ABOUT US — THE MERRITT LEGACY

Merritt is a fifth-generation, family-owned business based in Pompano Beach, Florida, with roots going back to the early 1940s. What began as a family of charter fishermen quickly evolved into something more. In building and maintaining our own boats, we saw an opportunity — and Merritt Boat and Engine was born.

We made our mark on the sportfishing world with the now-legendary 37' Merritt, and today our custom builds extend up to 88 feet in length. Over the years, our business has grown to include a full-service marina, yacht brokerage, marine insurance, and wholesale marine supplies. If you're in the sportfishing industry, chances are you already know the name "Merritt."

Merritt Marine Supply came to life over 40 years ago, driven by demand for the same high-quality materials we used in our own yacht construction. While we started by supplying boatyards and builders, it didn't take long for our product lines to expand into aviation and industrial markets. Today, we operate as Merritt Supply, serving professionals across marine, aviation, and industrial sectors.

Our approach to business is simple: provide excellent service at every step of the customer experience. Whether you're a long-time client or just getting to know us, we're committed to delivering the quality, consistency, and service Merritt is known for.

Thank you for being part of our story — and letting us be part of yours.

VISIT OUR WEBSITE

We've redesigned our website to make your ordering experience faster, easier, and more efficient — so you can spend less time searching and more time getting things done.

INFORMATION & POLICIES

1. INTRODUCTION

Welcome to Merritt Marine Supply Inc ("Company," "we," "us," or "our"). These Terms and Conditions govern your use of our wholesale distribution website www.merrittsupply.com. By accessing or using our website, you agree to comply with these terms. If you do not agree, please refrain from using our website.

2. DEFINITIONS

- "User" refers to any individual or entity that accesses or uses our website.
- "Products" refer to the goods available for purchase on our website.
- "Orders" refer to the requests placed by users to purchase our products.
- "Account" refers to the registered profile created by users for transactions.
- "Payment Provider" refers to third-party services handling payments securely on our behalf.
- "Third-Party Service Provider" refers to entities that assist us in providing services, such as logistics, payment processing, and website maintenance.

3. ELIGIBILITY

By using our website, you confirm that you are at least 18 years old and have the legal capacity to enter into a binding agreement. If you are using the website on behalf of a business entity, you represent that you have the authority to bind the entity to these Terms.

4. ACCOUNT REGISTRATION

- Users may be required to register an account to make purchases.
- You agree to provide accurate and up-to-date information during registration.
- You are responsible for maintaining the confidentiality of your login credentials and are liable for any activities under your account.
- We reserve the right to suspend or terminate accounts that provide false or misleading information.

5. ORDERS AND PAYMENT

- All orders are subject to availability and confirmation.
- Prices are listed in U.S. Dollars (USD) and may change without prior notice.
- We accept payments via credit card, ACH, check, and other methods as approved.
- All invoices are COD (Cash on Delivery) or PREPAID, unless credit terms have been established and confirmed in writing.
- Payment processing is handled by our Payment Provider, and we are not responsible for errors or security breaches on their end.
- We reserve the right to cancel or refuse any order at our discretion. If your order is canceled after payment, you will receive a full refund.

6. SHIPPING AND DELIVERY

- Shipping times provided are estimates and may vary.
- We are not liable for delays caused by third-party carriers, customs processing, or force majeure events.
- Risk of loss transfers to the buyer upon shipment.
- Users must provide accurate shipping information. We are not responsible for failed deliveries due to incorrect information.

7. INSPECTION OF GOODS

- Buyers are required to inspect goods upon delivery and notify Merritt Marine Supply Inc of any discrepancies or damages within 24 hours of receipt.
- Any failure to report issues within this time frame will be considered acceptance of the goods as is, and no claims will be accepted beyond this period.

