MyDATA PRIVACY FILTER

ABOUT PALO

PALO is a leading brand specializing in premium-quality ergonomic and wellness solutions. Our mission is simple—to protect the health, comfort, and productivity of today's workforce. From desks to digital screens, we create tools that support better posture, eye comfort, and peace of mind.

In a world where work happens everywhere - offices, cafés, airports - your screen and your eyes are always exposed. That's why we bring digital protection with advanced privacy and blue light filters designed for working professionals.

PALO PRIVACY FILTER

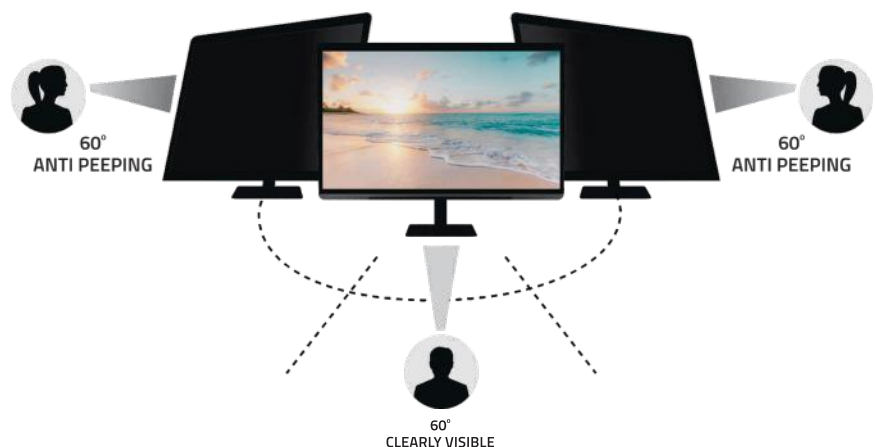

Visual hacking may sound like a tech thriller plot, but it's a growing risk in real life. A single glance at your screen by the wrong person can expose passwords, financial data, or confidential files.

PALO Privacy Filters are your first line of defense—they narrow the viewing angle so only you can see the screen, even in crowded or shared spaces.

BENEFITS

- Provides 30-degree side view protection.
- Helps reduce digital eye strain by effectively blocking blue light and harmful UV rays.
- Maintains screen clarity in all lighting conditions with an advanced anti-glare coating.
- Offers hassle-free maintenance thanks to its scratch and dust-resistant surface.
- Allows for quick and flexible installation.

Whether working in a café, a coworking space, or even your office, PALO Privacy Filters protect your screen, data, and focus.

PALO GOLD PRIVACY FILTER

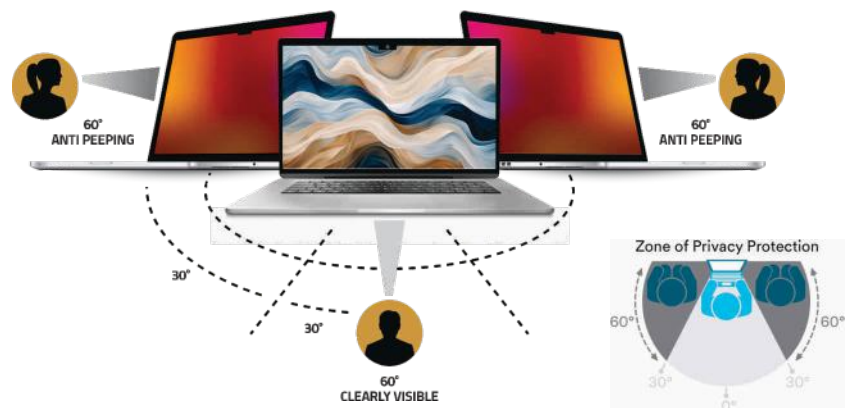

PALO®
Makes Life Easy

WHEN PRIVACY MEETS LUXURY.

The PALO MyDATA Gold Privacy Filter offers high-end screen protection with a sleek, stylish golden finish. Designed for professionals who want both security and sophistication, it blocks unwanted views while giving your device a distinct premium edge.

BENEFITS

- Features a golden tint for a stylish, premium look that complements modern devices.
- Designed for dual-sided use, featuring gold on one side and black on the other.
- Provides 30-degree side view protection.
- Helps reduce digital eye strain by effectively blocking blue light and harmful UV rays.
- Maintains screen clarity in all lighting conditions with an advanced anti-glare coating.
- Offers hassle-free maintenance thanks to its scratch- and dust-resistant surface.
- Allows for quick and flexible installation

PALO BLUE LIGHT FILTER

Long hours in front of screens can leave your eyes dry, strained, and fatigued. That's where the PALO MyDATA Blue Light Filter comes in. It's built to filter out harmful blue light and UV rays, helping you power through busy workdays without the burnout.

BENEFITS

- Reduces digital eye strain & headaches.
- Blocks harmful blue light & UV.
- Anti-glare & dust-proof.
- Perfect for long meetings, remote work & screen-heavy tasks.
- Scratch-resistant & easy to install.
- Stay focused, stay fresh with every screen hour made safer.

Whether you're coding, designing, analyzing data, or managing projects, PALO Blue Light Filters help you stay productive - without the burnout.
