OUR ORIGINS

In 1925, our founder set out to provide the best retail experience he could, starting with the humble hanger. He invested his meager earnings into machinery, and his journey took off - in New York City, the fashion capitol of the US. Thus, National Hanger Company (NAHANCO) was born.

Over 100 years later, our mission remains the same. We are the industry's most trusted and reliable supplier of quality retail products, and we strive for excellent customer-first service and satisfaction.

As a US-based company, we provide equal pay jobs to local workers, and we support communities right here in America.

MADE IN AMERICA & SOURCED GLOBALLY

SUSTAINABILITY

One of the most important and sensitive topics on the planet today - especially as it applies to the business world. NAHANCO endeavors to be ever more sustainable with each passing year.

SUSTAINABILITY AND NAHANCO HANGERS:

WOOD

All of our Wood Hangers are made from sustainable materials - Lotus wood and Bamboo - that are grown in China.

PLASTIC

Plastic Hangers have a useable shelf life of over ten years. And if damaged, the hanger can be recycled. We recycle our own scrap plastic from the manufacturing process.

Every manufacturing process produces a little excess that doesn't meet standards.

RECYCLED PLASTICS

Our black hangers are made of up to 80% internal and external recycled plastic material. All other hangers we manufacture use up to 20% of internal recycled plastic.

We're reducing waste, conserving resources, and keeping production right here in the USA. NAHANCO continues to innovate for a more sustainable future.