8. RETURNS, REFUNDS, AND EXCHANGES

- Returns are accepted within 30 days of the purchase date, subject to the following conditions:
- Products must be unused, undamaged, and in original packaging.
- Customers must provide proof of purchase (invoice number and date).
- Return shipping costs are the responsibility of the buyer.
- Special Order Items: Products that are custom-made or specially ordered are non-returnable and non-refundable.
- Refunds are processed to the original payment method within 5–7 business days

after return approval.

- Merritt Marine Supply Inc reserves the right to deny returns that do not meet these conditions.

9. SHELF LIFE POLICY

- Unless a specific shelf life requirement is agreed upon in writing at the time of order, shelf life will not be accepted as a valid reason for return.
- Products delivered with a reasonable and usable shelf life, as commonly accepted in the industry, are considered acceptable and not eligible for return or refund.
- It is the buyer's responsibility to communicate any required shelf life expectations prior to placing the order. Products shipped without such specifications will be deemed final sale.

10. PRODUCT USE, STORAGE, AND LIABILITY

- Buyers are responsible for the proper use, handling, and storage of all products in accordance with manufacturer guidelines and industry standards.
- Merritt Marine Supply Inc is not liable for damages, malfunctions, or injuries resulting from misuse, improper storage, modification, or neglect after delivery.

11. INTELLECTUAL PROPERTY

- All content, including but not limited to text, images, graphics, trademarks, and logos, is the property of Merritt Marine Supply Inc and protected by intellectual property laws.
- You may not copy, reproduce, distribute, or modify any content without our prior written consent.

12. PROHIBITED ACTIVITIES

Users agree not to:

- Use our website for illegal or fraudulent purposes.
- Interfere with or disrupt the website's operation.
- Attempt to gain unauthorized access to any part of the website.
- Misrepresent their identity or affiliation with any entity.

13. LIMITATION OF LIABILITY

- To the fullest extent permitted by law, Merritt Marine Supply Inc is not liable for any indirect, incidental, punitive, or consequential damages arising from the use of our website or products.
- Our total liability for any claim shall not exceed the amount paid for the disputed order.

14. INDEMNIFICATION

You agree to indemnify and hold Merritt Marine Supply Inc harmless from any claims, damages, liabilities, or expenses arising from your use of our website, violation of these Terms, or infringement of any rights of a third party.

15. GOVERNING LAW AND DISPUTE RESOLUTION

- These Terms shall be governed by and construed in accordance with the laws of the State of Florida.
- Any disputes arising under these Terms shall first be attempted to be resolved through good faith negotiations. If unresolved, they shall be submitted to binding arbitration in Florida.

16. CHANGES TO TERMS

We may update these Terms and Conditions at any time. The updated version will be posted on our website, and continued use of the website constitutes acceptance of the changes.

Available in 2-gal kit or 1/2-gal kit.

Tuff Stuff™ Low VOC

- ▶ Highest build low VOC epoxy primer
- ▶ Complies with strict California Air Quality VOC limits
- ▶ Low VOC's (280 grams/liter)
- ▶ 1:1 two-part ratio for easy mixing

Compare with: Interprotect**, Pettit Protect 4700*

Gray 1286

White 1287

Available in 1-gal kit

Primer Systems

1277 Bottom Paint Primer™

- ▶ Anti-corrosive bottom paint primer
- ▶ Ideal for priming any unknown antifoulant
- ▶ Indefinite overcoat window

Compare with: Primocon**, Tie Coat 6627*

1266 Non Sanding Primer™

Designed for use on new fiberglass hulls when sanding is prohibited by the manufacturer. 1266 softens existing gelcoat to create an adequate chemical bond.

S-75 & S-75-C Alumi-Chrome

Alumi-Chrome is a zinc chromate vinyl butyral washcoat (sometimes referred to as a wash primer) used as a pretreatment for aluminum hulls prior to primer and antifouling application.

SH-984 Shawkocon™

- ▶ Conversion/barrier/sealer coating over tin-based antifouling and unknown well-adhered antifoulant
- ▶ Excellent barrier coat for underwater metals

Compare with: Primocon**, Tie Coat 6627*

1255 Black Barrier Coat

1255 provides heavy duty exposure protection above and below the waterline on most substrates. Meets or exceeds requirements of the Corp. of Engineers Specification C-200 and other specs.

