CREATIVE CARPET INC

MAY 2011

Hi all!

Great news! Warm weather is here; everything is turning green and blooming! This is also a new season at Creative Carpet – thanks to your continued support and referrals.

Our family is also growing, and we recently hired more staff to better serve you. If you are ever in the area, stop on in for a cup of coffee and meet our new salesman!

On a separate note, we really appreciate all the calls and notes wishing a speedy recovery for my father. It means a lot to us. He is now in physical therapy and improving slowly. The therapy was put on hold after having had another procedure in early February. Though the road to recovery is long, we are all still very hopeful. Knowing there are many out there praying and thinking of him is very encouraging.

Happy Mother's Day and many blessings! Mark Bouquet Jr

Happy Mother's Day from all of us at Creative Carpet!

Moneywise: Tips for Teens

It's never too young to start learning about money. Here are some suggestions that will serve young people well all their lives:

- Don't spend every cent of your income many teens have part-time jobs or allowances, or both. A great majority of them spend it all on music, movies, clothing, or whatever they please. It's a very good idea to establish the saving habit young.
- Invest in yourself this is the best time of your life to put money into your own future. Build the qualifications for a realistic career in a profession that suits your talents and inclination.
- If you don't know what that career might be, try interning or volunteering in a few of the fields that appeal to you.
- Don't overdo the debt it's unrealistic to build up a huge student debt if your prospective wages are much lower. You often see the Rule of 10 quoted: you must land a job that pays \$10,000 more than your total student loan to pay it off within ten years. This assumes you pay 10% a year.
- Get a realistic idea of what your future costs will be. Many teens are unaware of the details, and under- estimate bills by a large factor. Find out how much it actually costs to rent/buy that condo you crave!
- Don't abuse credit cards they will come back to bite you. If you must have one, always make your payments on time and pay attention to the monthly statements.
- Watch your bank fees! Unless you have a package plan, your account can be nibbled away by the charges on small debit card purchases. Try taking out the budgeted amount for the week in cash, pay for your lattes with that, but when it's gone, it's gone.

A HELPING HAND: Tell us if you or your family are doing something to benefit others. Such as...check out the pictures of Kailey Ledesma on the next page and her heart to help those with cancer. We would love to highlight you in one of our upcoming newsletters.

About Staying Well - An Apple a Day

The old adage, "an apple a day keeps the doctor away", won't help you in many cases, but the humble apple has a lot going for it.

Bone Protection – phloridzin & boron may strengthen bones

Cholesterol – pectin lowers LDL (bad cholesterol)

Diabetes – pectin supplies galacturonic acid, which may help in the management of diabetes

Cancer Prevention – apple eaters, in a number of studies including one at Cornell University, seem to have a lower rate of incidence of a number of cancers

Weight Maintenance – apples make a good between-meal snack, providing fiber and nutrients

Antioxidants – apples are high in quercetin, a potent antioxidant

Immune System – quercetin boosts the immune system too

Regularity – it's all about the fiber!

Teeth – "Apples, for example, have been called nature's toothbrush because they stimulate the gums, increase saliva flow and reduce the build-up of cavity-causing bacteria." (World Dental. Org)

Work Tips – Friendship in the Workplace

Being friends with your co-workers certainly beats being their enemies, but there are points on both the plus and minus sides of the ledger.

PLUS:

- Collegial atmosphere the days pass more pleasantly in a friendly environment
- Networking in the workplace you may build relationships that benefit your career down the road
- Positive collaboration a team approach facilitates creative production

MINUS:

- Bad behavior may go unreported when friends are involved
- TMI sharing too much information can cause problems if your confidant spills the beans or is promoted to become your boss
- Slacking off friends inclined to goof off can cover for each other

In most cases though, the pluses prevail. Employees are more productive, happier and less likely to call in sick if the work environment is positive. Just use your common sense.
