Welcome to the 8th edition of the Malaysia International Agriculture Technology Exhibition, the nation's largest annual B2B exhibition dedicated to farmers, growers, and planters across Malaysia and the region.

This year, Agri Malaysia brings together **450 exhibitors, 650 booths, 900 brands, and 13,000** trade professionals from 18 countries, reaffirming its position as Malaysia's most complete plantation and agriculture solutions platform. With a spotlight on **Palm Oil, Durian, Fruits & Vegetables, and Highland & Lowland Agriculture**, the exhibition reflects the strength and diversity of Malaysia's agriculture, plantation and commodities sector.

Under the theme **"Futuristic Innovates Agriculture,"** we look towards advancing the industry through technology and knowledge sharing. The presence of dedicated country pavilions from **South Korea, China, Taiwan, and India** further enhances international collaboration, opening opportunities for Malaysian

farmers and agribusinesses to connect with global expertise and markets.

Beyond trade and networking, Agri Malaysia offers knowledge-driven experiences designed to address the needs of Malaysia's agriculture community, **AgriTalk** with over 60 free seminars led by local and international speakers; **AgriDemo** showcasing live demonstrations of the latest agricultural machinery and equipment; **AgriGreen**, a dedicated showcase on sustainable and eco-friendly agriculture solutions; and **AgriSmart**, a dedicated Smart Farming Zone highlighting IoT, AI, DroneTech, and Big Data applications in Malaysian farming.

The future of agriculture is not a distant concept. It is here, and it is happening now. We invite you to explore, engage, and discover the tools, technologies, and connections that will cultivate your success for years to come.

AGRIGREEN

Sustainable and Eco-friendly Agriculture Demonstration

可持续与环保的农业演示

A dedicated showcase on sustainable and eco-friendly agriculture solutions. Visitors can see live demonstrations of electric vehicles (EV) and practical green technologies in action.

AGRISMART

Smart Farming Technologies

智慧农业技术展示

Explore the future of agriculture in the Smart Farming Zone, where the latest digital farming technologies, including Internet of Things (IoT), Big Data Analytics (BDA), Artificial Intelligence (AI), and DroneTech converge.

AGRIDEMO

Live Showcase of Agriculture Machinery

农业机械现场演示

Witness cutting-edge agriculture machinery, equipment and hardware in action at Agri Malaysia. This is your opportunity to evaluate the performance of advanced machinery and smart farming solutions.