S-76 Tack Coat Primer

S-76 is an anti-corrosive strontium chromate-based primer designed for underwater metal surfaces, including metal hulls and running gear. S-76 should be used in conjunction with another primer, such as Tuff Stuff, prior to applying antifoulant or topcoat.

Achieving a perfect paint finish has never been easier.

When you need the best results on painted surfaces, use 3M™ Perfect-It™ EX Paint Finishing System for optimal performance every time. The unique formulas quickly remove scratches, swirls and other surface defects. Plus their easy cleanup helps reduce process time.

The compounds and polishes in our 3M™ Perfect-It™ EX Paint Finishing System have chemicals formulated for paint oxidation and were created to allow long wet times on painted surfaces with minimal swirl.

3M™ Perfect-It™ EX AC Rubbing Compound

3M™ Perfect-It™ EX AC Rubbing Compound is our best-performing rubbing compound for removing P1200+ sand scratches and surface defects before polishing on multiple different paints and clear coats. It is formulated to perform in all conditions, including high heat and humidity, without sticking to panels or leaving film residue. It delivers a longer working time, yet still reduces sling for easier cleanup.

THE SMARTER, STRONGER ALTERNATIVE TO PLYWOOD

Coosa Composite panels deliver unmatched strength, durability, and performance – with none of the drawbacks of traditional plywood.

✓ **Lightweight Efficiency**

Up to 60% lighter than plywood, reducing overall weight and improving fuel economy.

✓ **100% Rot-Free**

Resistant to water, rot, mold, and insects – even after years of exposure.

✓ **Superior Strength**

Reinforced with fiberglass for strength that holds up under pressure.

✓ **Saves Money Over Time**

Fewer repairs and replacements = more value for your dollar.

✓ **Easy to Work With**

Cuts, screws, and machines like wood – but performs like a high-end composite.

✓ **Thermal & Moisture Resistant**

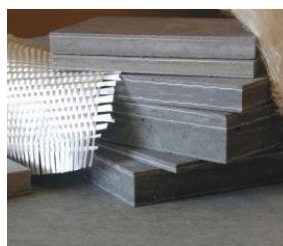

Higher insulation (R-value) and stability in wet or hot environments.

The toughest sealants on the sea

Whether you're bonding trim, toe rails, fittings or fiberglass deck components, or sealing thru-hulls, hatches, hinges, trunk joints or almost anything else on a marine vessel, 3M has an adhesive sealant that's proven to the task. Our products have set the standard for marine excellence for more than 50 years, and they now include a new generation of advanced polyurethane and silane-modified polymers (SMPs) that further expand their range and effectiveness.

3M™ Marine Adhesive Sealants are specifically designed for the rigors of the marine environment, bonding or sealing everything from wood, metal and glass to gelcoat and most plastics—including fiber-reinforced plastic (FRP). Boaters have no better friend on the water.

3M™ Marine Grade Silicone Sealant

- A high quality silicone sealant designed specifically to withstand the rigors of harsh marine environments
- Forms a non-yellowing seal that remains flexible even after years of exposure
- Mildew resistant, non-sagging and moisture curing
- Adheres to bare and painted metal, fiberglass, glass, non-oily woods, and many plastics and abraded rubbers

3M™ Marine Adhesive Sealant 3000 UV

- A single-component, elastomeric sealant that cures without isocyanates
- Excellent cosmetic sealant; will not degrade when exposed to UV
- Low VOC, 50-minute skin time, paintable when wet
- Ideal for port hole and general cosmetic seam sealing

3M™ Marine Adhesive Sealant Fast Cure 4000 UV

- A high performance, color-stable adhesive sealant that can be removed if rework or repair is necessary
- Flexibility helps dissipate stress caused by shock, vibration, swelling or shrinking
- Ideal for installing thru-hull fittings and deck hardware where a durable seal is required and where cosmetics are important, both above and below the waterline

