A Super-Simple Affiliate Income

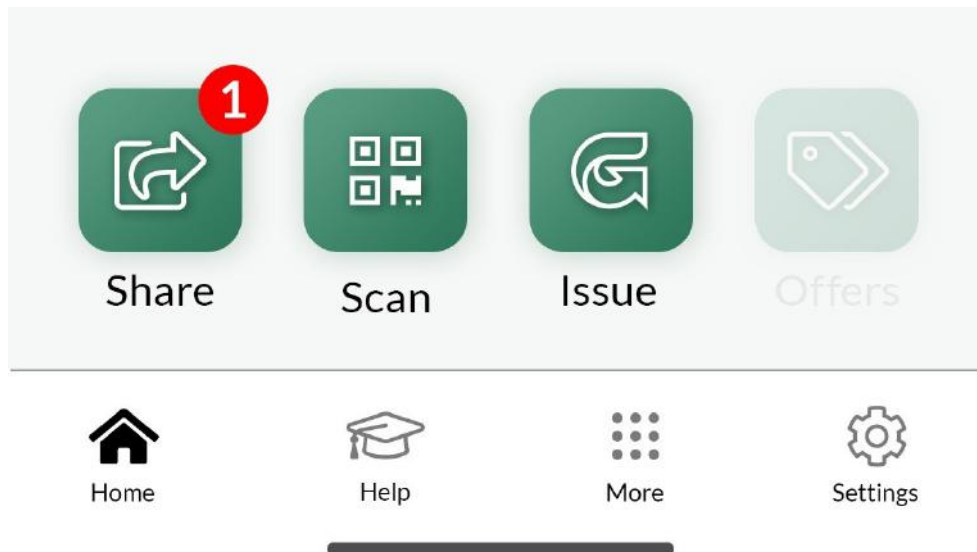

A Super-Simple Affiliate Income

Being a Frega affiliate couldn't be easier because it happens seamlessly by doing what we already do naturally online.

We all share things we find useful, and as a new user of Frega you discover you are part-owner of a platform that gives you rewards, discounts and cash and helps businesses cut costs, increase sales and become more efficient.

A 1-minute video then primes you to tap the share button and share the App with friends so they can get the same benefits free of charge too.

And that's it. You are now an affiliate.

The point is that you don't have to do anything special. You just do what you'd do anyway, like share helpful tools and great deals with friends and family, and your affiliate link is built in. There's no need to buy anything, sell anything or convince anyone.

If you're a business, you simply issue Growth Point Loyalty Rewards that grow in value and pay your customers increasing cash dividends. And again, your affiliate link is built in.

What are the benefits for an affiliate?

There are three benefits:

1. On referring just 5 new users, affiliates receive 1% cashback on all future purchases from participating businesses.
2. Every new registration entitles the affiliate to more cash for life.
3. Every new registration entitles the affiliate to more Growth Points and other assets for life, which in-turn contribute more cash.

What is each link to a new user worth?

It depends. Frega runs a set of proprietary algorithms that continually calculate the value of relationships, connections, digital footprints, engagement and more.

So, affiliate referral links to active and engaged users are the most valuable.

A business link could be worth tens or hundreds of times the value of a personal link. On the other hand, a private individual, could have large circles of influence, so their value could explode!

Or a private individual might share like mad, become a Consultant, or refer just one or two individuals or businesses with massive international reach, bringing in revenues in all the currencies of the world.

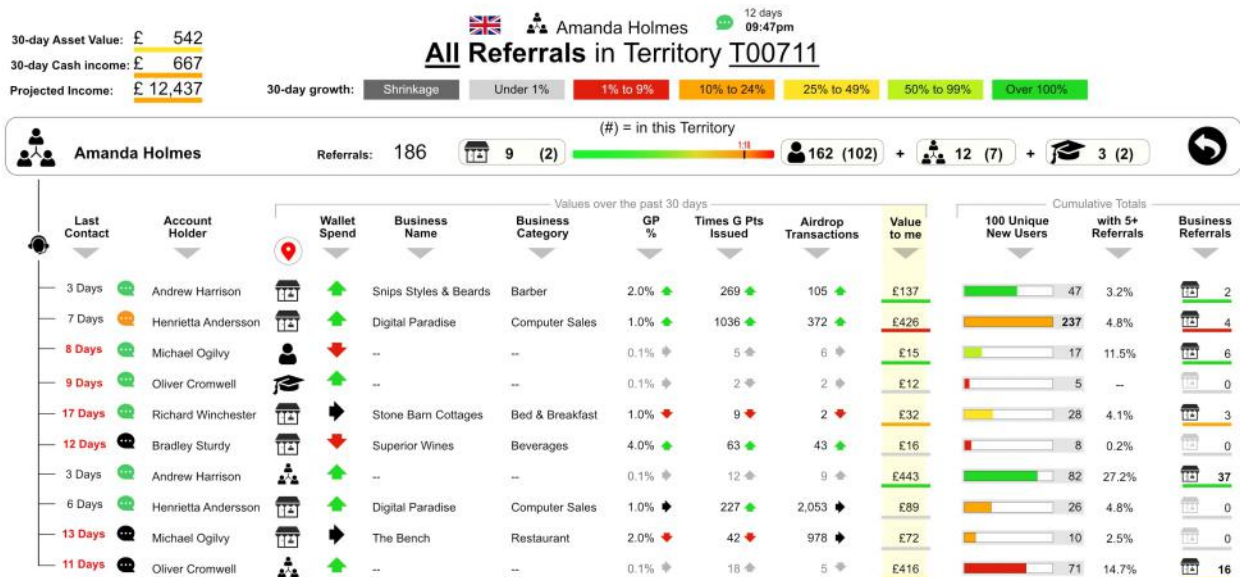

So, a link that starts as a minnow can easily become a whale!

Frega's algorithms pick all this up in great detail and to considerable depth and constantly update the growing value of every link.

Over time, active affiliates can therefore make a very substantial living.

How do Affiliates keep track?

Everyone who causes 5 or more new registrations, is entitled to an Affiliate Dashboard.

This dashboard is a tremendously valuable tool that shows:

- what each link is worth to you as an affiliate over 30 days
- the growing value of your assets (including Growth Points)
- the total amount of cash you received from all your links, over the past 30 days
- the amount of cash you are projected to receive over the next 12 months at this level of activity (before it mushrooms)
- how many links or 'referrals' you have
- how many are personal, business, affiliate or consultant
- your ratio of business to personal referrals

and much more besides...

The constantly updating dashboard is an invaluable management tool that presents every Affiliate with clear, trackable metrics and prompts to efficiently manage and grow their business day by day.

The beauty of this business, is that none of us are asked to change what we all do each day on the internet already. We all interact, engage and share content, and when we choose to pay for services, we are happy to be rewarded.

Frega has simply found a way for every-day users to turn that natural behaviour into an ever-increasing revenue stream that can and will build to several thousand dollars a month.
