever you work, FULBAT powers your productivity.

Driven by performance and reliability, FULBAT offers a wide range of starter batteries specially designed to meet the demands of power equipment: lawn tractors, ride-on mowers, small tractors, robotic mowers, and many more.

Our batteries deliver what matters most: powerful starts, robust construction, maintenance-free technology, vibration resistance, and easy-to-use convenience, ensuring dependable operation in every working condition.

To complement our battery range, FULBAT also provides a complete line of chargers, boosters, and testers, offering the perfect solution to maintain, optimize, and extend your battery's lifespan.

With FULBAT, you get more than energy: you get peace of mind, wherever your work takes you.

LAWN & GARDEN APPLICATIONS

LAWN & GARDEN

ROBOT

FROM DRY TO LITHIUM TECHNOLOGY FROM PROFESSIONAL USE TO HOME GARDENING

Discover our battery technologies.

From reliable DRY batteries to cutting-edge LITHIUM solutions, FULBAT offers a complete range of technologies engineered to meet the demands of all lawn and garden machines. Each battery type (DRY, MF, GEL, and LITHIUM) is carefully developed to deliver the right balance of power, durability, and ease of use.

Whether for occasional use, regular maintenance, or intensive applications, there is a FULBAT battery perfectly suited to your lawn and garden equipment.

READY-TO-USE & NON-SPILLABLE

TECHNOLOGY

The **SLA** range is engineered to deliver **maximum performance**, reliability, and safety. Ready-to-use straight from the box, the **Sealed Lead-Acid (SLA)** battery requires no acid handling, no initial preparation, and no maintenance.

Its non-spillable design, combined with strong starting power and long-lasting performance, makes it the ideal solution **for all ride-on mowers and lawn tractors**.

NON-SPILLABLE

FEATURES

- » **Ready-to-use:** factory activated for immediate use
- » **100% maintenance-free:** no refilling required
- » **Non-spillable (VRLA):** safe to ship and handle
- » **Multi-positional fitment:** up to 90°
- » **Reinforced case:** extra durability for extreme conditions
- » **Extended service life:** designed for long-lasting reliability

COMPATIBLE CHARGERS

- » **Fulload 1000:** battery capacity up to 20Ah
- » **Fulload F4:** battery capacity up to 80Ah
- » **Fulload F10:** battery capacity up to 200Ah
- » **Fulbank F2:** battery capacity up to 40Ah

TECHNOLOGY

The **Ca/Ca** range is engineered to deliver high starting power and extended service life. Ready-to-use and easy to install, these batteries require **no acid handling** and are designed for **low water consumption**, ensuring completely **maintenance-free** operation throughout their lifespan.

FEATURES

- » **Ready-to-use:** factory activated for immediate use
- » **100% maintenance-free:** no refilling required
- » **Upright installation only:** no inclination
- » **Reinforced case:** extra durability for extreme conditions
- » **Extended service life:** designed for long-lasting reliability
- » **Integrated venting system:** safe release of gases and reduced pressure build-up
- » **Convenient handle:** easy transport and handling
- » **"Magic eye" charge indicator:** quickly shows battery status

COMPATIBLE CHARGERS

- » **Fulload 1000:** battery capacity up to 20Ah
- » **Fulload F4:** battery capacity up to 80Ah
- » **Fulload F10:** battery capacity up to 200Ah
- » **Fulbank F2:** battery capacity up to 40Ah

DRY

EASY TO STORE

TECHNOLOGY

The **DRY** range is designed to offer reliable starting power. Delivered with an acid pack, the DRY battery must be **activated before the first use** and must be checked periodically. DRY charged construction, no maintenance is necessary during a **long period of storage**.

FEATURES

- » **DRY charged construction:** safe and easy to handle
- » **Acid pack included:** to be filled before first use
- » **Periodic maintenance & refilling:** ensures long-term reliability
- » **Upright installation only:** no inclination
- » **Standard service life:** dependable performance for everyday use
- » **Unlimited shelf life:** long-term storage

COMPATIBLE CHARGERS

- » **Fulload 1000:** battery capacity up to 20Ah
- » **Fulload F4:** battery capacity up to 80Ah
- » **Fulbank F10:** battery capacity up to 200Ah
- » **Fulbank F2:** battery capacity up to 40Ah

Under European Union regulations effective February 1st, 2021, batteries with separate acid packs can no longer be sold to end users. Only qualified professionals may purchase batteries supplied with electrolyte packs.