3M™ Marine Adhesive Sealant Fast Cure 4200

- Medium-strength adhesive allows for disassembly of parts after prolonged use
- Forms watertight, weather-resistant seals on hardware and in joints both above and below the waterline

3M™ Marine Adhesive Sealant 5200

- An exceptionally strong, high performance polyurethane
- Creates extremely strong bonds, above and below the waterline
- Maintains its flexibility, absorbing shocks, vibrations, swelling, shrinking and structural movements
- Tack free in 24-48 hours; cures in 5-7 days without shrinking
- Ideal for large surface-area applications requiring long open times

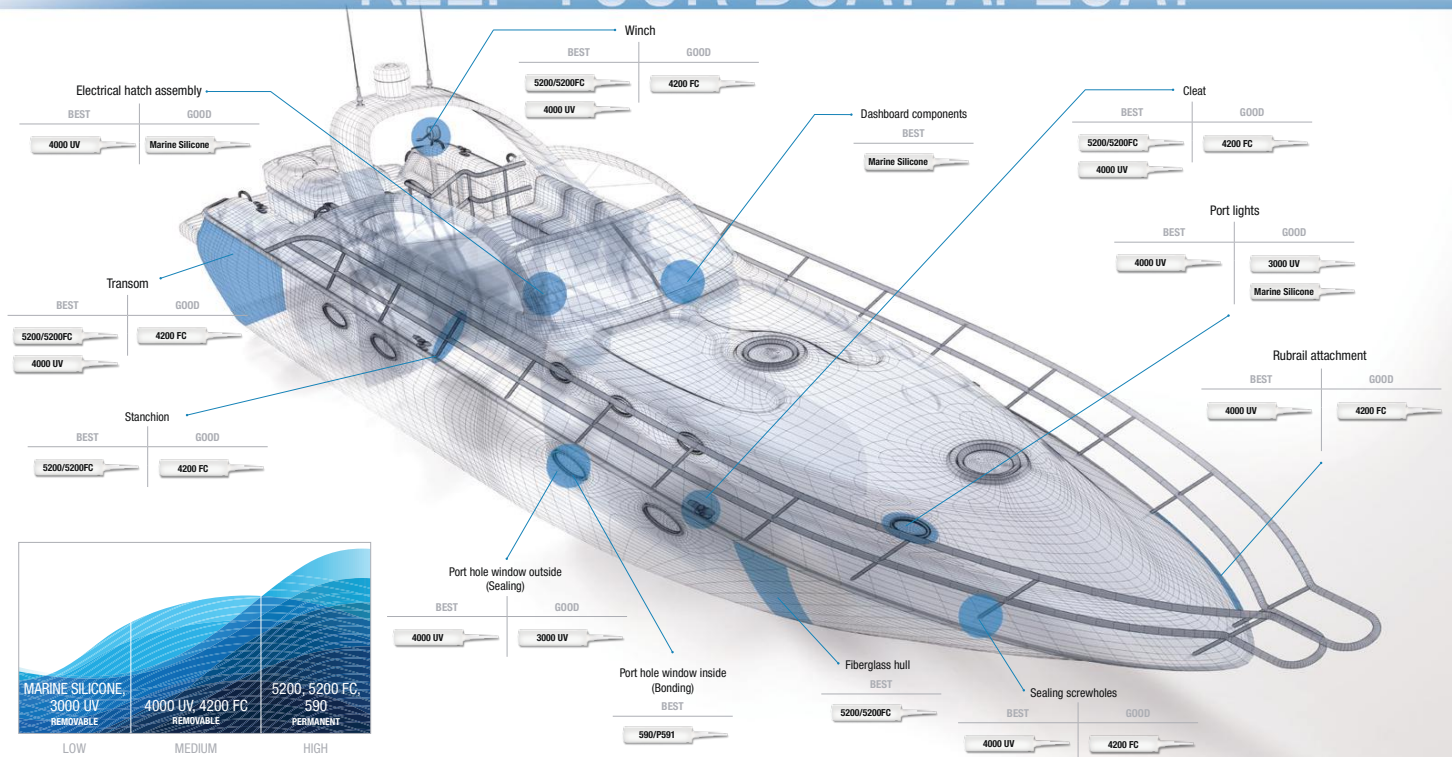

3M™ Marine Adhesive Sealant Fast Cure 5200

- Fast-cure version of 3M™ Marine Adhesive Sealant 5200
- Tack free in 1 hour; completely cures within 24 hours
- Ideal for applications requiring a fast, long-term seal, above or below waterline:
 - hull to deck seams
 - wood to fiberglass
 - marine hardware
 - hull and stern joints

1208 Bias +/- 45 50" Roll 110 LB ROLL

Biaxial Fabrics are a stitch-bonded, non-crimp, composite reinforcement comprised of unidirectional warp(0°) and weft (90°) plies.

SKU	Description	Std. Ctn.	UOM
1208-50	50" Wide x 67 Yards	1	Roll

24 oz. Woven Roving by Roll 110 LB ROLL

Woven Roving is a loose fabric that drapes easily, conforms to compound curves, and has a heavy weave pattern that transfers through gel coat when placed near the surface.

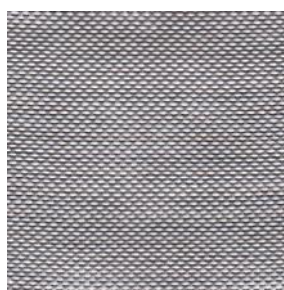

SKU	Description	Std. Ctn.	UOM
MWR24A-50HX	50" Wide x 52 Yards	1	Roll

1708 Double Bias +/-45 50" 110 LB ROLL

