# How To Use Install Your Pet Care App on an Android or Apple Device

Do I have to find and install a native app from Apple or Google Play on my phone?

Answer: No, you use what is called a Progressive Web App which means you do not have to find, install or need to update the CCC Pet Care app. Just use a browser.

## INSTALLING ON ANDROID DEVICES

An Install this app button will show on your Login page when you visit your Pet Care App URL

<https://clients.corks Critter Care.com>

Then all you need to do is click Install this App from your mobile device or tablet and the App will automatically install an CCC Logo icon on your android. When the Icon is clicked the app will be launched for you to login.

## INSTALLING ON APPLE DEVICES

Use the SAFARI browser on your Apple iOS device and navigate to your Pet Care App URL <https://clients.corks Critter Care.com>

Look at the bottom of the browser for the toolbar and touch the SHARE button.

Scroll right and tap the Add to Home Screen icon.

Type in a new name if you wish and click Add.

Check your Home Screen (or one of the other screens) and verify that you can now easily access Corks Critter Care Pet Care mobile app.

# Use Your Portal Any time

Make changes or you may just need some interesting additional information like educational articles about pet care that we provide regularly in your files and folders.

After the App is on your device you can move it around, place it in folders, etc., just like any other app. If you need to uninstall it, it's the same process as any other app.