GENERAL PURPOSE APPLICATIONS

TECHNOLOGY

The **VRLA** batteries are general purpose batteries with 5 years design life in **float service**. With advanced AGM **valve regulated** technology, these batteries ensure high performance and reliability. They can also be used for **light cycling** use.

NON-SPILLABLE

FEATURES

- » **AGM technology:** reliable power and long-lasting performance
- » **100% maintenance-free:** no servicing or topping up required
- » **Non-spillable:** safe to handle and easy to ship
- » **Multi-positional fitment:** install in any orientation
- » **Low gassing:** safe operation with minimal gas release
- » **Long shelf life:** ready-to-use after extended storage
- » **Excellent cycling & stationary performance:** consistent power for all applications

COMPATIBLE CHARGERS

- » **Fulload 1000:** battery capacity up to 20Ah
- » **Fulload F4:** battery capacity up to 80Ah
- » **Fulbank F2:** battery capacity up to 40Ah

ROBOT

POWERFUL & SAFE

TECHNOLOGY

The **FL Series** offers a complete range of batteries specifically designed for **robotic mowers**, built to handle **intensive charge and discharge** cycles. Equipped with high-quality, high-capacity Lithium cells, this range delivers **extended autonomy**, ensuring your robot mower works **efficiently and reliably** for longer periods.

FEATURES

- » **Compatible battery type:** *matching original equipment standards*
- » **High cycle life:** *long-lasting performance over repeated charges*
- » **High autonomy:** *exceeds original battery capacity for extended mowing time*
- » **High-quality Lithium cells:** *reliable power and consistent performance*
- » **Very safe thanks to integrated BMS:** *protects against overcharge, over-discharge, and short circuits*

CHARGERS

COMPACT CHARGER & MAINTAINER

FULLLOAD 1000 P/N: 750514

Battery compatibility: Lead-acid & Lithium (LiFePO4)

Battery voltage: 6V/12V

Charging rate: 1A

Charging stages: 3

Battery capacity: Up to 20Ah (maintains all sizes)

FEATURES

- » **Wide compatibility:** for 6V/12V Lead-acid batteries and 12V LiFePO4 batteries
- » **4 charge modes:** to suit different battery types and conditions
- » **Simple operation:** connect, select charge mode and forget
- » **Clear LED display:** easy-to-read indicators for charging status
- » **Very safe:** protected against short circuits, reverse polarity, overcharging and overheating

COMPATIBILITY

CHARGERS

POWERFUL CHARGER & MAINTAINER

FULLLOAD F4 P/N: 750515

Battery compatibility: Lead-acid & Lithium (LiFePO4)

Battery voltage: 6V/12V

Charging rate: 2A/4A

Charging stages: 8

Battery capacity: Up to 80Ah (maintains all sizes)

FEATURES

- » **Wide compatibility:** for 6V/12V Lead-acid batteries and 12V LiFePO4 batteries
- » **7 charge modes:** to suit different battery types and conditions
- » **Simple operation:** connect, select charge mode and forget
- » **Clear LED display:** easy-to-read indicators for charging status
- » **Very safe:** protected against short circuits, reverse polarity, overcharging and overheating

COMPATIBILITY

CHARGERS

ULTRA-POWERFUL CHARGER, MAINTAINER & POWER SUPPLY

FULLLOAD F10 P/N: 750522

Battery compatibility: Lead-acid & Lithium (LiFePO4)

Voltage: 6V/12V

Charging rate: 2A/10A

Charging stages: 3

Battery capacity: Up to 200Ah (maintains all sizes)

FEATURES

- » **Wide compatibility:** for 6V/12V Lead-acid batteries and 12V LiFePO4 batteries
- » **5 charge modes:** to suit different battery types and conditions
- » **Power Supply function:** provides a stable output to power the vehicle's electronics during maintenance or battery replacement.
- » **Simple operation:** connect, select charge mode and forget
- » **Clear LED display:** easy-to-read indicators for charging status
- » **Very safe:** protected against short circuits, reverse polarity, overcharging and overheating