Double Bias is a stitch-bonded composite reinforcement combining equal amounts of continuous fiber oriented in the +45° and -45° directions into a single fabric.

SKU	Description	Std. Ctn.	UOM
1708-50	50" Wide x 52 Yards	1	Roll
YARD1708-50	Double Bias Fabric - 50"w	1	Yard

6 oz. Cloth by 50" Wide Roll 115 LB ROLL

Fiberglass cloth has exceptional specific tensile strength being better than steel wire of the same diameter but with much less weight.

SKU	Description	Std. Ctn.	UOM
06-50	50" Wide x 220 Yards	1	Roll

1808 Biaxial 0/90 50" 110 LB ROLL

Biaxial Fabrics are a stitch-bonded, non-crimp, composite reinforcement comprised of unidirectional warp(0°) and weft (90°) plies. Biaxial offers improved stiffness without added weight or laminate thickness for high-performance structural laminates.

SKU	Description	Std. Ctn.	UOM
1808-50	50" Wide x 100 Yards	1	Roll

.75 oz. Chopped Strand Mat 50" 88 LB ROLL

Chopped Strand Mat is made up of randomly oriented fibers, 1.5-2 inches long, held together by a styrene-dissolvable binder in a rolled mat form.

SKU	Description	Std. Ctn.	UOM
0.75CSM50	50" Wide x 167 Yards	1	Roll

1.5 oz. Chopped Strand Mat 50" 99 LB ROLL

Chopped Strand Mat is made up of randomly oriented fibers, 1.5-2 inches long, held together by a styrene-dissolvable binder in a rolled mat form. Product is 50" wide.

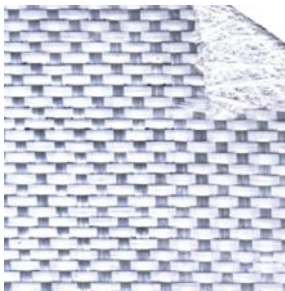

SKU	Description	Std. Ctn.	UOM
1.5CSM-50	50" x 83 Yards	1	Roll
YARD1.5-50	Chopped Strand Mat - 50"	1	Yard

Gun Roving

Gun Roving is composed of direct roving wound into a bundle or ball. The strands are designed to give controlled wet-out and excellent laminate properties.

SKU	Description	Std. Ctn.	UOM
TGRD-2400HT	38lb (Price/lb)	1	Box

2415 Combo Mat 50" 110 LB ROLL

Combo mat is a complex mat made up by stitching one layer of 24 oz. glass Woven roving and one layer of 1.5 oz. Chopped Strand Mat. Combo mat is great for quick laminate build-up and results in high strength.

SKU	Description	Std. Ctn.	UOM
2415-50	50" Wide x 48 Yards	1	Roll

PRO-VAC Tee Connectors Tubing PV-76

Durable Nylon Extra-Grip Barbed Tube Fitting Tee for 1/2" Tube ID. Ensure a tight, secure connection with these fittings.

SKU	Description	Std. Ctn.	UOM
PV-76-12	Polyethylene Connector	1	Each

1/8" Fiberglass Gelcoat Panel

A 1/8" fiberglass panel with a white high gloss gelcoat finish on one side.

SKU	Description	Std. Ctn.	UOM
NT-2.5	1/8" - 4' x 8'	1	Each
NT-1/4	1/4" - 4'X8'	1	Each

1/2" Yellow Tacky Tape

With aggressive initial tack, it will maintain an air-tight seal during the cure cycle, yet strip clean from the tool, with virtually no trace of residue.

SKU	Description	Std. Ctn.	UOM
SM5142-BYL	1/2" x 1/8" x 25'	1	Roll

Pro-Vac Breather Fabric

PET breather/bleeder offers good drapability and works well with single curvature and complex parts.

SKU	Description	Std. Ctn.	UOM
PV-90	4 oz. - 5" x 164'	1	Roll
PV-92	8.8 oz. - 5" x 164'	1	Roll

Pro-Vac Enka Resin Feed

Enka 3D matrix infusion channel for fast resin flow. Increases efficiency, reduces infusion time, and provides for steady flow speeds over large surfaces.

SKU	Description	Std. Ctn.	UOM
PV-66-50	50mm Inlet Width x 328'	1	Roll
PV-66-100	100mm Inlet Width x 328'	1	Roll

Pro-Vac Polyester Release Fabric

For hand lamination and vacuum infusion process. Red tracer indicates peel ply being left behind on the laminate.

SKU	Description	Std. Ctn.	UOM
PV-35-1.52	60" x 328'	1	Roll

Pro-Vac Vacuum Bag Film

PRO-VAC General Purpose Vacuum Bag Film is excellent for use with polyester and epoxy infusion systems, and in the production of large, complex parts.

SKU	Description	Std. Ctn.	UOM
PV-150-6	19.5' x 410'	1	Roll
PV-150-8	26.5' x 262.5'	1	Roll
PV-150-12	39' x 98'	1	Roll
PV-150-16	52.5' x 98'	1	Roll

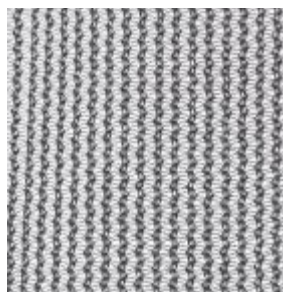

Pro-Vac General Purpose Release Film

GP Release Film is for use in the resin infusion processing of advanced composite structures.

SKU	Description	Std. Ctn.	UOM
PV-40-P3	60" x 1,640'	1	Roll

Pro-Vac Low-Flow Infusion Mesh PV-50

A 3D, PE knitted mesh, compatible with all standard epoxy, polyester, and vinylester resin systems. Slower flow, economical black "shade cloth." Drapes and conforms easily to compound shapes.