COMPATIBILITY

2-BANK CHARGER & MAINTAINER

FULBANK F2 P/N: 750523

Battery compatibility: Lead-acid & Lithium (LiFePO4)

Voltage: 6V/12V

Charging rate: 2x2A

Charging stages: 8

Battery capacity: Up to 40Ah (maintains all sizes)

2^{IN}
ONE

COMPATIBILITY

FEATURES

- » **Wide compatibility:** for 6V/12V Lead-acid batteries and 12V LiFePO4 batteries
- » **2 channels:** charges and maintains 2 batteries with different voltage and technologies at once
- » **4 charge modes:** to suit different battery types and conditions.
- » **Simple operation:** connect, select charge mode and forget
- » **Clear LED display:** easy-to-read indicators for charging status
- » **Very safe:** protected against short circuits, reverse polarity, overcharging and overheating

BOOSTERS

BOOSTER, POWERBANK & FLASHLIGHT

FULBOOST P/N: 750553

Start current: 800A

Peak current: 1600A

FEATURES

- » Compact & powerful Lithium booster rated at 1600A
- » For vehicles equipped with a 12V Lead-acid battery
- » Designed for gas engines up to 7.0L and diesel up to 6.0L
- » Ultra-safe thanks to smart cable technology:
spark-proof, short-circuit & reverse polarity protection
- » Charger for all types of USB devices
- » Ultra-bright 150-lumen LED flashlight with 3 modes

3 IN ONE

BOOSTER

For 12V vehicles

POWER BANK

For all electrical devices

FLASHLIGHT

Constant, SOS, Strobe

BOOSTER, AIR COMPRESSOR, POWERBANK & FLASHLIGHT

AIRBOOST P/N: 750595

Start current: 800A

Peak current: 1600A

Maximum air pressure: 10.4 bar/150 PSI

Rated air flow output: 28L/min

4 IN ONE

BOOSTER

For 12V vehicles

AIR COMPRESSOR

4 adjustable presets

POWER BANK

For all electrical devices

FLASHLIGHT

Constant, SOS, Strobe

FEATURES

- » Compact & powerful Lithium booster rated at 1600A
- » For vehicles equipped with a 12V Lead-acid battery
- » Designed for gas engines up to 7.0L and diesel up to 6.0L
- » Ultra-safe thanks to smart cable technology: spark-proof, short-circuit & reverse polarity protection
- » Inflate tires (car, motorcycle, bike) and balls with built-in air compressor
- » Charger for all types of USB devices
- » Ultra-bright 240-lumen LED flashlight with 3 modes

TESTERS & ACCESSORIES

BATTERY PERFORMANCE & HEALTH MONITORING

FULTEST1 P/N: 750702

Function: Battery & alternator tester

- » For 12V Lead-acid batteries only
- » Test the condition of the battery and alternator
- » Checks the vehicle's starting ability
- » The ideal tool to verify the battery's state of charge

FULCONNECT INDICATOR P/N: 750516

Function: Battery tester

Chargers compatibility: Fulload 1000/Fulload F4/Fulbank F2

- » For 12V Lead-acid batteries only
- » Ideal solution when the battery is difficult to access
- » To check the battery's state of charge with its 3 integrated LEDs
- » 500 mm wire length
- » M8 eyelet terminals

TESTERS & ACCESSORIES

FULTEST2 P/N: 750521

Function: Battery & alternator tester

- » For all 12V vehicle and motorcycle batteries (Lithium & Lead-acid)
- » 3 battery tests: cold cranking amps, voltage, internal resistance
- » Alternator and cranking system tests
- » Easy to read thanks to the large LCD screen

FULCONNECT P/N: 750507

Chargers compatibility: Fulload 1000/Fulload F4/Fulbank F2

- » For 12V Lead-acid & Lithium batteries
- » Ideal solution when the battery is difficult to access
- » 600 mm wire length
- » M6 eyelet terminals