SKU	Description	Std. Ctn.	UOM
PV-50-2	2m x 100m	1	Roll

Spiral Hose 1/2 inch

PE spiral wrap with 1 mm thickness. Available in 10 mm and 12 mm i/d. Maximum use temperature of 100°C (212°F)

SKU	Description	Std. Ctn.	UOM
SPIRALTUB-ING-1/2	1/2 Thick	1	Roll

Pro-Vac Resin Inlet Connector PV-73

PE, Resin Inlet connector for inlet block. Elbow shape. Reducer to 12 mm o/d and expander to 18 mm o/d

SKU	Description	Std. Ctn.	UOM
PV-73-12	Resin Inlet Connector	1	Each

Pro-Vac Distribution Hose PV-63

A PVC Omega profile channel with 16 mm i/d interface. Interior Diameter: 16 mm. Length: 4 m. Maximum use temperature of 60°C (140°F).

SKU	Description	Std. Ctn.	UOM
PV-64	6 mm i/d. Length 4m	50	Case

Pro-Vac General Purpose Sealant Tape PV-80

Maximum use temperature 150°C (302°F). Improved level of tack and handleability. Performs best at room temperature (+20°C/+68°F); if the tape is too cold the tack levels will be dramatically reduced.

SKU	Description	Std. Ctn.	UOM
PV-80-3	3 mm x 12 mm x 15 m	1	Roll

Pro-Vac Elevated Resin Feed PV-68

A steel spiral resin feed wrapped in PRO-VAC Low-Flow Infusion Mesh (PV-50). This allows the resin feed to be elevated about the part when under vacuum, to prevent part imperfections caused by resin feed lines. Can be used up to 120°C (250°F)

SKU	Description	Std. Ctn.	UOM
PV-68-40	40 and 50' Rolls	1	Roll

Pro-Vac Resin Inlet PV-72

Infusion Inlet. 16 mm diameter. Self-seals with Resin Inlet Connector (PV-73) and Omega Resin Feed (PV-64)

SKU	Description	Std. Ctn.	UOM
PV-72-16	Infusion Inlet	20	Bag

Pro-Vac Infusion Valve PV-70
12mm

PE double O-ring infusion valve, 12 mm mm
o/d.

Throw down paint like a seasoned pro with a simple, intuitive design.

The 3M™ Performance Spray Gun was built with the industrial painter in mind.

Made from an advanced impact-resistant composite material, this spray gun is one of the lightest in the industry yet durable enough for the toughest industrial conditions. From the trigger to the body, the spray gun was optimized by kinesiologists to enhance comfort specifically for the high demands of all-day spraying.

Lightweight and Durable

One of the lightest spray guns in the industry, the impact-resistant composite body is built to withstand demanding industrial environments.

Low Maintenance and Easy

Simple, intuitive design means fewer parts to maintain or rebuild and can help achieve more consistent performance whether you're a beginner or a pro.

Replaceable Nozzles

With quick-change replaceable atomizing heads ranging from 1.1 to 2.0, it's like getting a brand new spray gun with every new nozzle.

Built for Versatility

Sprays a wide range of coatings, including, stains, primers, basecoats, topcoats, clearcoats, and adhesives — from either a pressure-fed system or with 3M™ PPS™ Series 2.0 Spray Cup System.

Engineered for peak performance.

3M™ PPS™ Series 2.0 is our most advanced Spray Cup System.
It's packed with features to help you perfect your paint jobs.

Domed Lid with Full-Diameter Filter.

More paint below the filter improves flow and consistency, while reducing spitting from start to finish.

New Cup in Every Lid and Liner Kit

Start with a clean cup more often, reducing paint build-up. On-cup ratios and fill markings eliminate traditional mixing cups.

Sealing Plug Included

Allows you to seal and protect coatings upside down with greater stability when not in use. Use fewer lids by keeping filters wet.

1 Wide Spout Adapter with Four-Point Connection

Maximizes stability while spraying. Makes cleaning easier.

2 Quarter-Turn Lid Locking System

Comes with every lid. Stays cleaner. Locks faster. Fewer parts to keep track of.

Access Window

Allows painter to hold the liner for cleaner, easier lid removal when refilling. Also easier to check paint levels.
